WHAT IS ZONES 7

INDEX 24

PRICE & APPLICATION GUIDE 29

a comprehensive collection
that transforms the office,
challenges convention and
changes the way people
experience work

what is zones

Influenced and inspired by the modern worker who seeks movement, flexibility and convenience, Zones transitions the workplace from one that's fixed and traditional to a custom setting tailored to informal work flows.

The Zones portfolio is comprised of seating, tables, screens, easels and accessories, as well as semi-private enclosures which can act as either intimate collaborative settings or places of retreat when privacy is desired.

warmth and familiarity

Throughout Zones, wood is used as a modern engineering material ensuring strength, flexibility, sustainability, beauty, craft and humanity. The combination of wood with other materials, and Zones' harmonious, soft design, emphasize the domesticity of the collection.

flexible spaces

While each element of the series works in concert with other pieces within the line, the simplicity of Zones allows individual pieces to be combined in varied ways to create fluid work areas that exist in between high-density workstations and fully collaborative environments. In order to further promote this "use anywhere" functionality, many Zones pieces are available in all Teknion paint colors and worksurface finishes for optimal aesthetic integration.

informal productivity

Developed to challenge conventional office layouts, Zones creates a landscape less bound by fixed structures, one in which people are free to gather or retreat. Each element is intuitive in application and has a neutral simplicity that allows for a setting that bridges traditional work models and emerging patterns in which workers shift from task to task and place to place throughout the day.

a collection of furniture

Zones' breadth of offering with a consistent design language across multiple workplace categories makes it unique.

work tables

Work Tables are available in a variety of shapes and sizes equally suitable for meeting or touchdown spaces. The collection includes canteen tables for informal meetings, bistro tables for cafe areas, workshop tables for fully engaged project meeting areas, and ledge tables for casual perching or standing.

casual tables

Casual Tables are available in a variety of shapes and sizes that promote interaction. The collection includes coffee and tea tables, laptop tables and side tables.

multi-use seating

Multi-Use Seating can be used across an entire floorplan with Zones tables, enclosures and screens to create functional settings that meet a designer's aesthetic vision. The curved leg detail coordinates with work tables, casual tables and easels.

soft seating

Soft Seating can be used across an entire floorplan, both inside and outside of enclosures and screens, to create functional settings that meet a designer's aesthetic vision.

enclosures

Enclosures make it possible to create semi-enclosed, focused or collaborative settings. Ideal for lounge or table based settings, sit or stand applications and supporting digital or analog tools.

screens

Screens create a myriad of planning possibilities with various levels of privacy and functionality. Styles include: lounge for casual soft seating, hinged for flexibility and workshop for hospitality and media hosting.

a collection of furniture (continued)

storage

Storage provides project related and hospitality storage. The collection includes stationary service and media units and mobile trolleys.

accessories

Accessories can be used throughout a floorplan. Easels provide a portable writing surface and tech easels add technology to an open space. Coat stands and coatcheck easels store personal clothing items.

lighting

Zones ambient lighting creates a cozy, inviting atmosphere. The collection includes freestanding arc lamps, floor lamps and table lamps.

workstation integration

Workstation Integration elements provide systems functionality without sacrificing style. The organic design elements create fluid, inviting shapes that engage users in a state of comfort. The collection includes screens, worksurfaces and legs that seamlessly integrate with District and upStage.

modular seating

Modular Seating is a collection of upholstered benches, tables and accessories designed to go beyond the traditional requirements of lounge seating. Straight and curved benches are ideal for curvilinear and serpentine planning and can connect different activities within a single footprint.

informal productivity

Zones gives users choice, enables access and creates fluid environments that foster informal productivity. Zones accommodates every functional prerequisite – social lounge areas and intensive workshop spaces and places for quiet focus.

collaborative

Tables and seating can be used to create open or semi-enclosed collaborative settings that may be lounge or table-based.

workshop

Beyond spaces for informal collaboration in the modern office, there is an emerging need for group settings that fully engage participants in workshop or project-centered work. Zones seating, tables, screens and easels combine in multiple ways.

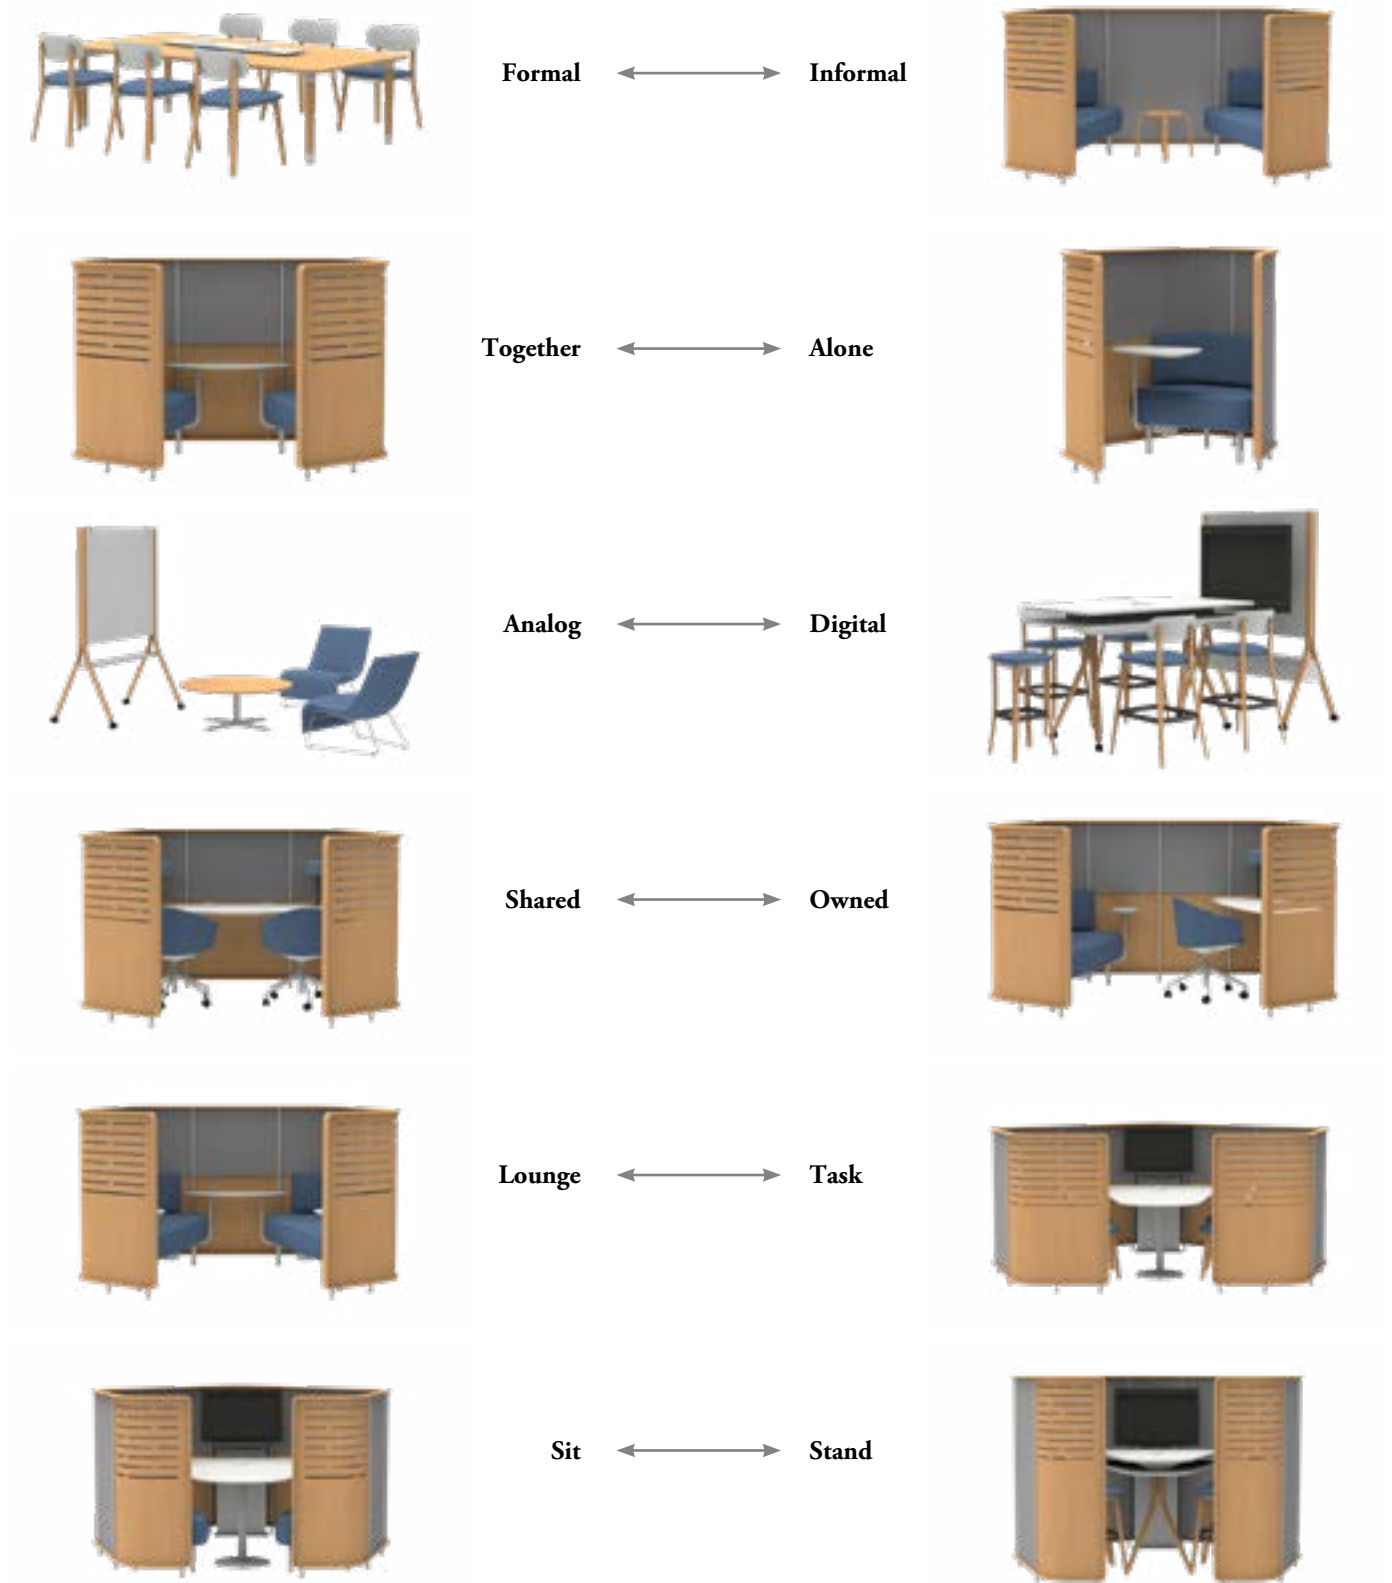

focus

Enclosures and Screens provide a sheltered place to focus and encourage workers to step away from the workstation.

informal productivity (continued)

The Zones collections are not just about “Social Spaces”, they are places where work is done, where users can be productive even if they are in a more informal casual setting.

what is zones

add a little, add a lot

Zones integrates across new and existing workplaces. Incorporate individual furniture pieces such as chairs, tables or easels into existing layouts or use a combination of components such as enclosures, screens, tables, lamps and seating to enhance the work flow, comfort and productivity of any environment.

Original Floorplan

Workplace transformed with Zones

add a little, add a lot (continued)

1

office setting

Set the tone of domesticity in a private office.

- Add traditional Club Chairs and a Coat Stand

2

meeting setting

Provide informal meeting spaces.

- Add Workshop Table with accessorized Table Runner and Conference Lounge Chairs
- Add Storage and Coatcheck Easel to maximize functionality

3

community harvest

Define and create a shared community space.

- Add a Square Workshop Table and two-person Benches
- Add an easel for functionality and Arc Floor Lamp for ambient lighting

4

break out space

Provide alternative postures and topography.

- Add Canteen Tables and Side Stools at bar height

5

modular seating

Provide a mixed use area for work, social and break.

- Add modular seating to address today's work behaviors and planning

6

café area

Encourage user interaction between sitting and standing.

- Add task and bar height Canteen Tables with Side Chairs/Stools
- Add Tech Easel

7

enclaves

Create a casual lounge space for solo work or informal connections.

- Add a Freestanding Lounge Screen with soft seating and a casual table
- Add a Focus Zones-Solo Enclosure with In-the-Zone Sofas

8

workstation area

Condense workstation sizes to create focused spaces that allow users to retreat to individual work areas.

- Add a Focus Zone-Twin Enclosure

9

workstation integration

Allow for the Zones aesthetic to be integrated into workstation planning.

- Add Zones Semi-Supported Worksurface for upStage Integration, Corner Desk Edge Screens and Semi-Supported Worksurface Support Kit

zones finishes

Zones products are available in a variety of wood, laminate and paint finishes, including three unique veneers that coordinate with the Teknion finish collection.

Refer to individual Overview Pages for specific finishes for each product and Teknion’s Fabrics & Finishes Guide for full selection.
The following are the finishes that are unique to Zones.

ZONES VENEER

ZONES GRADE 2 LAMINATE

ZONES VERTICAL LAMINATE

ZONES SEATING PLASTICS

ZONES FOUNDATION LAMINATE

All Teknion Veneers 2 and 3

zones finishes (continued)

Zones' extensive finish offering allows a user to create palettes from neutral to bold.

Natural Beech Veneer
Crisp Grey Paint Finish
Crisp Grey Laminate
Herbal Accent

Greystone Beech Veneer
Greystone Paint Finish
Greystone Beech Laminate
Atmosphere Accent

Pecan Beech Veneer
Greystone Paint Finish
Fossil Laminate
Sand Laminate
Signal Red Accent

humanity and happiness

Zones' approach to design recognizes the human need for spaces that are both practical and pleasurable to inhabit, helping people feel at home in the office.

- Workers at home are typically in constant flux rather than remaining stationary
- This changing posture throughout the day promotes healthy ergonomics
- Zones, too, encourages changing postures, enabling users to lounge, work, rest, relax, stand, sit, meet and perch

Low casual seating and tables allow for a relaxed posture which creates a casual space to read, take a quick phone call or have a brief informal meeting.

The 25" high Dialogue Workshop Table used with the upright position provided by a Zones Conference Lounge Chair allows for casual meeting spaces where a more informal and relaxed posture can be created.

A 29" high task height table and work chairs allow for proper seated posture where you can work, have formal meetings and be fully engaged for longer periods of time.

The 36" high counter height tables provide the ability for two people to converse at the correct eye level while one is sitting and one is standing.

The 42" high bar height tables and chairs allow for proper seated posture and also allows one to stand and be at the proper worksurface height. This can allow for casual seating or quick impromptu meeting spaces.

introduction

where to find the information you need

Teknion provides an array of tools and information resources to help you get things done simply and easily. From product pricing to application guidelines to online planning suggestions, you will find what you need when you need it.

guide contents

This guide contains all the information you need to order this product through your specification software. The Introduction section provides everything you need to get started, including an index for product reference. The Application Guide section contains detailed specification guidelines, application and planning information to help you plan your project correctly. The Price Guide sections provide detailed pricing and specification information by product type. Available online at www.teknion.com.

where to find the information you need

All Teknion marketing materials are available online at www.teknion.com, including:

price & product guide

application guide

planning tool

installation guides

fabrics & finishes

product photography & drawings

weights & volumes

order forms

warranty/terms & conditions of sale

xpress program guide

teknion forms

The following forms are available online at www.teknion.com, to help you specify and place your order if required:

teknipaint

If you require a custom paint color match, you must submit a TekniPaint form.

using your own material (COM)

If you wish to use your own material on fabric-covered products, you must submit a completed COM form including a sample upholstery and safety testing. A COM Order Information Sheet must also be submitted. This form captures all relevant ordering and tracking information. A COM Request for Yardage Calculation form may be sent to Teknion for preliminary yardage requirements.

placing a manual order

Complete an Order Cover Sheet with the information we need to fill your order. This is the most important step. If the Order Cover Sheet is not complete and correct, the order may be delayed.

key requirements

If you require that certain pieces share the same locks you will need to specify Set of Keys Alike (SOKL) located in the Price and Product Guide.

user feedback

How is our marketing material working for you?

Feedback from the user is very important to the quality of Teknion's marketing material. We ask that if you have suggestions on how you think we could improve content OR if you have found an error, that you contact your Teknion Technical Services department.

Zones tables are designed to work in both work and casual spaces.

- Tables with rounded edges and wood legs provide a warm aesthetic

work tables

canteen tables

Canteen tables provide an informal non traditional meeting space.

- Available in a variety of worksurface shapes and three heights to support a variety of postures
- Ideal for 3-6 people
- Zones style curved legs

dynamic cubby table

Made up of two layers, one acting as a working surface and the other to create a storage niche.

- Ideal for 3-6 people
- Available in bar height
- The curved leg has optional casters to provide easy mobility in dynamic work areas

workshop tables

Ideal for group settings that fully engage participants in project centered work.

- Ideal for 4-20 people
- Straight turned wood leg
- Optional integrated electrics available
- Available in three heights to support a variety of postures

bistro tables

Ideal for casual lounge or cafeteria settings.

- Suitable for 2-4 people
- Available in task and bar height
- Available with 4-star metal base

understanding tables (continued)

work tables (continued)

ledge tables

Provides additional surface area, optimized to support casual touch down areas around the modular sofa.

- Shallow depth is ideal for perching or standing
- Suitable for 2-4 people
- Available in rectangular and curved shapes

casual tables

coffee, tea and side tables

Ideal for lounge and casual settings.

