

LUUM

Design-Driven Textiles Crafted for High Performance

Luum creates design-driven, performance-oriented woven and coated fabrics for the modern interior. Our knowledge of weaving and innovative technology allows us a unique perspective into the design process, creating well-crafted and intentional products in beautiful colorways and textures not seen elsewhere.

In today's unprecedented time, we understand there are new challenges for hygiene and safety in the workplace. Luum's goal is to provide information on our products to help you educate your clients on the safest and most effective ways to care for textiles.

As such, Luum does not promote the use of topical antimicrobial finishes as these products do not kill the COVID-19 virus. They are only intended to inhibit the growth of bacteria and other microbes. Antimicrobial finishes can be harmful to human health and the environment alike.

We encourage **prevention and perspective** while maintaining a healthy workplace. Cleaners such as soap and water in conjunction with household disinfectants like bleach can be effective against the spread of viruses. Maintain perspective and clean "high touch" surfaces first.

Cleaners

Cleaning products remove germs, dirt and impurities from surfaces using soap (or detergent) and water. Cleaning does not necessarily kill germs, but by removing them, it lowers their numbers and therefore the risk of spreading infection.

Disinfectants

As per the CDC, "Disinfectants kill germs on surfaces. By killing germs on a surface after cleaning, you can further lower the risk of spreading infection. EPA-approved disinfectants are an important part of reducing the risk of exposure to COVID-19". Further information regarding cleaners and disinfectants can be found on the [Centers for Disease Control](#) and [Health Canada](#) websites.

Many of Luum's 30+ **bleach and/or viricide cleanable** and **30+ bleach cleanable and 80+ isopropyl alcohol saitzable** are made for vertical and upholstery application and feature plush piles and textural dimension, which can be utilized in a variety of settings with assurance of performance.

Each fabric has unique cleaning and care instructions. For more information please refer to the Luum website filters and resources page at [luumtextiles.com](#). For further questions or assistance identifying textiles, contact Luum Customer Service at **1-877-705-5886** or email us a customerservice@luumtextiles.com. For textile applications on products please refer to manufacturers' approvals.

Velvet Underground

Soap and Water Cleanable

Luum recommends following the CDC guidelines for regular preventative cleaning. Look for Luum's over 80 products with cleaning code "W" and/or "WS": these fabrics can be cleaned with soap and water.

Multipurpose (Upholstery/Wrapped Wall/Panel)

Actuate, Bitstream, Complement, Digi Tweed, Ghat, Heather Tech, Intone, Marl Cloth, Percept

Upholstery

Amalgam, Ample, Arc Angle, Beaded Stripe, Color Fuse, Crossdye, Disrupt, Doyenne, Duo Chrome, Ephemera, Fine Grain, Filar, Flexagon, Flex Wool, Fundamentals, Heather Felt, Implex, Iterate, Line Language, Magnify, Meta Texture, Miami, Modulus, Monotex, Navigate, Outpress, Perilune, Point to Point, Point Set, Refraction, Schema, Situ, Stimuli, Structured Stripe, Substance, Superspun, Synaptic, Thangka, Top Coat, Two Tone, Ultra Durable, Vector, Velvet Underground, Vital

Wrapped Wall and/or Panel

Arc Angle, Artopia, Bandeau, Beeline, Carreaux, Crossdye, Duo Chrome, Egypt, Emit, Essentials, Fleck Forge, Heather Felt, India, Jetline, Linen Weave, Lustrado, Makah, Meme, Navigate, Nitty Gritty, Outpress, Peru, Presse, Rationale, Tangle, Topology, Vista, Twining, Wales, Warp Speed, Wired Up

Direct Glue Wall Covering

Datatown, Dhurga, Fleck Forge, Mica Shift, Soft Ridge, Strio, Telecity, Twining

Screens

Actuate, Artopia, Bandeau, Beaded Stripe, Beeline, Bitstream, Boucle Grid, Brazil, Complement, Cross Dye, Digi Tweed, Disrupt, Doyenne, Duo Chrome, Emit, Essentials, Egypt, Flexagon, Full Wool, Fundamentals, Ghat, Heather Felt, Heather Tech, India, Intone, Linen Weave, Lustrado, Magnify, Makah, Marl Cloth, Meme, Miami, Nitty Gritty, Outpress, Percept, Peru, Presse, Rationale, Stimuli, Structured Stripe, Substance, Superspun, Tangle, Topology, Twining, Vector, Vista, Wales, Warp Speed, Wired Up

Structured Stripe

Cleaning with Bleach

Bleach can be an effective disinfectant when used properly and diluted according to the care instructions for each textile. Over 30 of Luum's products are bleach- cleanable using a diluted bleach solution in three easy steps: Dilute, Clean and Rinse.

