yurei *by koncept*

Comprised of a Table Lamp, Thru Mount and Floor Lamp, the Yurei family brings modern sophistication to whatever environment it's in, from open ancillary spaces to quiet private offices. Emitting a beautifully soft, diffused glow thanks to a large, dimmable LED panel, the light it casts can be further personalized by raising or lowering the telescopic body. Offering choice in aesthetic style, Yurei can be specified with a removable polymer shade in clear or translucent tints, or without the shade for a minimalist look. The USB-C port adds yet more function and convenience.