- Coffee tables, tea tables, and side tables are available with a variety of heights

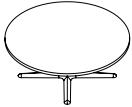

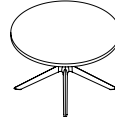

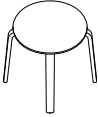

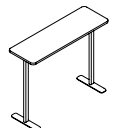

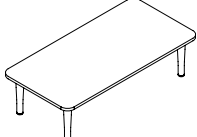

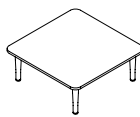

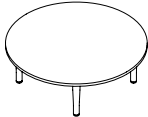

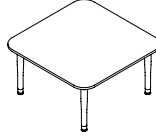

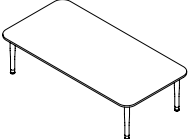

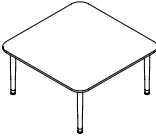

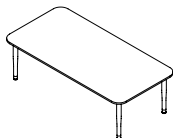

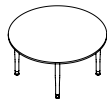

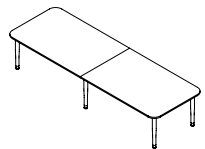

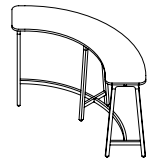

laptop tables

A wide but shallow table that helps one organize their items around a small pull-up table.

understanding tables (continued)

The following chart outlines the heights of all tables within the Zones family.

<p>Casual Tables</p> <ul style="list-style-type: none"> • Low Tea Tables – 16" high • High Tea Tables – 19" high • Coffee Tables – 19" high • Round Side Table – 18" high • Laptop Table – 26" high 	 <p>* 19" high table (shown)</p>	 <p>Low Tea Tables (Round and Square) (ZNTSR/ZNTSS)</p>  <p>High Tea Tables (Round and Square) (ZNTTR/ZNTTS)</p>  <p>Coffee Tables (Round, Square and Rectangular) (ZNTTR/ZNTTS)</p>  <p>Round Side Table (ZNTFF)</p>  <p>Laptop Table (ZNTLT)</p>

canteen table basics

Zones Canteen Tables have a curved leg aesthetic and are ideal for touchdown settings.

- Heights:
 - Task height (29")
 - Counter height (36")
 - Bar height (42")
- Styles:
 - Soft Rectangular
 - Soft Square
 - Round
- Available with glides that have a 1/2" leveling range

Soft Square Canteen Table (ZNTCS)

- Sizes
 - 36" deep
 - 42" deep
 - 48" deep

Round Canteen Table (ZNTCR)

- Four sizes, depending on height
 - 30" diameter
 - 36" diameter
 - 42" diameter
 - 48" diameter

Soft Rectangle Canteen Table (ZNTCC)

- Sizes:
 - 30" deep x 72" wide
 - 36" deep x 72" wide
 - 36" deep x 96" wide
- Power option:
 - Power Pill (ZNEPLA/ZNEPLB only) cut out
- Bar height table available with casters

dynamic cubby table basics

The Zones Dynamic Cubby Table consists of two layers, one acting as a working surface and the other to create a storage niche. The legs have the same curved aesthetic as the Canteen Table but include casters to provide easy mobility in dynamic work areas.

- Height: 43"
- Rectangular style only

Dynamic Cubby Table (ZNTCD)

- Sizes:
 - 30" deep x 72" wide
 - 36" deep x 72" wide
- Power option:
 - Power Pill (ZNEPLA/ZNEPLB only) cut out
- Available with casters only, two casters will have locks
- It is recommended that this table be used with Zones Bar Height Stools

canteen table finishes

The following outlines the finishes available with Zones Canteen Tables.

Table Top:

- Zones Foundation Laminate
- Grade 2 Laminate
- Zones Veneer

Supports:

Frame Paint Finish:

- Greystone
- Crisp Grey
- Sand

Legs:

Veneer:

- Natural Beech
- Greystone Beech
- Pecan Beech

woodgrain direction

Woodgrain always runs parallel to the length of the worksurface.

datum heights

Canteen Tables are available in task, counter and bar height to allow for different meeting styles.

Task Height
29" high

Counter Height
36" high

Bar Height
42" high

Dynamic Canteen Table - Bar Height
43" high

planning with canteen tables (continued)

recommended occupancy

The following demonstrates the recommended table occupancy to allow for adequate personal and working space and proper alignment with the curved legs of the tables.

Round Canteen Table
30", 36", 42" and 48" diameter
(42" diameter, shown)
3 people maximum

Soft Square Canteen Table
36", 42" and 48" deep (42" shown)
4 people maximum

Soft Rectangle Canteen Table
36" deep x 72" wide (30" deep also available)
6 people maximum

Soft Rectangle Canteen Table
36" deep x 96" wide (30" deep also available)
8 people maximum

Rectangular Dynamic Cubby Table
30" deep x 72" wide
6 people maximum

Rectangular Dynamic Cubby Table
36" deep x 72" wide
6 people maximum

planning with the dynamic cubby table

The following dimensions should be considered when planning with the Dynamic Cubby Table to ensure that the correct stool height is specified.
The Bar height stool should be used with a Dynamic Cubby Table, the table is 1" higher than a typical bar height table.

Bar Height Stool (shown)

planning with canteen tables (continued)

electrics and wire management

The following tables can be specified with a Power Pill cut out. The Power Pill (ZNEPLA/ZNEPLB only) must be ordered separately.

Soft Rectangular Canteen Table (ZNTCC)

Dynamic Cubby Table (ZNTCD)

If a Power Pill is specified on the Dynamic Cubby Table (ZNTCD) it will be mounted to the top worksurface, there is an access hole provided in the lower worksurface to allow cables to pass through.

glides and casters

Canteen Tables include glides with a 1/2" leveling range.

The Dynamic Cubby Table is available with casters, which will lock on one side only.

workshop table basics

The Zones Workshop Table can be used for semi-private or semi-formal spaces without having to rely on partitions and the architecture of the space. They serve the needs of classic meeting type environments.

- Height: 29"
- Styles:
 - Rectangular
 - Square
 - Round
- Available with or without Power Pill (ZNEPLA/ZNEPLB only) or Table Lamp cut outs
- Accommodates User-Edge USB Hub (available from Complements: *Teknion's Ergonomics & Accessories Program*)
- Provides a -1/2", + 1-1/2" leveling range

Runner (Specified with Workshop Table)

- The optional Table Runner provides a platform for a variety of meeting needs including power and lighting
- 9" deep
- 24", 48" and 72" wide, in single and double sections

Square Workshop Table (ZNTWS)

- 48" and 60" wide

Rectangular Workshop Table (ZNTWT)

- 48" deep
- 96" and 120" wide
- Available with cut outs to accommodate Power Pills or Table Lamps in the following configurations:
 - No Power Pill or Table Lamp
 - One Power Pill center
 - Two Power Pills inner
 - Two Power Pills outer
 - One Power Pill center, Two Table Lamp outer
 - Two Power Pills inner, Two Table Lamp outer
 - Two Power Pills outer, One Table Lamp inner
 - Two Power Pills outer, Two Table Lamp inner

Rectangular Workshop Table (International Cut Out) (ZMTWT)

- 48" deep
- 96" and 120" wide
- Available with cut outs to accommodate outlets or Table Lamps in the following configurations:
 - No outlets or Table Lamps
 - Two outlets
 - Two outlets inner, two Table Lamps outer
 - One Table Lamp center, two outlets

Round Workshop Table (ZNTWR)

- 54" and 60" Diameter

dialogue workshop table basics

The Zones Dialogue Table is similar to the Workshop Table with a more casual posture for informal settings.

- Height: 25"
- Styles:
 - Rectangular
 - Square
 - Round
- Available with or without Power Pill (ZNEPLA/ZNEPLB only), Table Lamp cut outs
- Accommodates User-Edge USB Hub (available from Complements: *Teknion's Ergonomics & Accessories Program*)
- Provides a -1/2" – +1-1/2" leveling range

Runner (Specified with Workshop Table)

- The optional Table Runner provides a platform for a variety of meeting needs including power and lighting
- 9" Deep
- Available in 24", 48" and 72" wide, in single section only

Square Dialogue Workshop Table (ZNTWB)

- 48" wide

Rectangular Dialogue Workshop Table (ZNTWA)

- 48" deep
- 72" and 96" wide
- Available with cut outs to accommodate Power Pills or Table Lamps in the following configurations:
 - No Power Pill or Table Lamp
 - One Power Pill center
 - Two Power Pills inner
 - Two Power Pills outer
 - One Power Pill center, Two Table Lamp outer
 - Two Power Pills inner, Two Table Lamp outer
 - Two Power Pills outer, One Table Lamp inner

Rectangular Dialogue Workshop Table (International Cut Out) (ZMTWA)

- 48" deep
- 72" and 96" wide
- Available with cut outs to accommodate outlets or Table Lamps in the following configurations:
 - No outlets or Table Lamps
 - One outlet center
 - Two outlets
 - Two outlets inner, two Table Lamps outer
 - One Table Lamp center, two outlets

Round Dialogue Workshop Table (ZNTWD)

- 54" Diameter

lounge workshop table basics

The Zones Lounge Workshop Table is ideal for lounge height meetings.

- Height: 16"
- Styles:
 - Round
 - Square
 - Rectangular
- Available with or without Center Power Pill (ZNEPLA/ZNEPLB only) and International cut out

Rectangular Lounge Workshop Table (ZNTWG)

- Sizes:
 - 30" deep x 48" wide
 - 30" deep x 54" wide
 - 30" deep x 60" wide
 - 30" deep x 66" wide
 - 30" deep x 72" wide

Square Lounge Workshop Table (ZNTWE)

- Sizes:
 - 42" deep x 42" wide
 - 48" deep x 48" wide

Round Lounge Workshop Table (ZNTWC)

- 48" diameter

workshop table finishes

The following outlines the finishes available with Zones Workshop Tables.

Table Top:

- Zones Foundation Laminate
- Grade 2 Laminate
- Zones Veneer

Table Runner:

Solid Surface:

- Glacier White

4 people maximum

Square Dialogue Workshop Table
48" deep x 48" wide
4 people maximum

Rectangular Dialogue Workshop Table
48" deep x 72" wide
6 people maximum

Rectangular Dialogue Workshop Table
48" deep x 96" wide
8 people maximum

planning with workshop tables (continued)

Zones Rectangular Tables should not be ganged together, the leg location may interfere with the chair placement.

workshop tables vs. dialogue vs. lounge workshop tables heights

Workshop Table:

- 29" high, ideal for meeting and formal spaces
- Multi-use and Task Chairs should be used with this table

Dialogue Workshop Table:

- 25" high, ideal for casual and informal spaces
- The Zones Conference Lounge Chair and other Teknion and StudioTK casual seating should be used with this table

Lounge Workshop Table:

- 16" high, ideal for informal spaces
- Multi-use and Task Chairs should be used with this table

leveling range

Workshop and Dialogue Tables have a $-1/2'' - +1-1/2''$ leveling range.

planning with workshop tables (continued)

table runner

- Mounts to the top of a rectangular Workshop Table or Dialogue Workshop Table
- Available in three sizes to match table lengths
- A variety of cut out configurations are available to accommodate the Power Pill (ZNEPLA/ZNEPLB only) or Table Lamp

For 72" wide tables, one Table Runner (36" wide)

One Power Pill, Two Table Lamps

One Power Pill

No Cut Outs

For 96" wide tables, one Table Runner (48" wide)

Two Power Pills, One Table Lamp

Two Power Pills, Two Table Lamps

Two Power Pills, Outer

Two Power Pills, Inner

No Cut Outs

For 120" wide tables, one Table Runner (72" wide)

Two Power Pills, Two Table Lamps

Two Power Pills

No Cut Outs

For 120" wide tables, two Table Runners (2 x 24" wide)

Two Power Pills, Two Table Lamps

Two Power Pills

No Cut Outs

When Power Pills are used, there will always be a 3/8" gap for cable routing.

When a Power Pill is specified on a table without a Runner, the 3/8" gap will be between the Power Pill and the top of the table.

When a Power Pill is specified on a table with a Runner, the 3/8" gap will be between the Runner and the top of the table.

long workshop table basics

The Zones Long Workshop Table provides a communal surface for impromptu collaboration and independent work.

- 29" high
- Rectangular style only
- Available with or without Power Pill (ZNEPLA/ZNEPLB only) and CALA (International Electrics) cut outs
- Accommodates User-Edge USB Hub (available from Complements: *Teknion's Ergonomics & Accessories Program*)
- Provides a -1/2" - +1-1/2" leveling range
- Worksurface and support specified separately – same width support coordinates with same width worksurface

Long Workshop Table - Worksurface (ZNTWM)

- 48" deep x 144" wide
- 48" deep x 192" wide
- 48" deep x 216" wide
- 48" deep x 288" wide

Long Workshop Table – Worksurface (Power Pill Cut Out) (ZNTWM)

- 48" deep x 144" wide
- 48" deep x 192" wide
- 48" deep x 216" wide
- 48" deep x 288" wide
- Available with cut outs to accommodate Power Pills (ZNEP)

Long Workshop Table – Worksurface (CALA International Cut Out) (ZNTWM)

- 48" deep x 144" wide
- 48" deep x 192" wide
- 48" deep x 216" wide
- 48" deep x 288" wide
- Available with cut outs to accommodate CALA Power Modules (ZNEB)

Long Workshop Table – Supports (ZNTWN)

- 28" high
- 48" deep
- 144", 192", 216" and 288" wide

ALSO AVAILABLE:

Please see the *Workstation Integration* section in this guide for the Table Top Screen (ZNDST).

planning with long workshop tables

The following should be considered when planning with Long Workshop Tables.

recommended occupancy

The following demonstrates the recommended table occupancy to allow for adequate personal and working space on Long Workshop Tables.

Long Workshop Table 12 feet
48" deep x 144" wide
10 people maximum

Long Workshop Table 16 feet
48" deep x 192" wide
14 people maximum

Long Workshop Table 18 feet
48" deep x 216" wide
14 people maximum

Long Workshop Table 24 feet
48" deep x 288" wide
20 people maximum

leveling range

Long Workshop Table has a $-1/2"$ to $+1-1/2"$ leveling range.

planning with long workshop tables (continued)

electrics and wire management

The Long Workshop Table (ZNTWM/ZNTWN) can be specified with a Power Pill cut out. The Power Pill (ZNEPLA/ZNEPLB only) must be ordered separately.

48" deep x 144" wide
Will accommodate two Power Pill cut outs

48" deep x 192" wide
Will accommodate two Power Pill cut outs

48" deep x 216" wide
Will accommodate three Power Pill cut outs

48" deep x 288" wide
Will accommodate three Power Pill cut outs

When specifying a Power Pill for the 288" Long Workshop table, a minimum 180" Power Pill cord must be specified on either side to reach the center.

planning with long workshop tables (continued)

electrics and wire management

The Long Workshop Table (ZNTWM/ZNTWN) can be specified with a CALA (International Electrics) cut out.

Only the CALA Power Module, Double Module (ZNEBD) can be specified with the Long Workshop Tables with CALA cut out. The CALA Power Module, Double Module (ZNEBD) must be ordered separately.

48" deep x 144" wide
Will accommodate two CALA cut outs

48" deep x 192" wide
Will accommodate two CALA cut outs

48" deep x 216" wide
Will accommodate three CALA cut outs

48" deep x 288" wide
Will accommodate three CALA cut outs

understanding table electrics

Zones Tables are available with options for lighting, above worksurface power, USB hubs and cable management. The following outlines the various options available.

Further details on all of these products are available in the Lighting, Electrics & Wire Management section. Options are shown on the Workshop Table, however some options are also available on Canteen Tables.

Table Lamps and Power Pills can be mounted on either a Table Runner or directly to the table.

USB Hubs mount to table edges for easy access, cable managers are available to route cables below the table.

Caution is required when pushing a chair underneath the table to prevent damage to the USB unit.

Under Worksurface Cable Management allows for a clean aesthetic below the table and to the floor.

bistro table basics

The Zones Bistro Table is ideal for casual touchdown meeting spaces or lounge settings.

Round Bistro Table (ZNTBR)

- Heights:
 - Task height (29")
 - Counter height (36")
 - Bar height (42")
- 36" wide

Soft Square Bistro Table (ZNTBS)

- Heights:
 - Task height (29")
 - Counter height (36")
 - Bar height (42")
- 36" wide

ledge table basics

The Zones Ledge Table can be used with Modular Seating or independently. Its narrow depth is ideal for casual touch-down meetings or lounge settings.

Ledge Table – Straight (ZNTLS)

- Sizes:
 - 18" deep x 48" wide
 - 18" deep x 60" wide
 - 18" deep x 72" wide
- 42" high
- Available with options for:
 - Compact Power Bar (ZNYEPS)
 - Swerv USB Hub, Branched (YMSUB)
 - For additional information please see the *Lighting, Electrics & Wire Management* section

For further details on incorporating Ledge Tables – Straight with Modular Seating, please see the *Zones Modular Seating* section.

Ledge Table – Curved (ZNTLC)

- Sizes:
 - 18" deep x 30" wide
 - 18" deep x 60" wide
 - 18" deep x 90" wide
- 42" high
- Available with options for:
 - Compact Power Bar (ZNYEPS)
 - Swerv USB Hub, Branched (YMSUB)
 - For additional information please see the *Lighting, Electrics & Wire Management* section

For further details on incorporating Ledge Tables – Curved with Modular Seating, please see the *Zones Modular Seating* section.

planning with ledge tables

The following should be considered when planning with Ledge Tables.

- Ledge Tables can be specified freestanding or linked together to form longer runs.
- The maximum span for Ledge Tables is three tables, to a maximum length of 18'
 - To create multi-table configurations a combination start, middle and end tables can be specified

Freestanding Ledge Tables – Straight

Linking Ledge Tables- Straight

- Ledge Table-to-Sofa Tether (ZNTG)**
- Set of two
 - Must be specified when ganging ledge tables to Zones Modular Seating

High Backless Stool (ZNMT) Freestanding Ledge Tables

- Ledge tables are bar height so it is recommended that a bar height stool be used with this table.

recommended occupancy

The following demonstrates the recommended table occupancy to allow for adequate personal and working space.

