Section: WORKSURFACES AND WORKSURFACE SUPPORTS

Description: SEMI-SUSPENDED GABLE (UNGSN) INSTALLATION

STEP 1: Fasten the Horizontal Spanner to the left and right Gable Post assemblies.

NOTE: Follow STEPs 1-2 to install Semi-suspended Gable without infill.

STEP 2: On a clean surface, place the Worksurface upside down. Using pilot holes provided as a location guide, secure Gable onto Worksurface. Note that the Leg corners and edges should be aligned with those of the Worksurface.

STEP 3.

STEP 4.

Section: WORKSURFACES AND WORKSURFACE SUPPORTS

Description: LOW CREDENZA TO WORKSURFACE SUPPORT (UWCPWNF) INSTALLATION

FIT BRACKETS INTO CREDENZA

STEP 1: Engage Brackets into the top edge of Credenza as shown. Do not fasten. See STEP 3 for install locations.

PLACE FOAM TAPE INTO FRAME TOP RAIL

STEP 2.

ALIGNMENT - BRACKET PLACEMENT

STEP 3a: Align Worksurface and Brackets. Guidelines for placing Brackets: (1) Put the Brackets as far apart as possible. (2) Ensure Bracket does not extend outside Worksurface or if possible, leave a 1/2" gap. (3) Both Brackets can fit into a single credenza opening or different openings. (4) Do not install Bracket into any drawer space.
