

ballad upholstered chair

ballad upholstered chair

product information

Designed for Studio TK by Patrick Norguet, Ballad is "pure, a simple form with nice details and a little character." But a great chair is more than just design and the form is secondary to the invitation of comfort. Comfort was at the forefront in the design process for Ballad and the result is something special, a complete line of seating that provides good comfort; good value; good quality; and of course, good design.

Optionality is fundamental to Ballad seating. Chairs are available with or without arms in six base options that are finished in a durable powder paint or rich wood tone. Fully or partially upholstered Ballad has the option of matching or contrasting textiles on the seat and back.