Freestanding Rectangular Ledge Table
18" deep x 48" wide,
Four people maximum

Freestanding Rectangular Ledge Table
18" deep x 60" wide,
Four people maximum

Freestanding Rectangular Ledge Table
18" deep x 72" wide,
Six people maximum

planning with ledge tables (continued)

Curved Ledge Tables can be specified freestanding or linked together to form longer runs.

- To create longer configurations a combination start, middle and end tables can be specified

Freestanding Ledge Tables – Curved

Linking Ledge Tables – Curved

Ledge Table-to-Sofa Tether (ZNTG)

- Set of two
- Must be specified when ganging curved ledge tables to Zones Modular Seating

laptop table basics

The Zones Laptop Table is a pull-up table that provides space for a laptop and personal items.

Laptop Table (ZNTLT)

- 11" deep x 33" wide
- 26" high
- Edge profiles:
 - flat edge
 - knife edge

Flat Edge

Knife Edge

The Zones laptop table offers a new approach to how one organizes their items around a small pull-up table. The laptop table is shallower and wider than a standard laptop table. This provides the user space beside their laptop for their personal items such as drinks, phones and notebooks.

coffee table basics

The Zones Coffee Table has a curved wood leg detail and is ideal for lounge settings.

- 19" high
- Styles
 - Round
 - Soft Square
 - Rectangular

Round Coffee Table (ZNTFR)

- 24", 27" or 36" diameter

Soft Square Coffee Table (ZNTFS)

- 24", 27" or 36" deep

Rectangular Coffee Table (ZNTFC)

- Sizes:
 - 25" deep x 42" wide
 - 25" deep x 48" wide
 - 30" deep x 38" wide

round side table basics

The Zones Round Side Table has the same curved wood leg detail as the Coffee Table.

Round Side Table (ZNTFF)

- Height: 18"
- Diameter: 18"
- Knife Edge

tea table basics

The Zones Tea Table has a metal star base leg and is ideal for lounge settings.

High Round Tea Table

Styles:

- Low Tea Table
 - 16" h
 - base style matches Zones Club Chair with 4-Prong Base
- High Tea Table
 - 19" h
 - base style matches Zones Solo Lounge Chair base

Low Round Tea Table Base

High Round Tea Table Base

Low Round Tea Table (ZNTSR)

- 42" diameter

Low Soft Square Tea Table (ZNTSS)

- 42" deep

High Round Tea Table (ZNTTR)

- 30" and 36" diameter

understanding seating

understanding zones seating

Zones is a complete and cohesive collection that populates or pollinates across the entire office landscape. Included are more than 20 seating solutions which individually and collectively reflect Zones' poetic expression of a humanistic work culture.

- Zones seating is proportioned to accommodate the growing needs of the North American market and tested to ANSI/BIFMA standards.
- All Standard Upholstery Fabrics will be applied Off-the-Bolt with the exception of sofas and benches which are applied Railroaded. (See *Fabric Direction Guidelines* page in the *Textiles & Finishes + Materials* section for more information)

multi-use seating

A collection of benches, arm chairs and stools that can be used in a variety of locations. They are planned around Zones tables, used in Enclosures or blended with other product lines.

arm chair, side chair and side stool

Arm Chairs and Side Chairs reflect Zones' characteristic domesticity and materiality without sacrificing today's need for performance in various work environments.

- The Arm Chair is a modern mixed-material interpretation of a classic all-wood chair.
- The Side Chair is more casual and appropriate for more compact spaces.

benches

Shared benches convey a sense of community and act as a natural humanizing touch point, best suited around a Workshop Table.

backless stools

Stools at task, bar and counter heights provide a casual aesthetic to commercial workplaces or hospitality spaces.

- Counter and bar height stools allow the user to be at a closer eye level to someone standing.
- Mixing seating heights helps to architecturally break up large spaces.

understanding zones seating (continued)

soft seating

A collection of club chairs, sofas and lounge chairs that can be used in a variety of locations. They can be planned around Zones tables or used in Enclosures.

club chairs

There are four variations that integrate while simultaneously answering different functional seating needs for focused and collaborative spaces.

- Provide freedom to select multiple coordinating seating solutions across a floorplate

lounge chairs

Offered as a Conference Lounge Chair with upright posture, swivel and height adjustment; a Sled Lounge Chair with fixed-height sled base and Solo Lounge Chairs with reclined posture, fixed-height and a swivel-return mechanism to facilitate ease of use and organization.

sofas

One and two-person In-The-Zone Sofas have been designed specifically to fit within the Zones Screen Enclosures.

- The Settings Chaise Sofa, Sofa 2.5-Seater and 108° Corner Sofa have been designed to integrate with Zones Screens, to create Settings.
- All Sofas can still be used outside of the Zone, in the open plan.
- Sofas provide options for power and some have tablet options that are appropriate for various applications.

planning with zones multi-use seating

The beauty of Zones Multi-Use Seating is its ability to mix with Tables or Enclosures to create both formal and casual environments that cater to users functional needs and designers aesthetic visions.

The large variety of Multi-Use Seating options in Zones provides the ability to create both formal and casual environments.

Creating different seating heights in adjacent areas adds variety, depth and delineation of space. The variety of options allows for the expression of an aesthetic vision, the level of formality, the short or long term ergonomics needs, and the desired price point.

Adding backless stool to the ends of tables provides for larger meetings, for side sitting postures. The visual variety encourages others to join the group.

Varying landscapes can be created in the open plan by combining work, counter and bar height layouts.

planning with zones multi-use seating (continued)

Arm chairs provide additional support and substance around a table. Low stacking stools provide casual overflow seating and the all-wood version can double as a quick side-table.

Placing Arm Chairs at the head of the table indicates stature or hierarchy while Side Chairs are used along the table length. Benches can be used at the perimeter wall for over flow seating.

planning with zones soft seating

The beauty of Zones Soft Seating is its ability to mix with Tables, Enclosures and other products to create settings that cater to users functional needs and designers aesthetic visions. The variety of options allow them to be used across an entire floor plate, both inside and outside of Enclosures.

The Club Chair Swivel Tilt with 4-Prong Base and swivel return is ideal for meeting and conferencing with a prestigious look and feel.

The Club Chair Swivel Tilt with 5-Star Base is height-adjustable which is ideal for touch down stations. Other seating and tables can be used to utilize the space outside of Enclosures.

Club Chairs with 4-Wood Legs are an ideal guest chair solution in private offices.

The Zones Solo Lounge Chairs can be clustered together to create casual meeting areas. Delineate space with storage and touch-down meeting spaces at bar or counter height. The Club Stools' height-adjustment range is suitable for both heights.

planning with zones soft seating (continued)

Zones Lounge Zones-Sofa Kit provides a casual semi-private place for discussions.

In-The-Zone Sofas can be planned within an Enclosure or in a stand-alone lounge setting. Consider using them on the outside face of the Enclosure to create additional lounge areas.

Mix Zones Soft Seating, Multi-Use Seating and other Zones products to create countless and unique solutions to suit architectural spaces and customer need.

planning with zones soft seating (continued)

In a public space where strangers may be sitting adjacent to each other, a Zones Setting Sofa - 2.5 Seater surrounded by the coordinating Open Lounge Zone Half Enclosure is ideal.

The slotted version provides some privacy while providing passers by on the other side a visual queue that the space is occupied.

Create different ambiances by mirroring this configuration around a coffee table or by specifying other seating solutions such as Club Chairs with Swivel-Return.

The Zones Screen with upholstered Buffers can be used to divide two spaces and provide a more private, opaque solution.

When combined with the 108" Corner Sofa, the sofa's end will peak out to hint it's availability.

Adding the Zones Arc Lamp as a focal point, and coffee tables and Club Chairs will create a more traditional seating solution for additional guests.

The Zones Screen can define and separate two activity zones. Combining a Chaise Lounge Sofa with Low-Stacking Stools creates a more casual, intimate space that is more spatially separated from the surroundings.

planning with zones soft seating (continued)

The Zones Conference Lounge Chair and 25" high Dialogue Workshop Table creates a casual meeting space with a more informal and relaxed posture. It has a more upright posture, swivel-tilt and height-adjustable to suit needs within a meeting.

The Zones Solo Lounge Chairs can be clustered together to create casual meeting areas.

Zone Sled Lounge Chair provides a space for casual seating and tables and allow for a relaxed posture which creates a casual space to read, take a quick phone call or have a brief informal meeting.

Use the Zones Solo-Lounge Chair in Enclosures to create an individual place to retreat, read, write or check-in on your phone or tablet.

zones arm chair overview

Zones Arm Chairs are a new-fashioned interpretation of an old-world wood chair. The one-piece, plastic, sculpted back elegantly twists to form armrests that connect to the Beech wood legs without visible fasteners. The signature curved legs of the Zones Arm Chairs coordinate with the Stools, Canteen Tables, Easel, Coat Rack and other products in the extensive Zones collection.

zones bench overview

Zones Bench with Back illustrates a movement to a shared economy and ethos. Each bench seats 2 people and is crafted with 4-legged Beech wood frames and an upholstered seat. Integrated Beech plywood backs provide support and comfort during discussions or mingling, and their large radius-ends are friendly for side-sitters.

Shared benches around a Workshop Table convey a sense of community and act as a natural humanizing touch point. Zones Bench – No Back, 4-Wood Legs, Upholstered (ZNMAU) is for 2 people and provides an even more pure, informal, multi-directional solution than a bench with a back.

zones club chair overview

Zones Club Chairs are a collection within a larger collection. There are four variations that integrate with the aesthetic and materiality range of the full Zones collection of Tables, Seating and Enclosures while simultaneously answering different functional seating needs for focused and collaborative spaces. Club Chairs provide designers additional freedom to select multiple coordinating seating solutions across a floorplate.

ZNSC

- The Club Chair with 4-Wood Legs is a more traditional soft-seating solution for guests or groups but has elegant, forward-thinking leg details. Use within the Zones environment or as a guest chair in a private office

Seat Yoke Metal Finish:

Wood Frame Finish:

zones club chair overview (continued)

ZNSF/ZNSH/ZNSP

- The Zones Club Chair – Swivel-Tilt with 4-Prong Base (ZNSP) is a contemporary solution for meeting and conferencing spaces where features like fixed-height and swivel-return help to maintain a clean, professional, no-fuss environment. Bases can be a classic polished aluminum or avant-garde paint finish
- The Club Chair model with the 5-Star Base, casters, height adjustment and swivel-tilt allows the user to have more adjustment and mobility - perfect for today's touch-down and casual spaces
- The height-adjustable Zones Club Stool – Swivel-Tilt with 5-Star Base (ZNSH) expands soft, casual seating solutions from desk height to counter and bar height. It includes a height-adjustable footring

Zones Club Chair – Swivel-Tilt with 5-Star Base (ZNSF)
(Hard or soft casters and glides)

Zones Club Stool – Swivel-Tilt with 5-Star Base (ZNSH)
(Hard or soft casters and glides)

5-Star Club Chairs are equipped with casters intended for use on carpeted surfaces. Use of these casters on hard surfaces could result in unexpected rolling and tipping. Casters designed for use on hard surfaces are available. If in doubt, see your dealer for appropriate selection.

The following finishes are available on Zones club chairs with metal bases.

Base Finish:

Foundation
Mica
Accent
Polished Aluminum

Seat Pan Plastic Finish:

zones club chair adjustments & features

The following Zones Club Chairs are available with individual height adjustment ranges and swivel-tilt mechanism.

SWIVEL-TILT

SEAT HEIGHT-ADJUSTMENT

Zones Club Chair Swivel-Tilt with 4-Prong Base

- Available with self return swivel feature to facilitate ease of use and organization
- Offered with a fixed angle of 95° between the seat and the back with a swivel-tilt mechanism which provides an 8° recline from the pivot-point located below the seat
- To actively recline, securely sit on the seat with two feet on the floor and lean backwards

Fixed Height

Zones Club Chair and Stool Swivel-Tilt with 5-Star Base

- Offered with a fixed angle of 95° between the seat and the back with a swivel-tilt mechanism which provides an 8° recline from the pivot-point located below the seat
- To actively recline, securely sit on the seat with two feet on the floor and lean backwards

- Available with 4" of seat height adjustability
- Seat height (3" for stool) can be adjusted by pushing inward on the button below the seat on the right hand side. When this button is pushed, the weight of the body will cause the seat to lower, and releasing it stops the seat at the desired height. Pushing inward on the button with no weight on the seat allows it to rise

STOOL FOOT RING HEIGHT ADJUSTMENT

To raise or lower the footring on the Swivel Stool, turn the footring's knob counter-clockwise to release the footring and adjust the ring until you reach the desired level. Turn the knob clockwise to lock in place.

zones solo lounge chair overview

Like us, Zones Solo Lounge Chairs can work alone or with others in their group. Their fluid upholstered form and slight angular recline provide a fresh perspective outside of our box, a zone in which we can think, read, write and discuss. The top-wrapped headrest on the High-Back version pillows the head while the optional, fixed, loop metal armrests envelop and support us. The Low-Wide Back model has a lower profile which is more ideal for areas where open sight lines are preferred.

ZNSX

The following finishes are available on Zones Solo Lounge Chair.

Base Finish:

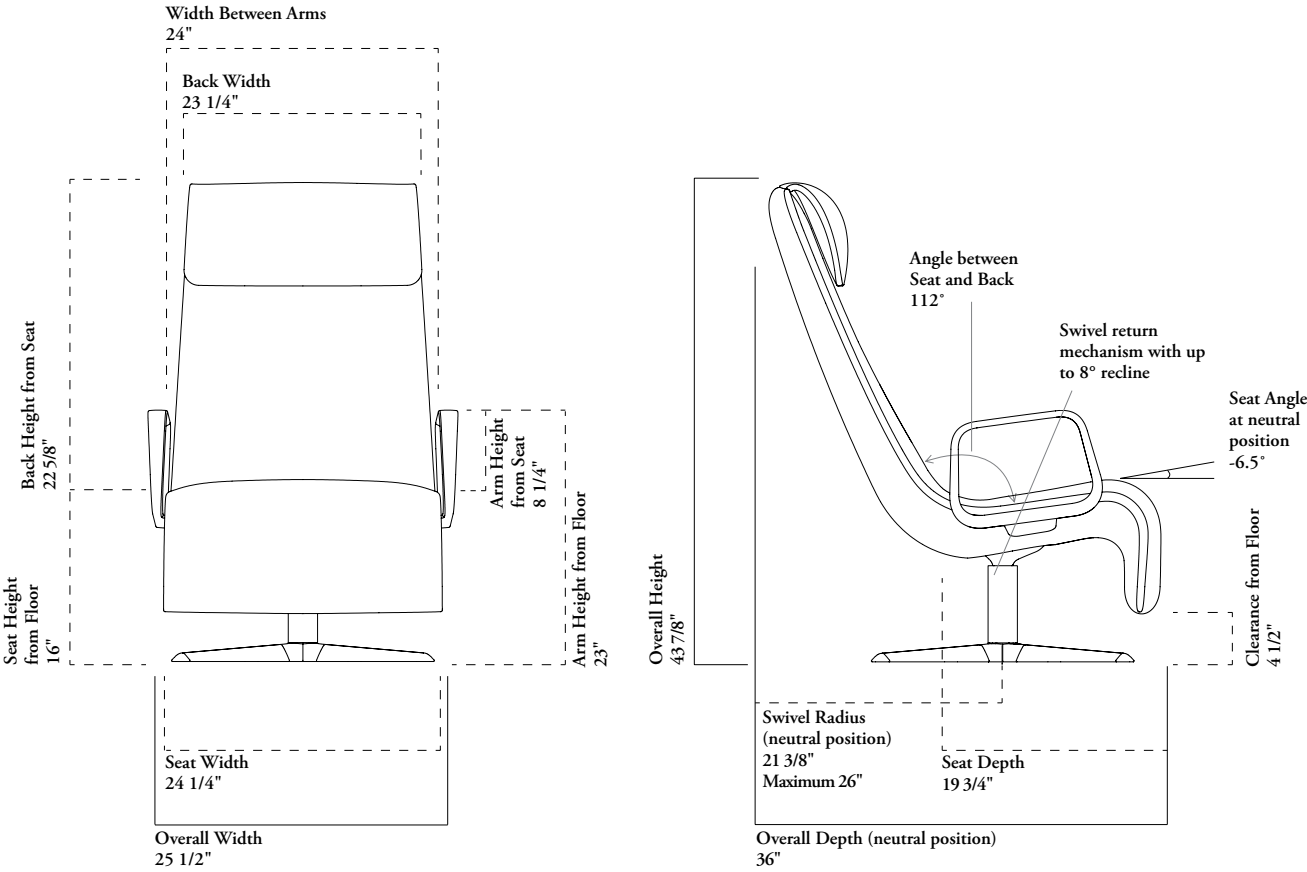

Foundation
Mica
Accent
Polished Aluminum

- Offered with a fixed angle of 108° between the seat and the back with a swivel-tilt mechanism which provides an 11° recline from the pivot-point located below the seat
- To actively recline, securely sit on the seat with two feet on the floor and lean backwards

- Available with 3" of seat height adjustability
- Seat height can be adjusted by pulling lever upward below the seat on the right hand side. When this lever is pulled, the weight of the body will cause the seat to lower, and releasing it stops the seat at the desired height. Pulling lever upward with no weight on the seat allows it to rise

planning with zones conference lounge chair

Zones Conference Lounge Chair

Maximum 19" when chair tilted 11°

Zones Conference Lounge Chairs can be specified on its own in an open environment or can be specified within an Enclosure. The following needs to be noted when planning within an Enclosure, adjacent to a screen or other objects.

zones lounge zone-sofa kit overview

The Lounge Zone-Sofa Kits have been designed to specifically fit in a fixed-position within the Lounge Zone Enclosures. They provide a relaxed setting for two or four users in total. The shared counter provides a casual solution for side storage, promoting an open-access space rather than having a full table physically separating the users.

understanding
enclosures & screens

understanding enclosures & screens

Zones Enclosures and Screens consist of screen segments and trims that Flat Fabric Buffers, Quilted Fabric Buffers, Worksurfaces, Seating, Lighting and Accessories attach to. The Enclosure or Screen is specified as one complete unit. Buffers, Worksurfaces, Supports, Seating and Accessories are specified separately.

