teknion visio

Visio™ achieves maximum comfort at an affordable price, providing simple, yet effective ergonomic seating. Lightly scaled, Visio features a slim contoured mesh back attractively suited for varying office applications as well as the home office.

features

- Mesh back – adapts to the individual body shape providing superior back support
- Upholstered seat with molded foam – increases comfort and weight distribution
- Fabric selections include standard Visio Grey and Visio Black; or ten options from the Luum Percept collection
- Frame finish options include Ebony Coordinate and Grey Coordinate
- Weight-balanced synchronized mechanism with height adjustment, back tilt and tilt lock
- Seat height adjusts 4 inches/102mm – adjusts to the leg length of the user for proper posture and circulation
- Seat depth adjusts 2 inches/51mm – promotes proper contact with the chair back helping reduce pressure behind the knees
- Arm height adjusts 4 inches/102mm – helps improve comfort in the arms, shoulders and neck
- Armrests feature polyurethane pad
- Lumbar support adjusts 2½ inches/64mm – maximizes support for each user
- Chair tilt locks in 3 positions or freely reclines – provides appropriate support for varying work postures
- Nylon base with 60mm casters
- Meets ANSI/BIFMA requirements
- Designed and tested for users up to 125kg
- Available fully assembled or with assembly required
