

teknionbanqs

teknion

Teknion® and design firm PearsonLloyd have sustained a creative partnership and collaboration that takes new form in Banqs™ – a seating collection shaped by the concept of multi-purpose settings that suit a mix of activities from thoughtful, focused work to informal meetings and social gatherings.

Designed for corporate, educational and public spaces, Banqs is comprised of sofas, screens, tables and accessories that create linear seating, hubs and booths. Banqs can be adapted as desired to form multi-use spaces adjacent to workstations or as a designated meeting space, lounge area or cafeteria.

Key features:

versatility

- Suitable for use in diverse spaces or for a variety of uses in one space
- A range of freestanding modular elements permits multiple planning formats and applications
- Integrates with interior architecture, but unlike custom millwork, Banqs can be reconfigured as needs change

quality

- Designed to look and feel like residential seating; built to perform like a commercial product
- Comfort and craft elevate the Banqs product with sculpted cushions, detailed upholstery and cast aluminum legs

efficiency

- A concise set of components makes Banqs easy to plan, specify and install
- Enables layouts that optimize space in back-to-back, perimeter and open plan formats
- Accessories such as A/V integration and a table lamp enhance functional needs

variable chairs
Shell: *Medium Taupe*
Legs: *Chrome*

Among the many applications possible in the corporate environment, Banqs offers a unique opportunity to convert existing, but under-used real estate, into attractive multi-use spaces that remain active throughout the day.

Banqs' freestanding components integrate with the architectural envelope to create a sense of continuity. Unlike millwork constructed for benches and alcoves, Banqs can be reconfigured as needed to serve a variety of functions and respond to changing patterns.

Surface: *Natural Beech*
Base: *Crisp Grey*

Ideal for public or corporate settings, Banqs works in concert with Teknion's Zones™ lounge chairs and tables to create a comfortable lounge area with a light, residential appearance. Banqs sofas with high screens delineate space and provide a degree of

privacy, while the low screen and backless models create visual variety. Durable textiles ensure longevity in high-use spaces, while adding color and texture to enhance aesthetics.

Banqs can be configured in a linear, back-to-back, U-shape or L-shape layout to create welcoming spaces where individuals can work, meet or share lunch. Zones chairs add another level of versatility when mixed with

Banqs seating in an open-plan or perimeter setting. Banqs tables are available with two base styles to further expand design options.

Freestanding units establish a social destination adjacent to a work area and encourage frequent use of the semi-enclosed gathering space. Back-to-back applications maximize planning and occupancy. A creative

use of textiles in colors and patterns that range from neutral to bold, in tones that contrast or harmonize, lends a distinctive look and feel.

Base: *Ebony*

Banqs is available with perpendicular High Spanning Screens that delineate and define space. The structural screens accommodate a TV or monitor with custom wire management channels. Upholstered high screens balance

visual privacy and acoustic protection to support focused tasks without isolating workers. Incorporating digital tools enhances collaboration, while the Zones Table Lamp creates a warm ambience.

01 a/v integration

A TV or monitor can be mounted directly to the Banqs High Spanning Screen or to the building architecture. The Zones Power Pill gives users access to power/USB at the tabletop. Both options incorporate wire management.

02 power cube

An optional Power Cube located below the seat provides a convenient power/USB recharging station.

03 frame detailing

Banqs sofas feature an upgraded cast aluminum frame leg that evokes residential furnishings. Banqs tables have a flat base, which allows for ease of entry and exit in booth applications. A 4-prong table base is also available.

04 zones table lamp

The Zones Table Lamp integrates with the Banqs table to provide ambient lighting that evokes a domestic mood.

05 fabrics and finishes

Banqs can be upholstered with high-performance textiles to provide durability and ease of cleaning in high-traffic spaces. A full range of Luum and leather options are available as well as COM/COL. Tables are available in laminate, veneer, Flintwood and Seamless, further expanding creative options.

06 upholstery

Banqs' design allows layering of color and texture with individual upholstery options on the seat, bolster and screen. Adding Zones loose pillows further enriches the aesthetic.