1 Screen segment:

- Constructed of laminated plywood, 1/4" thick
- Secured to the vertical metal trim and wood enclosure and screen segment trims
- All screen segments are included, the Enclosure or Screen type will determine the size and number required

2 Vertical metal trim:

- Painted aluminum extrusions that are bonded to the screen segment

3 Enclosure and Screen trim:

- Constructed of solid beech, 20mm thick
- Wraps around the top, bottom and ends of an Enclosure or Screen
- All segments of trim are included, the Enclosure or Screen type will determine the location and number required

4 Wing segment:

- Provides various levels of privacy
- Available with or without partial heights slots

5 Feet:

- Elevate the Enclosure or Screen 2 1/2" for a visual lightness
- Provide 1 1/2" of leveling
- Enable casual power routing under an Enclosure or Screen

understanding enclosures & screens (continued)

Enclosure

6 Flat and Quilted Fabric Buffers

- Provide a textured visual softness and an implied acoustic feel
- Available partial or full height for Flat Fabric Buffers
- Available partial height for Quilted Buffers
- Available for interior and exterior applications

7 Worksurfaces:

- Size and shape are specific to each Enclosure
- Attach directly to the screen segment with brackets or are mounted to a support kit in freestanding applications

8 Support kits:

- Clamp onto the vertical metal trim to provide semi-suspended support to worksurfaces
- Include a power cable manager
- Ordered as kits, the Enclosure type will determine the number and type required

9 Soft Seating:

- Provides a freestanding sofa within an Enclosure or Screen
- Does not offer structural support to the Enclosure or Screen

10 Sofa tablets:

- Constructed of birch plywood finished with Zones laminates or veneers
- Attach to sofas and provide a secondary surface for coffee and notebooks
- Do not attach to the Enclosure or Screen

11 Lighting

- Table Lamps can be freestanding or can be mounted through the worksurface

lounge zone – solo basics

ZNCGS

The Lounge Zone – Solo is a place to take a break and work privately. The compact footprint provides easy access to the tools a user needs while still providing easy access to the rest of the office.

- Designed to be used for 5 minutes to 2 hours
- 55" high for seated privacy
- Available with or without a wing panel
- The optional Wing Panel is available with partial height slots
- Available with the option for a full or partial height Flat Fabric Buffer on the interior or exterior
- Available with the option for a partial height Quilted Fabric Buffer on the interior
- Accommodates an In-The-Zone Sofa – 1-Seater with optional tablet worksurface and integrated power

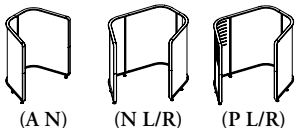

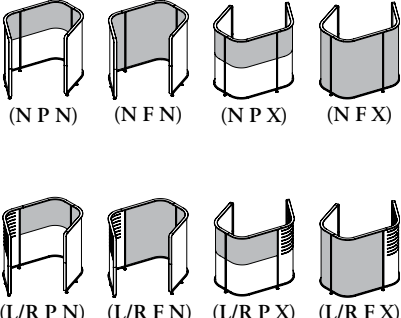

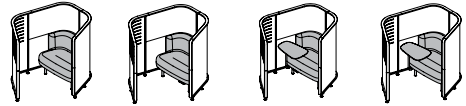

Lounge Zone – Solo Enclosure with wing left panel with partial slots

- Flat Fabric Buffer partial height interior
- Flat Fabric Buffer full height exterior

lounge zone – solo basics (continued)

The following outlines the steps and options that must be considered when specifying a Lounge Zone – Solo Enclosure.

		Options	As shown in rendering
1	<p>Enclosures and slots (ZNCGS)</p>  <p>(A N) (N L/R) (P L/R)</p> <p>*Left wing panel shown, right available</p>	<p>Wing panel: A = No wing panel N = Wing panel no slots P = Wing panel, partial slots</p> <p>Orientation: N = Not available L = Left R = Right</p>	<p>ZNCGS55PL Wing panel partial left slots</p>

lounge zone – twin basics

ZNC^{GT}

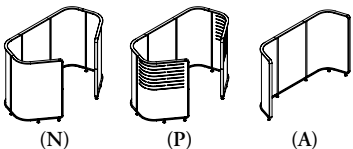

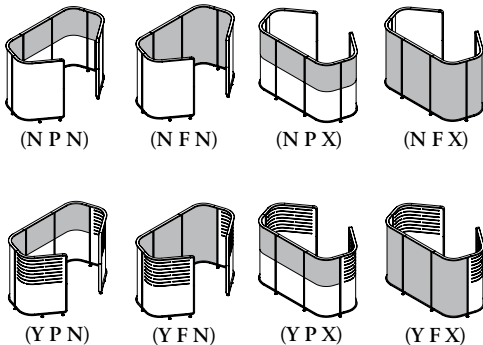

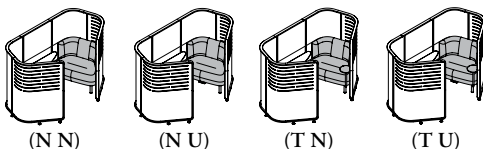

The Lounge Zone – Twin is a conversation space for two users with a small side surface for coffee and a notebook. It is about conversation rather than table or screen based work.

- Designed to be used for 10 minutes to 2 hours
- 55" high for seated privacy
- Optional Wing Panels are available with partial height slots
- Available with the option for a full or partial height Flat Fabric Buffer on the interior or exterior
- Available with the option for a partial height Quilted Fabric Buffer on the interior
- The Enclosure with no wings is not freestanding, it must be ordered with the Zones Lounge Zone - Sofa Kit (ZNSK)
- Accommodates a Zones Lounge Zone-Sofa Kit 1-seater, shared integrated shelf, optional side tablets and integrated power

lounge zone – twin basics (continued)

The following outlines the steps and options that must be considered when specifying a Lounge Zone – Twin Enclosure.

		Options	As shown in rendering
1	<p>Enclosures and slots (ZNCGT)</p>  <p>(N) (P) (A)</p>	<p>Wing Panel: N = Wing panels, no slots P = Wing panels, partial slots A = No wing panels</p>	<p>ZNCGT55P With partial slots</p>

lounge zone – four basics

ZNCGF

The Lounge Zone – Four is a conversation space for four people with a small side surface for coffee and notebooks. It is about conversation rather than table or screen based work.

- Designed to be used for 10 minutes to 2 hours
- 55" high for seated privacy
- Available with or without partial height slots on the wings
- Available with the option for a full or partial height Flat Fabric Buffer on the interior or exterior
- Available with the option for a partial height Quilted Fabric Buffer on the interior
- Accommodates a Zone's Lounge Zone-Sofa Kit 2-seater, shared integrated shelf, optional side tablets and integrated power

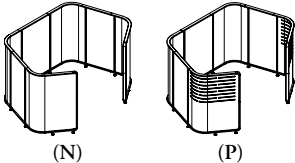

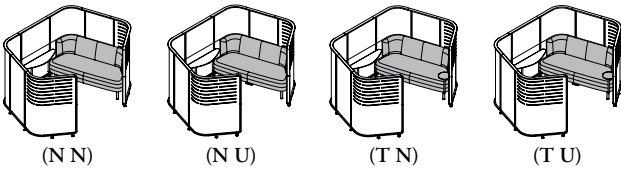

Lounge Zone – Four Enclosure with partial slots

- Flat Fabric Buffer partial height interior
- Flat Fabric Buffer full height exterior

lounge zone – four basics (continued)

The following outlines the steps and options that must be considered when specifying a Lounge Zone – Four Enclosure.

		Options	As shown in rendering
1	<p>Enclosures and slots (ZNCGF)</p>  <p>(N) (P)</p>	<p>Slot option: N = No slots P = Partial slots</p>	<p>ZNCGF55P With partial slots</p>
2	<p>Interior and exterior Fabric Buffer (ZNCBFGF Flat) (ZNCBQAM Quilted):</p> <p>(N P N) (N F N) (N P X) (N F X)</p> <p>Entire Enclosure including wing panels (seven buffers)</p> <p>(Y P N) (Y F N) (Y P X) (Y F X)</p> <p>Entire Enclosure excluding wing panels (five buffers) *Quilted Buffers available partial height</p>	<p>Coverage orientation: N = Entire Enclosure including wing panels Y = Entire Enclosure excluding wing panels</p> <p>Configuration: P = Partial height F = Full height</p> <p>Application: N = Interior X = Exterior</p>	<p>ZNCBFGF55YPN Flat Fabric Buffer covering entire Enclosure excluding wing panels, partial height interior</p> <p>ZNCBFGF55YFX Flat Fabric Buffer covering entire Enclosure excluding wing panels, full height exterior</p>
3	<p>Seating (ZNSK2)</p>  <p>(N N) (N U) (T N) (T U)</p>	<p>Tablet cut out: N = No tablet T = Two small tablets in fixed positions</p> <p>Electrical option: N = No electrical module U = One simplex and two USB</p>	<p>ZNSK2TU Two seater, two small tablets in fixed positions, one simplex and two USB</p>

open lounge zone basics

ZNCHT

Open Lounge Zone is a balance of comfort, privacy and accessibility. Not entirely enclosed, but not wide open either, it offers the best of both worlds – and becomes an ultimate gathering space for 2-4 participants.

- Designed to be used for 10 minutes to 2 hours
- 55" high for seated privacy, up to 4 people
- Available with partial height slots throughout
- Available as half or full configuration
- No buffers are available
- Accommodates Zone's Setting Sofa – 2.5-seater and casual tables
- The Screens are not freestanding, they must be ordered with the Zones setting Sofa 2.5 Seater (ZNSE). If freestanding screens are required, refer to Freestanding Lounge Screen - C (ZNFGC)

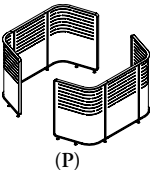

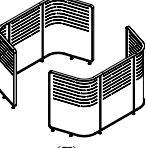

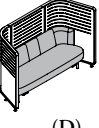

Open Lounge Zone, Full configuration (shown)

open lounge zone basics (continued)

The following outlines the steps and options that must be considered when specifying a Open Lounge Zone Enclosure.

		Options	As shown in rendering
1	Slots (ZNCHT)  (P)	Slot Orientation : P = Partial	ZNCHT55P With Partial Slots
2	Configuration:   (H) (F)	Configuration: H = Half F = Full	ZNCHT55PF Full Configuration
3	Zones Settings Sofa 2.5-Seater (ZNSE)    (N) (U) (D)	Electrical Option: N = No electrical module U = One simplex, 2 USB D = Double - One simplex, 2 USB per end Open Lounge is sized to work with only this sofa	ZNSEU One Simplex, 2 USB x2

*See Casual Table Section for all Casual Table options

coffee lounge zone – four basics

ZNCCF

Coffee Lounge Zone – Four Enclosure acts as a cozy, welcoming shelter for casual meetings and informal discussions.

- Designed to be used for 10 minutes to 2 hours
- 55" high for seated privacy, up to 4 people
- Available with or without partial height slots on the wings
- Available with the option for a full or partial height Flat Fabric Buffer on the interior or exterior
- Available with the option for a partial height Quilted Fabric Buffer on the interior
- Accommodates two In-The-Zone Sofa – 2-Seater and casual tables (27" diameter or smaller is recommended)

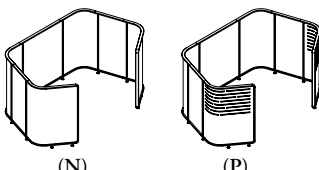

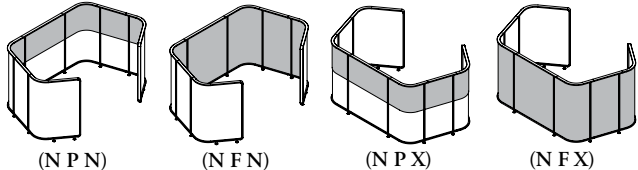

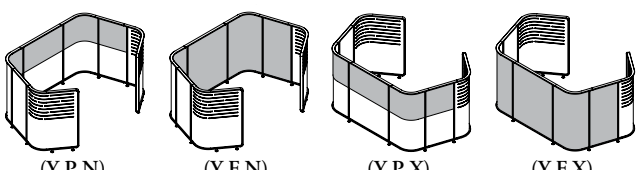

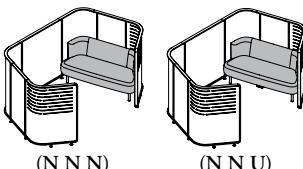

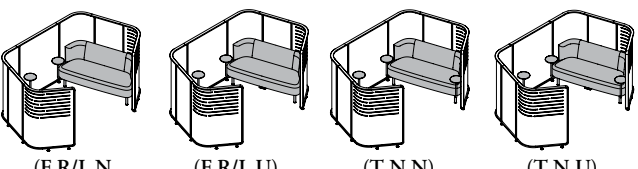

Coffee Lounge Zone – Four Enclosure with partial slots

- Flat Fabric Buffer full height interior
- Flat Fabric Buffer full height exterior

coffee lounge zone – four basics (continued)

The following outlines the steps and options that must be considered when specifying a Coffee Lounge Zone – Four Enclosure.

		Options	As shown in rendering

planning with enclosures

The following should be considered when planning with Enclosures.

Enclosures are specified as complete units. All screens and vertical metal trims are pre-assembled into modules.

Custom configurations are not possible.

right handed
(shown)

The handedness of an enclosure is determined by the location of the slots on the wing as seen when looking into the Enclosure from the entrance.

If no slots are specified, the handedness is determined by the “Wing Panel” relative to the entrance of the Enclosure.

Applies to:

- Lounge Zone - Solo
- Focus Zone - Solo

When a In-The-Zone Sofa – 1-Seater is specified with a tablet, it is recommended that the tablet position not be on the outer side of the Enclosure as it will interfere with entry

Applies to:

- Lounge Zone - Solo

Enclosures **cannot** be attached to each other. They are designed to be stand alone enclosures. Two individual enclosures can be placed end to end in an application so that an “S” configuration is formed.

planning with enclosures (continued)

If planning Enclosures back-to-back, it is recommended that the shorter lengths be back-to-back together, so that the outsides can be used for other functions such as small meeting areas.

If planning Enclosures back-to-back, it is **not** recommended that the longer lengths be back-to-back together, as it does not allow space for small meeting areas.

It is not recommended that the Enclosures be clustered, the 108° angle does not nest efficiently.

planning with enclosures & zones sofas

The Open Lounge Zone and Coffee Lounge Zone -Four are designed to accommodate specific Zones Sofas.

Full

Partial

Zone Settings 108° Corner Sofa

The Open Lounge Zone can be specified in two configurations

- Partial (one screen only)
- Full (two screens)

Each side has been sized to fit the Zones Settings Sofa -2.5 Seater.

When the partial configuration is specified It can also accommodate the Zone Settings 108° Corner Sofa.

The Coffee Lounge Zone-Four is designed to fit two In-The-Zone Sofa – 2-Seater.

planning with buffers

fabric buffers

- Flat Fabric Buffers can be specified on the interior and exterior of an Enclosure
- Quilted Fabric Buffers can be specified on the inside of an Enclosure
- Buffers are not specified individually for each section of the Enclosure, they are specified as one complete unit
- Flat Fabric Buffers are available full or partial height, however not all configurations are available with full height on the interior
- Quilted Fabric Buffers are available partial height

Partial height

Full height

When a worksurface requires brackets for mounting to the segment, a partial height buffer must be used, as the full height buffer will interfere with the brackets.

The following Enclosures can accommodate a full height interior buffer because the worksurface is semi-suspended from the Monitor Tower and does not require brackets:

- Digital Lounge Meeting Zone-Four
- Task Digital Meeting Zone - Four
- Bar Digital Meeting Zone -Four

End screen segments can be specified with or without slots. If specified without slots, the Flat Fabric Buffer or Quilted Fabric Buffer will wrap all of the way around the inside of the Enclosure.

wing panels

Some Enclosures are available with options for:

- No wing panels
- Optional wing panels with or without slots

These include:

- Focus Zone - Solo
- Lounge Zone -Solo
- Lounge Zone - Twin

When a Flat Fabric Buffer or Quilted Fabric Buffer for Enclosure with No Wing Panel (A) is required, two buffer sections are included, both will have curved edges.

When a Flat Fabric Buffer or Quilted Fabric Buffer for Entire Enclosure Excluding Wing Panel (R or L, right shown above) is required, two buffer sections are included, one will have a curved edge, and one will have a straight edge where it meets the wing panel with slots.

When a Flat Fabric Buffer or Quilted Fabric Buffer for Entire Enclosure, including Wing Panel (N) is required, a third buffer section to cover the wing is included. Two buffer sections will have curved edges and one will have a straight edge.

planning with enclosure electrics

- Zones Enclosures with worksurfaces offer the option for a cut out in the center of the surface to accommodate a Power Pill (ZNEPSA/ZNEPSB only) (see Electrical section for more details on the Power Pill)
- The Power Pill cord must plug into a floor monument location near or inside the setting (it is not hard wired, all power access is casual)
 - In Focus settings it is recommended that the floor monument be underneath the worksurface to avoid interference with chairs
- A Power Cable Manager (ZNEN) can be specified to route cables along the underside of the Enclosure if necessary

- Zones Enclosures with sofas have an undermount power unit that attaches to the bottom of the sofa which then plugs into a floor monument
- The floor monument should be located underneath the sofa so that it is out of view

On the In-The-Zone Sofa – 1-Seater (see *Soft Seating* section for further details), the power unit can be specified on the left or right side.

On the In-The-Zone Sofa – 2-Seater (see *Soft Seating* section for further details), the power unit can be specified on the left, right or centered.

