what is reception

Teknion Reception is a collection of astute furniture that addresses the broadening spectrum of how public and private spaces are blending within a reception area.

The collection is a platform to ease the standard product ordering, while inspiring customization. Five distinct base models of desks offer starting points to choose variable amounts of privacy and enclosure, storage and electrical access, and accommodation for various receptionist and guest amenities.

Layering of a rich material palette is intuitive and purposeful, as the finishes selection highlights thoughtful design details that support both host and guest interactions.

what is reception

Teknion Reception offers 7 desk models, add-on worksurfaces, and storage