Coated Upholstery

Fine Grain, Meta Texture, Monotex, Perilune, Synaptic, Top Coat, Ultra Durable

Woven Upholstery

Bitstream, Disrupt, Doyenne, Duo Chrome, Ephemera, Flexagon, Intone, Iterate, Line Language, Marl Cloth, Modulus, Outpress, Point Set, Point to Point, Schema, Structured, Stripe, Substance, Thangka, Two Tone, Vector, Vital

Wrapped Wall and/or Panel

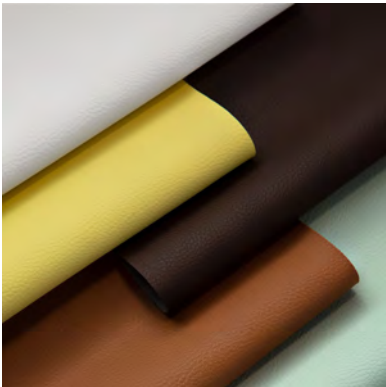

Bitstream, Duo Chrome, Emit, Fleck Forge, Lustrado, Intone, Marl Cloth, Outpress, Stratiform, Structured Stripe

Direct Glue Wallcovering

Dhurga, Fleck Forge, Mica Shift, Rhetoric, Soft Ridge (certain colorways)

Screens

Bitstream, Disrupt, Doyenne, Duo Chrome, Emit, Flexagon, Intone, Lustrado, Marl Cloth, Outpress, Structured Stripe, Substance, Vector

Top Coat

Antimicrobial

According to the Association of Contract Textiles, an antimicrobial finish is a chemical treatment applied to a fabric to combat growth of disease-causing microbes, general bacteria, infectious diseases and various targeted organisms.

An anti-microbial finish on a textile inhibits the growth of bacteria but does not kill it. **Antimicrobials also do not inhibit or kill the growth of viruses.**

Antimicrobial products used on textiles are regulated by the EPA as pesticides. Luum promotes healthy environment, and as such, we do not promote the use of topical antimicrobial finishes.

In lieu of added antimicrobial finishes, Luum promotes the use of silicone products. Silicone by its nature, does not support microbiological growth. Silicone is easily cleanable with soap and water, is bleach cleanable and can also be disinfected with healthcare grade wipes and sprays. Please see "Care of Silicone Upholstery" on our website.

Second Nature

Sanitizing with Isopropyl Alcohol

While bleach and water solutions have been shown to be effective sanitizers, the use of Isopropanol solutions may be a gentler method of sanitizing without the potential human health irritants of bleach. Over 80 Luum products can be sanitized using 70% isopropyl alcohol and 30% purified water solutions.

Always take the proper safety precautions, read all instructions carefully and follow the label directions for safe, effective use. **Many isopropyl alcohol sanitizers also contain Quaternary Ammonium. These listings are intended for the use of products that contain isopropyl alcohol and water ONLY**

Coated Upholstery

Color Fuse, Decoy, Fine Grain, Monotex, Meta Texture, Perilune, Synaptic, Top Coat, Ultra Durable

Woven Upholstery

Actuate, Adage, Amalgam, Ample, Arc Angle, Beaded Stripe, Bitstream, Complement, Construct, Cross Dye, Digi Tweed, Disrupt, Doyenne, Duo Chrome, Elastic Wool, Ephemera, Filar, Fleece, Flexagon, Full Wool, Fundamentals, Heather Felt, Flex Wool, Heather Tech, Homage, Implex, Interstice, Intone, Iterate, Knurl, Line Language, Macrotweed, Magnify, Marl Cloth, Miami, Modulus, Navigate, Oeuvre, Outpress, Percept, Point Set, Point to Point, Schema, Second Nature, Situ, Stimuli, Structured Stripe, Subdivide, Substance, Superspun, Two Tone, Vector, Velvet Underground, Vital

Schema

Sanitizing with Hydrogen Peroxide

Sanitizing with Hydrogen Peroxide Based Products

Hydrogen peroxide based products can be an effective alternative to sanitizing with chlorine-based bleach. Many healthcare grade "wipes" type products contain hydrogen peroxide as the active ingredient. Over 80 Luum products can be sanitized using products containing Hydrogen Peroxide. **As always, read ingredient labels carefully. These listings are intended for the use of products that contain Hydrogen Peroxide and water ONLY.**

Coated Upholstery

Decoy, Fine Grain, Meta Texture, Monotex, Perilune, Synaptic, Top Coat, Ultra Durable

Line Language

Sanitizing with Quaternary Ammonium

Over 50 Luum products can be sanitized using products containing Quaternary Ammonium. Many healthcare grade sanitizing products contain Quaternary Ammonium as the active ingredient. It is important to read the product directions to ensure that it is specified for use on soft or porous surfaces. Quaternary Ammonium products can have a negative effect on human health and surfaces. Our recommendation is to use the gentlest sanitizers first, before using products containing Quaternary Ammonium. **As always, test products in an inconspicuous area first and always rinse with clean water.***