Legend	
Floor Monument	
Power Pill	
Power Unit	
Cable Routing	

planning with enclosure electrics (continued)

- Zones Enclosures with meeting tables offer the option for a cut out in the center of the surface for a larger Power Pill (ZNEPLA/ZNEPLB only) (see electrical section for further details on the Power Pill)
- The large Power Pill allows for additional cables (video, polycom, etc) to pass through the table surface
- The floor monument should be underneath the worksurface, as close as possible to the Monitor Tower, or underneath a sofa

Digital Lounge Meeting Zone – Four

Task Digital Meeting Zone – Four and
Bar Digital Meeting Zone – Four

Open Lounge Zone - Full

When Open Lounge Zone is specified as a full configuration, two floor monuments must be located under both sides of the sofas.

Open Lounge Zone - Partial

When Open Lounge Zone is specified as a partial configuration, one floor monument must be located under the sofa.

Coffee Lounge Zone - Four

On the Zones Settings Sofa 2.5-Seater (see *Soft Seating* section for further details), the power unit can be specified on the left, right or centered.

enclosure finishes

Zones offers a unique finish palette that complements Teknion’s product portfolio. The following outlines the finishes and materials available on all Enclosures.

Vertical Metal Trim:
Greystone
Crisp Grey
Sand

Trim Finishes:
Greystone Beech
Natural Beech
Pecan Beech

Foot Finishes:
Greystone
Crisp Grey
Sand

Fabric Buffer Finishes:
Panel Fabric:
Grade 1, Grade 2, Grade 5,
Grade 7, COM
(Selected offering)
Upholstery Fabric:
Grade 1, Grade 2, Grade 3,
Grade 5, Grade 8, Grade 9,
Grade 10 and Fabric COM
(Selected offering)
Quilted Fabric Buffer Finishes:
Upholstery Fabric:
Grade 1, Grade 2, Grade 3,
Grade 8, Grade 9, and
Fabric COM
(Selected offering)

Wing and Screen Finishes:
Greystone Beech Laminate
Natural Beech Laminate
Pecan Reflect Laminate
Greystone Laminate
Crisp Grey Laminate
Sand Laminate

woodgrain direction

The woodgrain direction on the trim does not bend around the curves. It is a random match.

The woodgrain on screens runs vertical on all Enclosures.

Wing Panels are the screen sections at the end of an enclosure where slots or no slots can be specified. These wing panels can be specified in a different finish.

Enclosure Finishes

Trim Finishes:

Greystone Beech Natural Beech Pecan Beech

Wing and Screen Laminate (HPL):

Greystone Beech Natural Beech Pecan Reflect

Foot and Vertical Metal Trims:

Greystone Crisp Grey Sand

Foot and Vertical Metal Trims:

Greystone Crisp Grey Sand

monitor tower within enclosures basics

Zones Corner Monitor Towers are used in Enclosures to provide a monitor mounting and power routing location.

For pricing and further planning information, please see the Accessories Section.

Monitor Tower (shown)

Corner

Straight

Monitor Tower (ZNET)

- Provides a semi-supported monitor mounting and power routing location in the following Enclosures:
 - Task Digital Meeting Zone – Four
 - Digital Lounge Meeting Zone – Four Enclosures
 - Bar Digital Meeting Zone – Four
- Do not mount to the Enclosure, however must mount to a worksurface
- Configuration available include:
 - **Task Corner** is used in a corner with a task height worksurface
 - **Bar Corner** is used in a corner with a bar height worksurface
 - **Task Straight** is used on a straight section of an enclosure (or screen, see *Screens* section) with a task height worksurface
 - **Bar Straight** is used on a straight section of an enclosure (or screen, see *Screens* section) with a bar height worksurface

workspace basics

Zones workspaces are specific to each Enclosure, only one size is available for each Enclosure type.

Zones Worksurface (ZNWW)

Worksurfaces are specific to each Enclosure type, they are available in one size only for each Enclosure.
Cut-outs for International Electrics is also available.

planning with worksurfaces

The following should be considered when planning with Zones worksurfaces.

There is always a 1" wire gap between the Enclosure Screen and the worksurface for wire management.

grain direction

The woodgrain direction on all worksurfaces runs parallel to the length of the worksurface.

workspace support basics

Zones workspace supports are specific to each Enclosure type, and are specified as kits.

Canteen Semi-Suspended Supports (shown)

Kit of Workspace Supports (ZNWS)

- Each Enclosure Workspace requires a different combination of supports
- By specifying which type of workspace is required, the correct number of supports will be included in each kit
- Configurations with a Cantilever assembly (FS, FT, EE, CT, AS) will also include a clip-on vertical wire manager for each pair of Cantilever assemblies provided
- Kits can consist of the following components:

Cantilever:

- Mounts to the vertical metal trim of the Enclosure
- Available 29" high

Post Leg:

- Mounts to the underside of the Workspace
- Available 29" high

Monopod Leg:

- Mounts to the underside of the Workspace and is always used with a Monitor Tower (ZNET)
- Available 29" high

Canteen Semi-Suspended

- Mounts to the Monitor Tower (ZNET) and is specified only on the Zones Workspace – Bar Digital Meeting Zone – Four (ZNWWAS)
- Available 42" high only

planning with worksurface supports

The following chart outlines the amount and type of supports included for each support kit.

		Focus Zone – Solo (FS)	Focus Zone – Twin (FT)	Collaborative Zone – Twin (CT)	Office Zone (EE)	Lounge Meeting Zone – Four (AM)	Digital Lounge ΔMeeting Zone – Four (AN)	Task Digital Lounge Meeting Zone – Four (AD)	Bar Digital Meeting Zone – Four (AS)

Focus Zone – Solo

The Focus Zone – Solo is a functional working space for a single user to focus for a whole day or to concentrate on working tasks without being disturbed. It is a space to pop in and out of during the day that easily accommodates the use of personal technology and other tools.

WHAT’S INCLUDED

Wing Panel:
2 Flat Screen assemblies (18")
1 Curved Screen assembly (25 3/4")
2 Curved End Screen assemblies (43 3/4")

No Wing Panel:
2 Curved Screen assemblies (25 3/4")
1 Flat Screen assembly (18")
2 Flat End assemblies (24")

All screen assemblies come with top and bottom solid wood trims (plus end trims for end assemblies) and one vertical metal trim.

Hardware to join assemblies into complete Enclosures.

Feet with levelers.

NOTES

The handedness of an enclosure is determined by the location of the slots on the wing as seen when looking into the Enclosure from the entrance.

Accommodates a Zones Worksurface (ZNWW) with optional Power Pill (ZNEP) and Table Lamp (ZNETL) cut outs.

Fabric Buffers, Seating, Worksurfaces and Supports are ordered separately. Refer to the Application Guide pages for specific details.

Lounge Zone – Solo

No Wing Panel

Wing Panel, Partial
Slots, Left

The Lounge Zone – Solo is a place to take a break and work privately. The compact footprint provides easy access to the tools a user needs while still providing easy access to the rest of the office.

WHAT’S INCLUDED

Wing Panel:
1 Curved Screen assembly (43 3/4")
2 Curved End Screen assemblies (43 3/4")

No Wing Panel:
2 Curved End Screen assemblies (43 3/4")

All screen assemblies come with top and bottom solid wood trims (plus end trims for end assemblies) and one vertical metal trim.

Hardware to join assemblies into complete Enclosures.

Feet with levelers.

NOTES

Accommodates an In-the-Zone Sofa – 1-Seater (ZNSS) with optional tablet worksurface and integrated power.

Seating and Fabric Buffers are ordered separately. Refer to the Application Guide pages for specific details.

The handedness of an enclosure is determined by the location of the slots on the wing as seen when looking into the Enclosure from the entrance. If no slots are specified, the handedness is determined by the “Wing Panel” relative to the entrance of the Enclosure.

The No Wing Panel (A) enclosure is not freestanding. It must be ordered with the In-The Zone Sofa – 1-Seater (ZNSS).

Z N W W
Zones Worksurface

Focus Zone – Solo (FS)
(shown)

Worksurfaces enhance the experience in an Enclosure by providing an individual or shared working surface for focused or collaborative work.

WHAT’S INCLUDED

1 (or 2) worksurfaces as specified.

NOTES

Worksurfaces are specifically sized for each Enclosure. Worksurfaces must be specified to match the Enclosure type in which they are being applied. If desired, Table Lamp and Power Pill cut outs must be specified on the worksurface, however, the Table Lamp (ZNETL) and Power Pill (ZNEPSA/ZNEPSB) must be ordered separately. When Zone Type Focus Zone – Twin (FT) is specified, two worksurfaces will be included. If light cut out is specified on (FT) worksurface, one worksurface will have the light cut out location on the left and one on the right.

The Power Rod (YEPD7) can be ordered separately from the Complements: *Teknion’s Ergonomics & Accessories* Program to provide easy power access inside the Monitor Tower.

The Bar (B) height is only available of Zone Type (AS) is specified.

Zone Types (FS, FT, CT, EE) worksurfaces accommodate Power Pill (ZNEPSA/ZNEPSB) configurations only.

Zone Types (AM, AN, AS, AD) worksurfaces accommodate Power Pill (ZNEPLA/ZNEPLB) configurations only.

understanding freestanding lounge screens

Zones Lounge Screens are 55" high and are available in three configurations. They can be used with a variety of freestanding soft seating and casual tables.

freestanding lounge screen – A

The Freestanding Lounge Screen A is instrumental in providing visual privacy.

The warm layers of texture when combined with Lounge seating create an organic individual place to unwind, gather thoughts and reflect and to clear the mind and reboot.

freestanding lounge screen – B

The Freestanding Lounge Screen – B is sized and shaped precisely to provide ample room on either side for creating separate working areas in an open floor plan environment.

freestanding lounge screen – C

The Freestanding Lounge Screen - C can be used in combination with a variety of Zones soft seating options and enables storage capabilities at various heights.

It is ideal for creating and displaying, media hosting and for hospitality areas with the spirit of a domestic hearth.

freestanding lounge screen – A

ZNFGA

The Zones Freestanding Lounge Screen – A provides visual privacy for freestanding settings of 9 or 16 square feet.

- Designed to be used for 10 minutes to 2 hours
- 55" high for seated privacy
- The asymmetrical design is suited to single sided applications
- Designed with one short wing that curves to the outer side for stability
- Available with or without partial height slots, slots are always on the short wing
- Available with the option for a full or partial height Flat Fabric Buffer on the interior or exterior
- Available with the option for a partial height Quilted Fabric Buffer on the interior or exterior
- Accommodates Zone Setting Chaise Sofa, Zones Settings 108° Corner Sofa and casual seating
- Orientation is determined by the location of the short wing when facing the screen

*Zones Screens can accommodate a variety of table and seating options. Please see the Casual Table and Soft Seating Sections for recommended configurations. Optional Screen-to-Sofa Tether (ZNAC) is available to attach Zones Soft Seating to Freestanding Screens.

freestanding lounge screen – B

ZNFGB

The Zones Freestanding Lounge Screen – B provides the ability to create separate freestanding work settings of 9, 16 and 36 sq ft.

- Designed to be used for 10 minutes to 2 hours
- 55" high for seated privacy
- The symmetrical design is ideal for creating a setting on both sides of the screen
- Available with or without partial height slots one or both the wings
- Available with the option for a full or partial height Flat Fabric Buffer applied to both sides
- Available with the option for a partial height Quilted Fabric Buffer on the interior or exterior
- Accommodates Zone Setting Chaise Sofa, Zones Settings 108" Corner Sofa and casual seating

Freestanding Lounge Screen – B, 16 sq ft partial slots

- Flat Fabric Buffer, full height, double sided

*Zones Screens can accommodate a variety of table and seating options. Please see the Casual Table and Soft Seating Sections for recommended configurations. Optional Screen-to-Sofa Tether (ZNAC) is available to attach Zones Soft Seating to Freestanding Screens.

freestanding lounge screen – C

ZNFGC

The Zones Freestanding Lounge Screen – C provides privacy for 16, 36 and 64 sq ft meetings spaces.

- Designed to be used for 10 minutes to 2 hours
- 55" high for seated privacy
- Available with or without partial height slots on the wings
- Available with the option for a full or partial height Flat Fabric Buffer on the interior or exterior
- Available with the option for a partial height Quilted Fabric Buffer on the interior or exterior
- Accommodates casual seating and tables

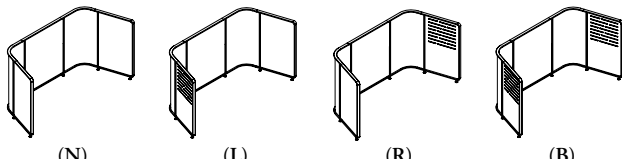

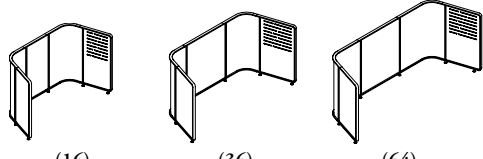

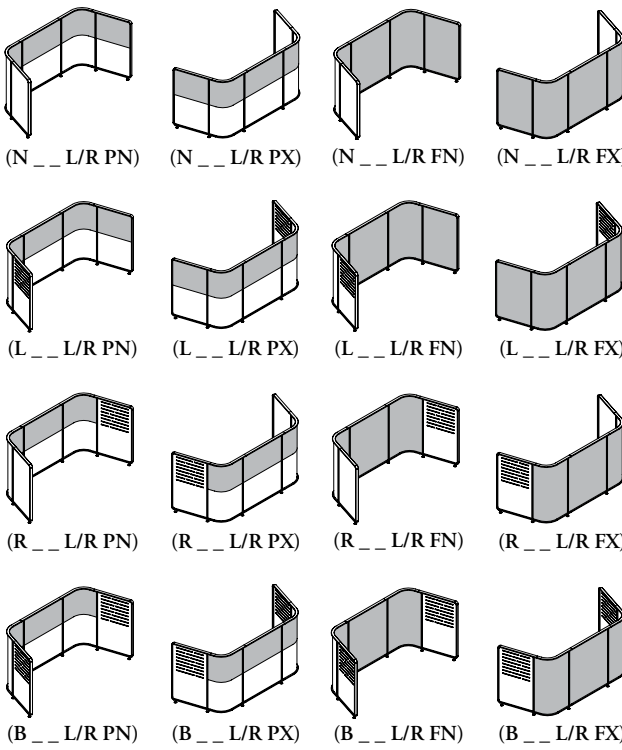

Freestanding Lounge Screen – C, 16 sq ft partial slots:

- Flat Fabric Buffer, full height interior
- Flat Fabric Buffer, full height exterior

freestanding lounge screen – C (continued)

The following outlines the steps and options that must be considered when specifying a Freestanding Lounge Screen – C.

		Options	As shown in rendering

*Casual seating can also be specified within the screens footprint.

*Optional Screen-to-Sofa Tether (ZNAC) is available to attach Zones Soft Seating to Freestanding Screens.

planning with freestanding lounge screens

The following should be considered when planning with Freestanding Lounge Screens.

orientation

Zones Freestanding Lounge Screen – A (ZNFGA)

- Consists of one standard wing and one short wing for stability
- Furnishings would typically be on one side only
- Orientation is determined by the location of the short wing from the perspective of a person standing in front of the screen on the side that the furniture is typically placed

Zones Freestanding Lounge Screen – B (ZNFGB)

- Orientation is determined by viewing from the top view, whether forming an “S” shape or “Z” shape
- Slots are always on the ends and can be either on one side or two
- There is no left or right orientation, if slots are specified on one side only, the screen can be rotated to achieve the desired location

Zones Freestanding Lounge Screen – C (ZNFGC)

In-The-Zone 2-Seater (shown)

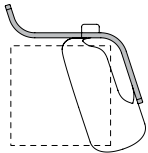

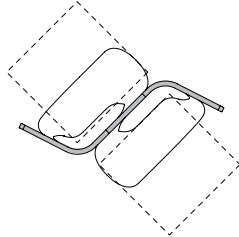

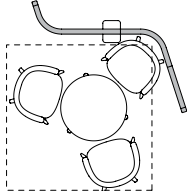

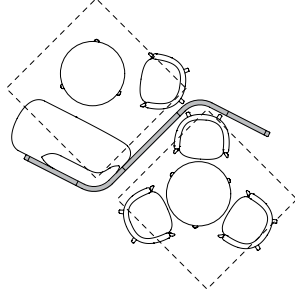

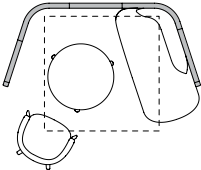

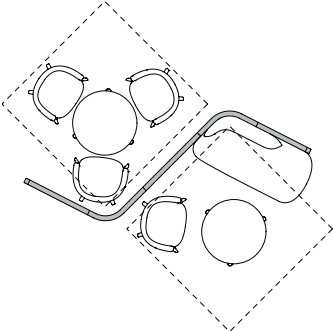

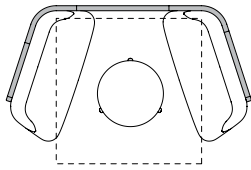

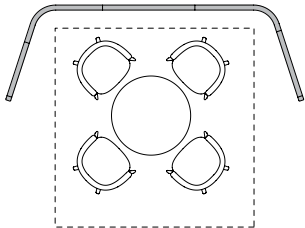

- Slots are available on the left, right or both sides of the screen
- Orientation is determined by the location of the slots when looking into the setting
- The “C” Screen is always symmetrical, both wings are the same size

planning with freestanding lounge screens (continued)

Each Screen type is available in predetermined sizes, described by the amount of square footage each screen creates on one or both sides of the screen.

All furniture inside of these settings is planned independently of the screen.

This also determines the amount of people each side can accommodate and the type of furniture that will fit.

