

pico

features

Inspired by Mt. Pico, Portugal's highest mountain peak, Studio TK's Pico Lounge is perfectly designed for public spaces, offices, lounges, or collaborative areas. Pico brings a sculptural element to today's workspaces from back to front. To achieve this goal, famed designers Flemming Busk and Stephan Hertzog used folded paper to create the natural shape of Pico. The organic appearance of both the low back and high back versions evoke a sense of comfort, encourage free movement, and open various seating postures. Complementing the free-flowing design, three very distinct bases are available: a 4-star swivel base, metal sled base and wood leg base. As a result, Pico is everything you want from a lounge chair; it is inviting, warm, and welcoming.