	Freestanding Lounge Screen – A (ZNFGA)	Freestanding Lounge Screen – B (ZNFGB)	Freestanding Lounge Screen – C (ZNFGC)
9 sq ft (3 ft x 3 ft) (1-2 people)			n/a
16 sq ft (4 ft x 4 ft) (2-3 people)			
36 sq ft (6 ft x 6 ft) (3-4 people)	n/a		
64 sq ft (8 ft x 8 ft) (4+ people)	n/a	n/a	

planning with freestanding lounge screens (continued)

sofa integration

Zones Screens are available in a variety of sizes to accommodate the following sofas:

- Zones Settings Chaise Sofa (ZNSL)
- In-The-Zone Sofa – 2-Seater (ZNSD)
- Zones Settings Sofa - 2.5 Seater (ZNSE)
- Zones Settings 108° Corner Sofa (ZNSV)

The distance that a sofa extends beyond the screen varies depending on the sofa style and screen style selected.

The following outlines the sofas that can be used with each size and type.

freestanding hinged screen

ZNFGH

The Zones Freestanding Hinged Screen provides visual privacy for freestanding settings.

- Designed to be used for 10 minutes to 2 hours
- 55" high for seated privacy
- Screen freely angled between 90°-120°
- Available with or without partial height slots
- Accommodates Zones Setting Chaise Sofa, Zones Settings 108° Corner Sofa and casual seating
- Width options for each panel: 36", 42", 48", 54", 60"

Exterior

Interior

variable angle

The handedness of the Hinged Screen does not need to be specified because it can be determined on site. The pin on the hinge can be removed and the screens reversed to change the handedness at installation.

planning with freestanding hinged screens

The following should be considered when planning with Freestanding Hinged Screens.

square footage

The following diagram shows the change in square footage depending on hinge angle (example shows screen 1 option of 48" and screen 2 option of 36").

The following chart shows the approximate range of square footage required depending on selected screen widths.

		SCREEN 1 WIDTH				
SCREEN 2 WIDTH		36"	42"	48"	54"	60"
	36"	9-12.8 sq feet	10.5- 15.2	12 – 18.5	13.5 – 21.6	15 - 25
	42"	10.5 – 13.8	12.25 - 16.7	14 – 20.3	15.75 – 23.6	17.5 – 27.24

	54"	13.5 – 16.4	15.75 – 19.8	18 – 23.9	20.25 – 27.7	22.5 – 31.7
	60"	15 – 17.8	17.5 – 21.3	20 – 25.7	22.5 – 29.7	25 – 33.9

understanding workshop screens

Zones Workshop Screens are 55" or 72" high and available in three configurations. They provide additional standing height privacy and can be used with a variety of freestanding soft seating and casual tables.

freestanding workshop screen – B

- The Freestanding Workshop Screen - B is a privacy screen that serves as a functional and aesthetically pleasing space divider
- It promotes dynamics of interaction and collaboration on either side of the screen
- The symmetrical shape is designed to provide ample room on either side to create workshop style areas in an open plan environment
- 72" high

freestanding workshop screen – C

- The Freestanding Workshop Screen - C defines workspace in a familiar wrap style manner
- It can function as a backdrop to seating, tables and storage or act as a sheltering surround for workshop style meetings
- 72" high

semi-supported screen

- The Semi-Support Screen can be used in combination with various Zones soft seating settings and also enables storage capabilities at various height levels
- Ideal for creating a display, media hosting and hospitality areas with the spirit of a domestic hearth
- Heights:
 - Lounge Height 55" high
 - Workshop Height 72" high

freestanding workshop screen - B

ZNFWB

The Zones Freestanding Workshop Screen B provides the ability to create separate freestanding casual work settings of 16, 36 and 64 sq. ft.

- Designed with two short wings that curves to the outer side for stability
- 72" high for standing height privacy
- The symmetrical design is suited to dual sided applications
- Available with slots on one side, both sides or no slots
- Available with the option for a full or half Flat Fabric Buffer applied to both sides
- Available with the option for a partial height Quilted Fabric Buffer on the interior or exterior
- Anchor plates are included to ensure stability

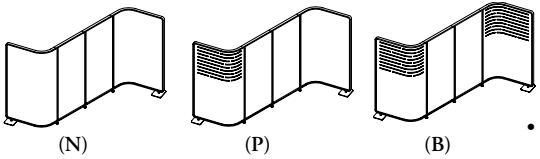

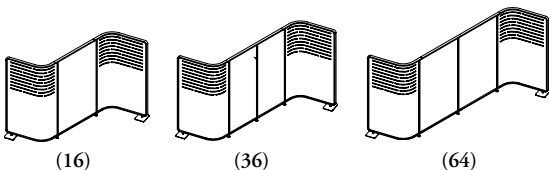

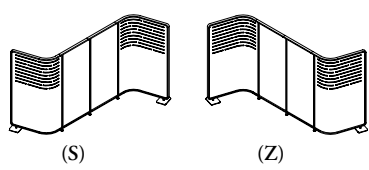

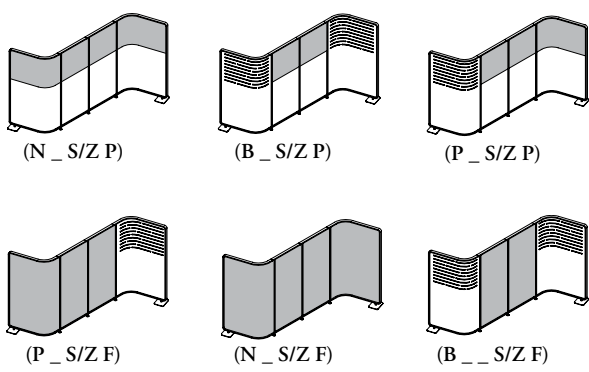

Freestanding Workshop Screen - B, 36 sq ft Partial Slots, One side:

- Flat Fabric Buffer Full Height, Both sides

freestanding workshop screen - B (continued)

The following outlines the steps and options that must be considered when specifying a Freestanding Workshop Screen - B

		Options	As shown in rendering
1	Slots (ZNFWB) 	Slot Orientation : N = None P = Partial one end B = Partial both ends	ZNFWB72P Partial Slots, One End
2	Footprint: 	Footprint area: 16 = 16 sq ft 36 = 36 sq ft 64 = 64 sq ft	ZNFWB72P36 36 Square Feet

*Zones Screens can accommodate a variety of table and seating options. Please see the Work Tables, Multi- Use Seating and Soft Seating Sections for recommended configurations.

Optional Screen-to-Sofa Tether (ZNAC) is available to attach Zones Soft Seating to Freestanding Screens.

freestanding workshop screen - C

ZNFWC

The Zones Freestanding Workshop Screen C provides the ability to create freestanding casual work settings of 16, 36 and 64 sq. ft.

- Designed to be used for 10 minutes to 2 hours
- Designed with two short wings that curve to the inner side for stability
- 72" high for standing height privacy
- The symmetrical design is suited to single sided applications
- Available with slots on left side, right side or no slots - slots are always on the outside wings
- Available with the option for a full or half Flat Fabric Buffer on the interior or exterior
- Available with the option for a partial height Quilted Fabric Buffer on the interior or exterior
- Anchor plates are included to ensure stability

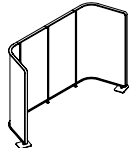

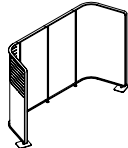

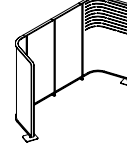

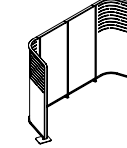

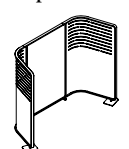

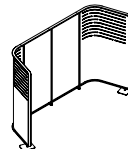

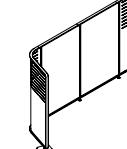

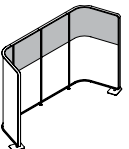

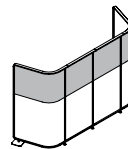

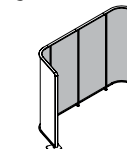

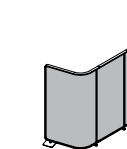

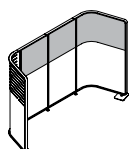

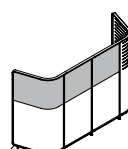

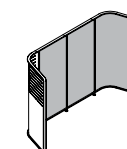

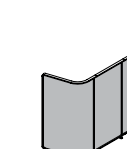

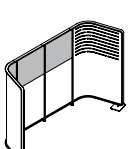

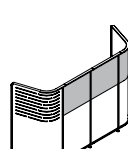

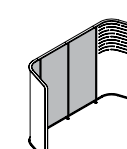

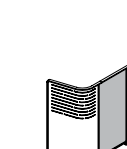

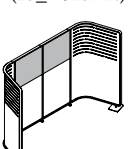

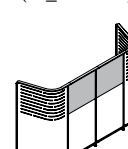

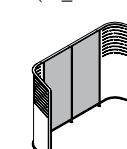

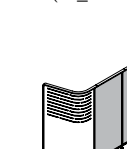

Freestanding Workshop Screen- C, 36 sq ft Partial Slots both sides:

* Zones Screens can accommodate a variety of table and seating options. Please see the Work Tables, Multi- Use Seating and Soft Seating Sections for recommended configurations.

planning with workshop & semi-supported screens

The following should be considered when planning with Workshop Screens.

Each Screen type is available in predetermined sizes, described by the amount of square footage each screen creates on one or both sides of the screen.

All furniture inside of these settings can be planned independently of the screen.

This also determines the amount of people each side can accommodate and the type of furniture that will fit.

	Freestanding Workshop Screen - B	Freestanding Workshop Screen - C	Semi-Supported Screen
16 sq ft (4 ft x 4 ft) (2-3 people)			
36 sq ft (6 ft x 6 ft) (3-4 people)			
64 sq ft (8 ft x 8 ft) (4+ people)			
100 sq ft (10 ft x 10 ft) (4+ people)			

planning with workshop screen buffers

The following should be considered when planning with workshop screen buffers.

screen buffers: fabric orientation

The direction that fabric is applied to buffers (orientation) will vary depending on the height of the screen.

Partial Fabric, 55" high Screen
- Railroaded

Full Fabric, 55" high Screen
- Railroaded

Partial Fabric, 72" high Screen
- Railroaded

Full Fabric, 72" high Screen
- Off-the-Bolt

Flat Fabric Buffers shown.
Quilted Fabric Buffers come partial fabric and will be railroaded.

ledge surface & support kit basics

The Zones Ledge Surface and Support Kit is used in conjunction with the Semi-Supported Screen to provide a ledge for a television and accessories.

Media configuration, 29" high (shown)

Ledge Surface & Support Kit (ZNFK)

- Mounts into the vertical trims of the Semi-Supported Screen
- Available in two configurations:
 - Media Configuration 25" high and 29" high x 20" deep
 - Shelving Configuration 36" high and 42" high x 17-1/2" deep
- Is not freestanding, must be used with a Semi-Supported Screen to provide stability

planning with ledge surface & support kits

The following should be considered when planning with Ledge Surface and Support Kits.

When a Semi-Supported Screen is specified, a Ledge Surface and Support Kit must be used to provide support to the screen. The screen is not freestanding.

20" deep Media Configuration

- Available in two heights
 - Task (25" high)
 - Dialogue (29" high)
- Each height has two shelves
- Available with an option for wire management to accommodate a television

17-1/2" deep Shelving for 36" high and 42" high Shelves

- Available in two heights
 - Counter (36" high)
 - Bar (42" high)
- Counter height has two shelves
- Bar height has three shelves

The following chart outlines the size and number of shelves that are included in each configuration.

Configuration	Height	Top Shelf Depth	Lower Shelf Depth	Number of Surfaces
Media (M)	25"	20"	17-1/2"	2
	29"	20"	17-1/2"	2
Shelving (S)	36"	17-1/2"	15"	2
	42"	17-1/2"	15"	3

screen finishes

Zones offers a unique finish palette that complements Teknion's product portfolio. The following outlines the finishes and materials available on all Screens.

grain direction

The woodgrain direction on the trim does **not** bend around the curves. It is a random match.

55" high shown, 72" high will have anchor plates.

The woodgrain on screens runs vertical on all Screens.

Wing Panels are the screen segment at the end of a Screen and can be specified:

- With slots
- Slots on one side only
- With no slots

The Wing Panel can be specified in a different screen segment finish:

- When only one side is specified with slots and a different screen finish is specified, the Wing Panel on the opposite side with no slots will default to the non wing segment finish

Screen Finishes

Screen Trim Finishes:

Greystone Beech Natural Beech Pecan Beech

Wing and Screen Laminate (LPL):

Greystone Beech Natural Beech Pecan Reflect

Foot and Vertical Metal Trims:

Sand Crisp Grey Greystone Greystone Crisp Grey Sand

Z N F G A

Freestanding Lounge Screen – A

Freestanding Lounge Screen – A is a 55" high privacy screen that accommodates smaller Zone Lounge settings (various combinations of seating and casual tables).

WHAT’S INCLUDED

Footprint Area	09	16
1 Curved Screen assembly	n/a	31 3/4"
2 Curved End Screen assemblies	43 3/4"	43 3/4"
2 Flat Screen assemblies	n/a	24"

Footprint Area 16 screen assemblies include an Anchor Plate.

All screen assemblies come with top and bottom solid wood trims (plus end trims for end assemblies) and one vertical metal trim at all joints.

Hardware to join assemblies into complete Screens.

Feet with levelers.

NOTES

Accommodates Zones Settings Chaise Sofa (ZNSL), Zones Settings 108° Corner Sofa (ZNSV) and other casual seating and tables.

Seating and Tables need to be ordered separately. Refer to the Application Guide pages for specific details.

Orientation is determined by location of short wing, from the perspective of a person standing in front of the screen.

Freestanding Lounge Screen – B is a 55" high privacy screen that serves as a functional and aesthetically pleasing space divider and promotes dynamics of interaction and collaboration of either side of the screen. Its symmetrical shape is designed to provide ample room on either side to create separate working areas in an open plan environment.

Z N F G B**Freestanding Lounge Screen – B****WHAT'S INCLUDED**

Footprint Area	09	16	36
1 Flat Screen assembly	24"	36"	36"
2 Curved End Screen assemblies	43 3/4"	25 3/4"	31 3/4"
2 Flat Screen assemblies	n/a	24"	30"

All screen assemblies come with top and bottom solid wood trims (plus end trims for end assemblies) and one vertical metal trim at all joints.

Hardware to join assemblies into complete Screens.

Feet with levelers.

NOTES

Accommodates Zones Settings Chaise Sofa (ZNSL), Zones Settings 108" Corner Sofa (ZNSV) and other casual seating and tables.

Seating and Tables need to be ordered separately. Refer to the Application Guide pages for specific details.

Orientation is determined by viewing from the top view, whether forming an "S" or "Z" shape.

There is no left or right to the location of slots since the screen may be rotated to achieve the desired location when specified with one side.

Hinged Screen

Hinged Screen is a 55" high privacy screen that accommodates smaller Zone Lounge settings (various combinations of seating and casual tables).

WHAT’S INCLUDED

All screen assemblies come with top and bottom solid wood trims (plus end trims for end assemblies) and one vertical metal trim at all joints. Hardware to join assemblies into complete Screens. Feet with levelers.

NOTES

Panel widths and slot option can be mixed and matched between panels.

The hinged screen can be freely angled between 90°-120°. The hinge is designed to prevent the panels from being arranged in any configuration outside of this range.

The handedness of the screen can be determined onsite.

trolley basics

The Zones trolley is a mobile cart that can be used for food service or casual storage.

Trolley (ZNRT)
• 32" wide x 23" deep
• 37" high

Wood Frame Finish:

Metal Shelf Finish:

- Foundation
- Mica
- Accent

storage unit basics

The Zones storage collection addresses the need for technology, work tools, food service, bag drop-off and other aspects within a Zones workshop setting.

Optional Screen-to-Storage Tether (ZNRH) attaches Zones Storage Units to Freestanding Screens.

Zones Compact Unit (ZNRC)

A bar height unit that can be used for storage or as a podium.

- Width: 15"
- Height: 42"
- Available with casters or levelers
- Includes a right swing door
- Cubby Trays
 - can be specified with the unit or ordered separately
- Cubby option will include:
 - 1 medium tray
 - 1 small tray

Zones Service Unit (ZNRS)

A counter height unit that can be used for storage or as a hospitality unit.

- Widths: 30" and 45"
- Height: 38 1/4"
- Available with levelers
- 30"w has an open storage section
- 45"w has an open section and a hinged door
 - the handedness is determined by the location of the hinge
- Upper shelf is adjustable
- Cubby Trays
 - can be specified with the unit or ordered separately
- Cubby option will include:
 - 1 tall tray
 - 1 medium tray
 - 1 small tray

Zones Media Unit (ZNRM)

A task unit that can be used for storage or as a television stand

- Widths: 30" and 45"
- Height: 29"
- Available with levelers
- 30"w has an open storage section
- 45"w has an open section and a hinged door
 - the handedness is determined by the location of the hinge
- Upper shelf is adjustable
- Cubby Trays
 - can be specified with the unit or ordered separately
- Cubby option will include:
 - 1 tall tray
- An optional cut out and Cable Box can be specified with the unit or ordered separately

planning with storage units

The following should be considered when planning with Storage.

Zones storage is available with the option for cubby trays and cable boxes. The following outlines the amount included.

	Small Tray	Medium Plus Tray	Tall Tray
29" high Media Zones Media Unit (ZNRM)	Qty 1	Qty 1	Qty 1
36" high Service Zones Service Unit (ZNRS)	Qty 1	Qty 1	Qty 1
42" high Compact Zones Compact Unit (ZNRC)	Qty 1	Qty 1	0

The Media Unit (ZNRM) has two options for cord management:

The following are the maximum recommended widths for televisions (Media Unit shown).

storage finishes

The following outlines the finishes available with Zones storage and accessories.

Zones Storage Laminate:

easel basics

Zones Easels can be used in a variety of meeting and lounge settings to provide a writable, tackable surface or add technology functionality.

Tech Easel (shown)

Easel (ZNAE)

- Provides casual space division and a vertical working surface
- Available 36", 48" and 60" wide
- Overall heights include:
 - 72.6" with levelers
 - 74.4" with casters
- Surface finishes include:
 - Whiteboard
 - Panel Fabrics
 - Upholstery Fabrics
- Each side can be specified with a different finish
- Available with or without a flip chart rail
- Leveler and Caster options include:
 - Levelers
 - Levelers and lower shelf
 - Casters
 - Casters and lower shelf

Add On Shelf (ZNAF)

- Provides a removable storage space on Easel (ZNAE)
- Available 36" and 48" wide
- **Cannot** be retrofitted on existing Easels

Tech Easel (ZNAE)

- Provides casual space division with a vertical mounting surface for a television screen on one side
- Available 60" and 72" high and 50" wide
- Opposite side options include:
 - Whiteboard
- Leveler and Caster options include:
 - Levelers
 - Levelers and lower shelf
 - Casters
 - Casters and lower shelf

Wood Finish:

Greystone
Beech

Natural
Beech

Pecan
Beech

Paint Finish:

All Teknion Foundation, Mica, and Accent Paints

planning with easels

The following should be considered when planning with Zones Easels.

tech easel

The Tech Easel offers the ability to mount a television screen on one side, and a functional surface on the backside.

The Easel can be specified with or without an Add-On-Shelf.

planning with easels (continued)

Tech Easels have a lower covered tray which conceals all wire management.

- The Power Bar (YEPD) is site installed on the left or right side
- The internal wire manager stores excess Power Bar cables inside of the unit
- There are two access doors fastened by magnets

Television monitors mounted to the Tech Easel **cannot** be more than 55" wide or 50 lbs.

The 50" width of the Tech Easel is nominal, the actual width of the easel is 54" wide.

monitor tower basics

Zones Monitor Towers provide a monitor mounting and power routing location in enclosures and screens.

Task Corner

Task Straight

Task Corner

Task Straight

Corner

Bar Corner

Bar Straight

Bar Corner

Bar Straight

Straight

Monitor Tower (ZNET)

- Provides a monitor mounting and power routing location in semi-suspended applications in both Enclosures and freestanding Screen configurations
- Does **not** mount to an Enclosure or Screen but must mount to a worksurface

Freestanding Monitor Tower (ZNEF)

- Provides a freestanding monitor mounting and power routing location

Paint Finish:

Foundation
Mica
Accent

planning with monitor towers

The following should be considered when planning with Monitor Towers.

Monitor Tower (ZNET)

Curved Monitor Towers are designed to be used in the curves of Enclosures and Freestanding Screens.

Freestanding Monitor Tower (ZNEF)

Flat Monitor Towers are designed to be used on the straight sections of Freestanding Screens.

Monitor Towers can accommodate a television screen up to 43" wide when mounted inside an Enclosure. Wider television screens will interfere with the Enclosure screen.

When a television is mounted to the Freestanding Monitor Tower (ZNEF), the television **cannot** be placed above 55" for the 55" high tower and 72" for the 72" high tower. Placing a television higher than these heights will cause stability issues. The maximum weight of the television is 45 lbs.

coat storage basics

Zones offers a stationary and portable storage solution for coats and other personal items.

Coatcheck Easel (shown)

Coat Stand (ZNAS)

- Provides an adaptable solution for coat storage

Coatcheck Easel (ZNAR)

- Similar in style to the Easel, with a rail for hanging coats and a small shelf for personal items
- Available 72" high and 36" wide

Wood Finish:

Greystone
Beech

Natural
Beech

Pecan
Beech

Paint Finish:

All Teknion Foundation, Mica, and Accent Paints

display shelf basics

The Zones Display Shelf is a screen mounted casual accent surface.

Display Shelf (ZNAH)
• Available 18", 24", 30", 36" and 42" wide

casual power basics

Zones provides options for casual power access.

Power Pill (ZNEP)

- Provides above worksurface power and USB access
- Can mount to a worksurface, table or a table runner
- Configurations:
 - Two Power, Two USB Modules (LA)
 - Three Power, One USB Module (LB)
 - One Power, One USB Module (SA)
 - Two Power (SB)
- The bracket is always finished in Greystone
- When Crisp Grey finish is specified, simplex default to White
- When Greystone finish is specified, outlets default to Black
- When Sand finish is specified, outlets default to White

Compact Power Bar (ZNYEPS)

- Mounts to the vertical trim on an Enclosure or Screen or under worksurface to provide casual power
- Available with three power outlets
- Available with 6 feet and 10 feet cord lengths

CALA Power Module (ZNEB)

- Used in applications for Argentina, Chile and Brazil
- Provides above worksurface power and USB access
- The bracket is always finished in Ebony
- Greystone coordinates with black outlets
- Crisp Grey coordinates with very white outlets

Paint Finish:

Greystone Crisp Grey Sand

planning with casual power

Two power simplex
(SB)

- Large Power Pills are specified on the worksurface in the following Enclosures:
 - Task Digital Meeting Zone -Four
 - Lounge Meeting Zone - Four
 - Digital Lounge Meeting Zone
 - Bar Digital Meeting Zone -Four
- Used on Canteen and Workshop Tables in a Power Pill cut-out is specified

- Small Power Pills are specified on the worksurface in the following Enclosures:
 - Collaborative Zone -Twin
 - Office Zone
 - Focus Zone - Solo
 - Focus Zone - Twin

When the Small Power Pill (ZNEPSA/ZNEPSB only) is specified on an Enclosure worksurface, there will be a rear-facing power receptacle on the underside of the worksurface to allow a Table Lamp to be plugged in.

below worksurface user-edge usb hub basics

Zones Tables are available with options for USB access below the worksurface.

Swerv USB Hub, Branched (YMSUB), shown on Workshop Table, also available on Canteen Tables.

Swerv USB Hub, Branched (YMSUB)

**Available through the Complements catalog*

- Used when no Power Pill is specified and USB access is required
- Mounts to the underside of the worksurface
- Contains four USB ports with two plug-in points each
- Option of two or four USB hubs
- Three feet or eight feet long cords
- Cables, power adapter, region specific cord and mounting brackets are included
- Used only with the following tables:
 - Square Workshop Table (ZNTWS)
 - Rectangle Table, 96" wide (ZNTWT)
 - Rectangle Table, 120" wide (ZNTWT)
- Can be retrofitted to an existing table

*For more information, please see Complements: *Teknion's Ergonomics & Accessories* Program.

Workshop Table Wire Manager Cover (ZNEW)

- Used with Workshop Tables to manage USB cables
- Available on 48" and 60" deep tables

Swerv USB Hub, Branched (YMSUB) Finishes:

Crisp Grey Platinum Anthracite

Workshop Table Wire Manager Cover (ZNEW) Finish:

Greystone Crisp Grey Sand

planning with user-edge usb hub

The following should be considered when planning with User-Edge USB Hub.

When the User-Edge USB Hub is specified, all cables, power adapter, region specific cords and mounting brackets are included.

Can only be specified with two or four USB Hubs.

User-Edge USB Hub can be used with all table edge profiles, however the edge detail will determine whether the User-Edge USB Hub is mounted flush to the edge or recessed.

planning with user-edge usb hub (continued)

The following is the recommended locations for the User-Edge USB Hub.

Square Workshop Table (ZNTWS)

Rectangular Dialogue Workshop Table (ZNTWA), 72" wide x 48" deep

Rectangular Workshop Table (ZNTWT), 96" wide x 48" deep

Rectangular Workshop Table (ZNTWT), 120" wide x 48" deep

The User-Edge USB Hub **cannot** be used with Power Pills or a Workshop Table Cable Skirt (ZNES) or the Workshop Table Cable Box (ZNEH) as the cables will not be able to extend to the center of the table.

It is recommended that when the User-Edge USB Hub is specified that the Workshop Table Cable Manager (ZNEW) also be specified to cover and facilitate cable management.

planning with user-edge usb hub (continued)

The following are recommended locations for the User-Edge USB Hub with Long Workshop Tables (ZNTWN).

Table size	People	Cord Lengths	USB Ports
12'	10	6'	8
16'	14	6'	8
18'	14	6'	8
24'	20	11' x 2'	16

12' Long Workshop Table (ZNTWN)

16' Long Workshop Table (ZNTWN)

18' Long Workshop Table (ZNTWN)

24' Long Workshop Table (ZNTWN)

When 6 module options are used, modules will be connected as shown:

18' Long Workshop Table (ZNTWN)

24' Long Workshop Table (ZNTWN)

Workshop Table Cable Skirt (shown)

The User-Edge USB Hub **cannot** be used with Power Pills or a Workshop Table Cable Skirt (ZNES) or the Workshop Table Cable Box (ZNEH) as the cables will not be able to extend to the center of the table.

It is recommended that when the User-Edge USB Hub is specified that the Workshop Table Cable Manager (ZNEW) also be specified to cover and facilitate cable management.

worksurface user-edge usb hub with long workshop tables basics

Zones Long Workshop Tables are available with options for USB access below the worksurface.

YMSUB, Swerv USB Hub, Branched, shown on Long Workshop Table

Swerv USB Hub, Branched (YMSUB)

**Available through the Complements catalog*

- Used when no Power Pill is specified and USB access is required
- Mounts to the underside of the worksurface
- Contains four USB ports with two plug-in points each
- Option of two or four USB hubs
- Three feet or eight feet long cords
- Cables, power adapter, region specific cord and mounting brackets are included
- Used only with the following tables:
 - Long Workshop Table (ZNTWM and ZNTWN)
- Can be retrofitted to an existing table

*For more information, please see Complements: *Teknion's Ergonomics & Accessories Program*.

Workshop Table Wire Manager Cover (ZNEW)

- Used with Workshop Tables to manage USB cables
- Available on 48" and 60" deep tables

cable management basics

Zones offers a variety of cable management solutions that can be mounted to Enclosures, Screens or Tables.

Power Cable Manager (ZNEN)

- Mounts to the bottom trim on an Enclosure for horizontal cable management or can be used to route cables down a Canteen Table leg
- Available in one, three or five piece configuration
- 24" long
- Always finished in Black

Screen Cable Manager (ZNEM)

- Mounts to the bottom trim on an Enclosure or Screen to route multiple cables along the trim
- Available:
 - Small (8 pieces)
 - Medium (12 pieces)
 - Large (16 pieces)

planning with cable management

The following should be considered when planning with Zones cable management.

power cable manager

When the Power Pill option is selected, a Power Cable Manager (ZHEN) with adhesive back should also be ordered separately. The Power Cable Manager (ZHEN) routes down the inside of the leg.

screen cable manager

When planning with the Screen Cable Manager the amount of bends in the Enclosure or Screen will determine what size of Screen Cable Manager is needed.

Example: Lounge Meeting Zone-Four (shown)

If cable management is required for two bends, small is required.

If cable management is required for three bends, medium is required.

If cable management is required for four bends, large is required.

workshop table electrics basics

Zones below worksurface electrics allow for wire management and below worksurface power.

Workshop Table Cable Box (shown), Workshop Table Cable Skirt (ZNES) also available

Workshop Table Cable Manager

Below worksurface electrics are only available on Workshop Tables.

Workshop Table Cable Skirt (ZNES)

- Provides a visual cover for under worksurface electrics and wire management
- Available on all Workshop Tables

Workshop Table Cable Box (ZNEH)

- Provides a higher aesthetic full cover for all under worksurface electrics and wire management
- Available on all Workshop Tables

Workshop Table Cable Manager (ZNEC)

- Used to provide vertical cable management below the worksurface
- Available in all Workshop Tables
- Available in Black only
- Adjustable top mount to accommodate 25" and 29" high Workshop Tables

Power Bar (YEPD8) *Ordered through the Complements catalog

- Works in conjunction with cable management brackets and the Large Power Pill brackets within the Workshop Table Cable Skirt and Workshop Table Cable Box
- Includes a bracket specific to Zones Workshop Table applications
- *For more information, please see Complements: *Teknion's Ergonomics & Accessories Program*

Electrical Finish:

Greystone

Crisp Grey

Sand

Power Bar (YEPD8) Finish:

Clear Anodized

planning with workshop table electrics

Workshop Table Cable Manager (ZNEC)

Square Workshop Table (shown)

Rectangular Workshop Table (shown)

When the Workshop Table Cable Manager is specified with a Table Lamp, the Workshop Table Cable Manager (ZNEC) includes the brackets required to mount the Table Lamp on to the Square Workshop Tables (ZNTWS) or Round Workshop Table (ZNTWR).

The Workshop Table Cable Manager has top mounting clips to adjust the height to accommodate Dialogue and Task Height Workshop Tables.

Workshop Table Cable Box (ZNEH) and Workshop Table Cable Skirt (ZNES)

At standing or sitting height the aesthetics of the electrical box and skirt look the same, however the Workshop Table Cable Box comes with doors to conceal cables whereas the Workshop Table Cable Skirt does not.

Workshop Table Cable Box (ZNEH)

Workshop Table Cable Skirt (ZNES)

planning with workshop table electrics (continued)

Workshop Table Cable Box (ZNEH)

The Workshop Table Cable Box includes a movable flip down door that is attached with magnets and allows access to the Power Bar mounted inside the box and a movable cable cut out panel that allows cables to route to the floor.

The door and cut out can be in four locations along the box to help align with floor monuments.

planning with workshop table electrics (continued)

Workshop Table Cable Box (ZNEH)

The Workshop Table Cable Box includes predetermined wire management brackets to accommodate the Power Pill (ZNEP) and the Power Rod (YEPD8). The location and amount of brackets is determined by the size and orientation that is specified.

The 72" wide Workshop Table Cable Box will have four wire management brackets.

Power Pills - Outer

The 96" wide Workshop Table Cable Box will have four wire management brackets.

Power Pills - Outer

Power Pills - Inner

Power Pills - Center

When a Workshop Table Cable box is specified for a 120" wide table it will have four cable management brackets.

Power Rod (YEPD8)

It is recommended that when lights are specified with a Table Runner, the Power Rod is specified also to allow for visual aesthetic within the Workshop Table Cable Box or Workshop Table Cable Skirt.

Velcro securely holds and accommodates various sized power adapters.

*For more information, please see Complements: *Teknion's Ergonomics & Accessories Program*.

planning with workshop table electrics (continued)

Workshop Table Cable Box (ZNEH)

The Workshop Table Cable Box includes predetermined wire management brackets to accommodate the CALA Power Module (ZNEB). The location and amount of brackets is determined by the size and orientation that is specified.

The 72" wide Workshop Table Cable Box will have four wire management brackets.

Power Pills - Outer

The 96" wide Workshop Table Cable Box will have four wire management brackets.

Power Pills - Outer

When a Workshop Table Cable box is specified for a 120" wide table it will have four cable management brackets.

planning with workshop table electrics (continued)

Workshop Table Cable Skirt (ZNES)

The Workshop Table Cable Skirt includes predetermined wire management brackets to accommodate the Power Pill (ZNEP) and the Power Rod (YEPD8). The location and amount of brackets is determined by the size and orientation that is specified.

The 72" wide Workshop Table Cable Skirt will have four wire management brackets.

Power Pills - Outer

The 96" wide Workshop Table Cable Skirt will have four wire management brackets.

Power Pills - Outer

Power Pills - Inner

Power Pills - Center

When a Workshop Table Cable box is specified for a 120" wide table it will have four cable management brackets.

 - Workshop Table Cable Box (ZNEH)
 - Workshop Table Cable Skirt (ZNES)
 - Workshop Table Wire Manager Cover (ZNEW)

No cable management, cable will be visible

ledge table electrics basics

Zones provides a plug-in power solution for Ledge Table runs.

Two AC Outlets

AC and USB Outlets

Ledge Table Electric (ZNEL)

- Used on connected table runs with two or three segments
- Table segments must be 60" or 72" w
- Includes the power boxes, splitters and plug in cable
- Power options:
 - 2 AC outlets
 - 1 AC outlet, 1 USB
- Finish: Black

planning with ledge table electrics

The following should be considered when planning with Ledge Table Electrics.

The Ledge Table Electric is a continuous assembly that includes the power boxes, splitters and plug for the entire run it is being used on. The components are not specified separately.

understanding cable box with ledge kit

**Ledge Kit with Cable Box (ZNFK)**

When a Cable Box is specified with the Media configuration of the Ledge Kit, the electrical shrouding and cable managers are included to route wires cleanly for a TV or media device

- 1 One plastic Cord Wrap manager
- 2 One 30" wide electrical shroud (painted to match supports)
- 3 Two 9" long screen vertical wire managers (color matched to supports)

Ordered separately

One under worksurface mount (YEPD) (same as workshop table)

ZNETL
Table Lamp

The Table Lamp is mounted either to the Table Runner on the Workshop Table or directly to a worksurface for localized lighting.

WHAT'S INCLUDED
1 Zones Table Lamp as specified with integrated LED light source

NOTES
Color temperature of 3000K.
50000 hour lifespan.
Color Rendition Index of 80+ CRI.
Power Consumption of 12W.
3m cord.

understanding workstation integration

Zones offers a collection of screens, worksurfaces with canteen legs, and tables that can be seamlessly integrated into other Teknion product lines.

semi-supported worksurfaces for District and upStage

- Designed to work in a semi-suspended application with District credenzas or upStage stages
- Available with two or four radius corners for different planning applications
- Used with Canteen style legs

systems canteen tables

- Can be integrated into District and upStage applications
- Available in task and bar height
- Used with Canteen style legs

desk edge screens

- Available for flat or corner desk applications
- Available in fabric or wood (fabric shown on flat application and wood shown on corner application)
- Can be mounted to semi-suspended or freestanding desks
- 42" datum height

table top screens

- The table top screen sits casually on the worksurface and provides personal space division and privacy
- Designed for easy movement
- Available in Knit Linx

semi-supported worksurfaces for upstage basics

The Zones Semi-Supported Worksurface for upStage is used with a support kit to mount to an upStage stage, seamlessly integrating the Zones aesthetic.

Four radius corners (shown)

Semi-Supported Worksurface for upStage Integration (ZNWSU)

- Sizes:
 - 24", 30" and 36" deep
 - 46" –70" wide (6" increments)
- Styles:
 - Two radius corners
 - Four radius corners
- With or without cut out, grommet is **not** included
- Edge Styles:
 - Flat edge
 - Knife edge

semi-supported worksurfaces for district basics

The Zones Semi-Supported Worksurface for District is used with a support kit to mount to a District credenza, seamlessly integrating the Zones aesthetic into District.

Four radius corners (shown)

Semi-Supported Worksurface for District Integration (ZNWSD)

- Sizes:
 - 23", 29" and 35" deep
 - 48" - 72" wide (1" increments)
- Styles:
 - Two radius corners
 - Four radius corners
- With or without District round grommet, grommet is included
- Edge styles:
 - Flat edge
 - Knife edge

planning with semi-supported worksurfaces

The following should be considered when planning with semi-supported worksurfaces.

The following illustrates upStage and District worksurfaces with radius corners and grommets. Grommets are centered.

upStage with two radius corners

upStage with four radius corners

District with two radius corners

District with four radius corners

Semi-supported worksurfaces are offered with two or four radius corners for different planning applications.

Worksurfaces with two radius corners should be specified in the following applications:

- The surface is planned up against a District Panel
- Two upStage worksurfaces are planned side by side

Worksurfaces with four radius corners should be specified in the following applications:

- A single sided application of upStage
- A freestanding District application

Reinforcement channels must be used with Semi-Supported Worksurfaces and are specified separately.

upStage Below Worksurface

District Below Worksurface

semi-supported worksurface support kit basics

The Zones Semi-Supported Worksurfaces support kit for District and upStage allows the worksurface to be suspended from a District credenza or upStage stage.

Semi-Supported Worksurface with Support Kit for District application

Semi-Supported Worksurface with Support Kit for UpStage application

Semi-supported Worksurface Support Kit for District (ZNWSKD)

- Includes two components:
 - Height-adjustable bracket
 - Canteen Legs
- Height-adjustable bracket:
 - Can be attached to 21" high District credenza
 - Bracket includes height-adjustment with 1/2" leveling increments

Semi-supported Worksurface Support Kit for upStage (ZNWSKU)

- Includes two components:
 - Height-adjustable bracket
 - Canteen Legs
- Height-adjustable bracket:
 - Can be attached to 21" high upStage stage
 - Bracket includes height-adjustment with 1/2" leveling increments

planning with semi-supported worksurface support kits

The following should be considered when planning with Zones Semi-Supported Worksurfaces and District Panels.

When planning with Zones Semi Supported Worksurfaces and District Panels, a Semi-Supported Worksurface Support Kit (ZNWSK) must be specified

- District worksurface supports **cannot** accommodate the leveling restrictions of the Canteen leg
- Worksurface with two radius corners must be specified when used with a District panel

Semi-Supported Worksurface for District Integration with two radius corners and Semi-Supported Worksurface Support Kit, District Storage and Panel.

Semi-Supported Worksurface for District Integration with four radius corners and Semi-Supported Worksurface Support Kit, District Storage and Panel.

Semi-Supported Worksurface for District Integration with two or four radius corners (two shown), mounted directly to a District Panel.

systems canteen table basics

The Zones System Canteen Table integrates into District or upStage workstations planned with Semi Supported Worksurfaces. The 3" corner radius match the radius of Semi-Supported worksurfaces.

Canteen Table Bar Height -
42" high (shown)

- Heights:
 - Task Height (29")
 - Bar Height (42")
- 3" radius corners

Systems Canteen Table –Task Height (ZNTCT)

- Sizes:
 - 24", 30", and 36" deep
 - 60", 66" and 72" wide
 - 29" high
- Cut out options:
 - District round grommet centered on back
 - upStage rectangular cut out centered on back (grommet is not included, and must be order from the upStage catalogue)
- Edge styles:
 - Knife edge
 - Flat edge

Systems Canteen Table –Bar Height (ZNTCB)

- Sizes:
 - 30" and 36" deep
 - 60", 66" and 72" wide
 - 42" high
- Grommet options:
 - District round grommet top centered
 - upStage rectangular cut out top centered (grommet is not included, and must be order from the upStage catalogue)
- Edge styles:
 - Knife edge
 - Flat edge
- Available with or without options for:
 - Power Pill (ZNEPLA/ZNEPLB only) cut-out
 - International electrics CALA Power Module

datum height

Systems Canteen Tables are available in task and bar height to allow for different meeting styles.

Task Height, 29" high

Bar Height, 42" high

desk edge screen basics

Zones Desk Edge Screens mount to Semi-Supported Worksurfaces to provide seated privacy.

- Fabric and wood
- Straight and cornered

Corner Desk Edge Screen -Fabric (ZND CF)

- Sizes:
 - 20", 29", 35" and 41" wide
 - 20" deep
 - 19" high (42" datum)
- Material options:
 - Fabric without slots

Corner Desk Edge Screen –Wood (ZND CW)

- Sizes:
 - 20", 29", 35" and 41" wide
 - 20" deep
 - 19" high (42" datum)
- Material options:
 - Wood with slots
 - Wood without slots

Straight Desk Edge Screen -Fabric (ZND SF)

- Sizes:
 - 36", 42", 48", 54" and 60" wide
 - 19" high (42" datum)
- Material options:
 - Fabric without slots

Straight Desk Edge Screen –Wood (ZND SW)

- Sizes:
 - 36", 42", 48", 54" and 60" wide
 - 19" high (42" datum)
- Material options:
 - Wood with slots
 - Wood without slots

workstation integration finishes

The following outlines the finishes available with Zones Workstation Integrated products.

Corner and Desk Edge Screens:

Wood Screen Finishes:

- Zones Vertical Laminate

Fabric Screen Finishes:

- Panel Fabrics: Grades 1, 2, 3, 4, 5, 7

Worksurface:

- Zones Foundation Laminate
- Grade 2 Laminate
- Zones Veneer

Supports:

Wood Leg Finishes:

- Natural Beech
- Greystone Beech
- Pecan Beech

planning with desk edge screens

The following should be considered with planning with Desk Edge Screens.

straight desk edge screens

Mounts to System Integration semi-suspended worksurfaces or freestanding tables.

- 42" high datum (5" below worksurface modesty)
- It is recommended that the desk edge screen be 6" inset from either side to avoid interference with leg brackets

- There is a 3/8" wire gap when mounted to a worksurface to allow for cable routing

- Desk edge mounted items **cannot** be planned with the Straight Desk Edge Screens due to interference with the mounting bracket. There is 4-3/8" on either side of the bracket which will allow desk edge mounting

corner desk edge screens

Mounts to semi-suspended worksurfaces or freestanding desks.

- 42" high datum (5" below worksurface modesty)
- It is recommended that the desk edge screen be 6" inset from either side to avoid interference with leg brackets

- There is a 3/8" wire gap when mounted to a worksurface

- Corner Desk Edge Screen **cannot** be mounted to a worksurface with square corners

table top screen basics

The Zones Table Top Screen provides space division and personal privacy to create more effective work settings for individual and collaborative work. The screen sits on the tabletop and can be easily repositioned.

Table Top Screen (ZNDST)

- Widths: 30" and 40"
- Heights: 18" (47" Datum)
- Material options available:
 - Knit Linx
- Diecast Base with Felt Bottom
- Available in Knit Linx with a foundation or mica painted box

Knit Linx Finishes:

Cool Grey Pewter Warm Grey Shale Citrine Sage

Brook Poppy Apricot Evergreen Midnight Pomegranate

planning with table top screens

The following should be considered with planning with Table Top Screens.

datum heights

The Table Top Screen is 18" high for a 47" high overall datum height.

recommended occupancy

The Table Top Screen is designed to be freestanding on the surface. The following outline a number of planning ideas for a communal setting.

Lateral

30" wide Table Top Screen

understanding zones modular seating

Zones Modular Seating is a complete and cohesive collection of upholstered benches, tables, and accessories designed to create a soft residential look while performing for commercial applications.

- All Standard Upholstery Fabrics will be applied Off-the-Bolt. (See Fabric Direction Guidelines page in the Textiles & Finishes + Materials section for more information)

upholstered benches

A collection of straight and curved modular seating designed to go beyond the traditional requirements of lounge seating.

- Curved profile creates a soft domestic mood and enhanced back support
- Accommodates up to three people
- Based on a 24" wide planning module for efficient planning in architectural spaces
- Available in backless, low back and high back for various levels of support and privacy
- Optional electrical Power Cube mounts below the seat

tables & tablets

Tables and Tablets add functionality to a Modular Seating configuration.

- In-Line Tables with optional Table Lamps provide an integrated surface with a profile that coordinates with the curved profile of the upholstered seat
- End-of-Line Table is cantilevered to the end of a run
- Add on tablets are fixed above seat level and are sized for personal or shared use
- Ledge Tables are sized to fit behind benches providing an elevated, tiered table solution

accessories

Zones Modular accessories finish the details of a layout to create settings that cater to users functional needs and designers aesthetic visions.

Options include:

- Bench End Caps
- Arms (End of Run and Mid Run)
- Pillows

understanding zones modular seating (continued)

The following family of Zones Modular Seating products can be combined together or with additional Zones furnishings.

- Designed to minimize complexity in specification and offering, while maximizing planning capabilities.
- This makes it easy to understand for quick, small projects yet comprehensive for larger installations.
- Benches are available in single and dual upholstery
- Power/Data is mounted is available in two options:
 - predetermined locations at time of order
 - ordered separately as a Power Cube and installed on site

understanding zones modular seating (continued)

Unlimited configurations can be created with Zones Modular Seating that address the needs of today's work behaviors and planning scenarios.

- One layout can service different purposes to different users
- The need and the context within the space will help to define the appropriate solution

The following outlines typical zones that can be planned with Modular Seating.

1 paused activity zone

Traditional reception or lobby areas can take on a more casual 'resimercial' tone with Zones Modular Seating. There will always be a need for a destination that allows one to sit down and wait or take a short break.

2 digital and analog collaboration zone

Provides a contemporary and informal space where teams can meet for presentations and training.

3 multi-activity zone

New hybrid spaces allow a small team meeting to occur outside of a traditional room, provide a touchdown space to work away from your desk or a gathering spot to share a moment with a colleague.

understanding zones modular seating (continued)

Zones Modular Seating furthers the ability to "add a little, add a lot" to suit customer needs, workplace values, brand and style.

- 1 paused activity zone
- 2 digital and analog collaboration zone
- 3 multi-activity zone

To expand the planning opportunities further, incorporate individual furniture pieces such as Zones chairs, enclosures, screens, tables and lamps

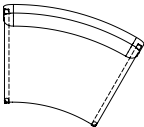

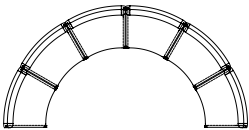

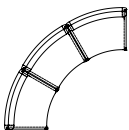

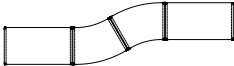

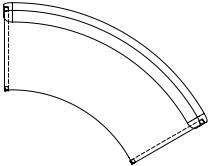

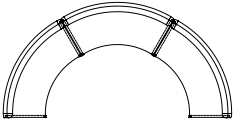

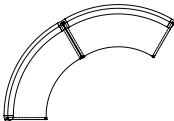

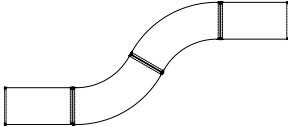

planning with zones modular seating

The following should be considered when planning with Zones Modular Seating.

Zones Modular Seating is available:

- Straight
- Concave, 30° and 60°
- Corner, 90°

The following configurations are possible when using 30° and 60° concave benches.

concave bench	semi-circle	quad-circle	jog
 30°	 • 90 sq ft footprint • Six benches	 • 44 sq ft footprint • Three benches	 • 50 sq ft footprint • Four benches
 60°	 • 90 sq ft footprint • Three benches	 • 80 sq ft footprint • Two benches	 • 120 sq ft footprint • Four benches

The following outlines the number of users that each seating unit can accommodate. The weight capacity of each bench is based on a maximum of 300 lbs per person (for example a three-seater is rated for three individuals each weighing no more than 300 lbs).

Straight Upholstered Bench – Three Seater

30° Concave Bench

60° Concave Bench

90° Concave Bench

planning with zones modular seating (continued)

curved modules: l-shape and j-shape

Planning with various angles and back heights can create many different, traditional and contemporary configurations,

- No back, 18" high is ideal for an open look and dual sided access
- Low back, 33" high is ideal when directionality is required but low sight lines are important
- High back, 44" high is ideal when additional privacy and separation of space is required

Various heights combined, and the addition of lamps, tables and lounge seating create a contemporary setting.

30°

Low Back – 30° Concave Benches with Straight Bench, Three Seater

High Back – 30° Concave Benches with Straight Bench, Three Seater

High Back – 30° Concave Benches with Straight Bench, Three Seater

Zones Arc Floor Lamp with Round Lounge Workshop Table and Zones Sled Lounge Chair.

60°

High Back - 60° Concave Benches with Straight Bench, Three Seater

High Back - 60° Concave Benches with Straight Bench, Three Seater

Zones Arc Floor Lamp with Round Lounge Workshop Table and Zones Sled Lounge Chair.

90°

Low Back - 90° Concave Bench with Straight Benches, Two and Three Seater

High Back - 90° Concave Bench with Straight Benches, Two and Three Seater

High Back - 90° Concave Bench with Straight Benches, Two and Three Seater

Zones Arc Floor Lamp with Rectangular Lounge Workshop Table and Zones Sled Lounge Chair.

planning with zones modular seating (continued)

curved modules: u-shape

U-shaped configurations can be created using either 30° or 60° benches

- The 30° bench allows for delineation of each seat including finishes
- The 60° bench provides a clean, continuous solution with few legs

30°

Low Back – 30° Concave Benches with Straight Benches, Two Seater

High Back – 30° Concave Benches with Straight Benches, Two Seater

High Back – 30° Concave Benches with Straight Benches, Two Seater

High Back – 30° Concave Benches with Zones Arc Floor Lamp with Round Lounge Workshop Tables and Zones Sled Lounge Chairs.

High Back - 60° Concave Benches with Zones Arc Floor Lamp with Round Lounge Workshop Tables and Zones Sled Lounge Chairs.

planning with zones modular seating (continued)

- Modular seating can be either freestanding or ganged
- Each bench unit comes with one factory installed ganging device, allowing the units to be combined

The following outlines the options available.

60° concave seating can be planned as freestanding units or ganged.

30° concave seating can only be planned so that it is ganged side by side with other seating units or tables.

90° concave seating can only be planned so that it is ganged side by side with other seating units or tables.

planning with zones modular seating (continued)

Zones Modular Seating is designed with a common linking method used between each bench and table.

- Each bench includes one non-handed ganging mechanism that comes factory installed on the left hand side and is removable on-site for ease of planning and reconfigurability
- At the end of a run, the ganging device is removed and covered with a Bench End Cap (ZNQR), which ensures that all fastenings are concealed

- Bench End Caps (ZNQR) must be ordered separately and come as a set of 2 with one end cap installed at the beginning and one at the end of the run
- When specifying an Add-on Tablet, End of Run (ZNQSE), End of Line Table (ZNQU) or an Arm, End of Run (ZNQWE), a Bench End Cap (ZNQR) is not required
- It is recommended that Bench End Caps (ZNQR) should be specified in the same finish as the benches frame finish

zones straight upholstered bench, no back overview

Zones Modular Straight Upholstered Bench with no back is available as a Two Seater or Three Seater. The 18" height is ideal for providing multi-directional seating with open sight lines.

zones bench end caps overview

The Zones Modular Seating Bench End Cap conceals all fasteners and aesthetically finishes the start and end of a modular seating run.

ZNQR

Bench End Caps – Set of 2
(ZNQR)

The following finishes are available on Zones Modular Seating – Bench End Caps

Paint Finish:

Foundation
Mica
Accent

FEATURES

- Bench End Caps cover the fastenings on the legs of the bench at the beginning or end of a run
- Painted finish on metal
- Includes one pair of Bench End Caps (set of 2)
- Installed on-site

EXTRAS

- Bench End Caps are non-handed and must be installed on the exposed bench leg at the beginning and end of run. One Ganging Mechanism must be removed to accommodate the End Cap
- Specify the paint finish to coordinate with the Bench's Paint Finish on Metal Leg

NOTES

A Bench End Cap is not required when and Arm (ZNQWE), Add-on Tablet - Personal, End of Run (ZNQSE) or End of Line Table (ZNQU) are specified at the beginning or end of the run.

planning with zones modular add-on tablet

The following should be considered when planning with Zones Add-on Tablets.

zones modular straight seating, two seat, with add-on tablets

Add-on Tablet - Personal End of Run (ZNQSE)

Add-on Tablet - Personal Mid-Run (ZNQSM)

Add-on Tablet - Shared Mid-Run (ZNQSS)

zones modular straight seating, three seat, with add-on tablets

Add-on Tablet - Personal End of Run (ZNQSE)

Add-on Tablet - Personal Mid-Run (ZNQSM)

Add-on Tablet - Shared Mid-Run (ZNQSS)

planning with zones modular add-on tablet (continued)

The following should be considered when planning with Zones Add-on Tablets with Zones Modular Seating.

zones modular 60° concave seating with add-on tablets

The following indicates the distances that tables are offset from the ends of modular units.

Add-on Tablet - Personal End of Run (ZNQSE)

Add-on Tablet - Personal Mid-Run (ZNQSM)

Add-on Tablet - Shared End of Run (ZNQSS)

The following configurations should not be planned with Add-On Tablets, as they do not provide sufficient seating space for a user.

90° applications

30° applications

Z N Q S

Zones – Add-On Tablet

FEATURES

- Add-On Tablets are installed on-site in a fixed position
- Personal, End of Run Add-On Tablets are handed left and right from the seated position and provide a finished end to the Modular Seating run
- Painted finish on metal support
- Tablets are Baltic-Birch plywood substrate with knife-edge profile. For veneer applications, grain direction is front to back
- Personal Tablet style is rectangular 11" wide x 16" deep and for individual use for an individual sitting on the bench using a laptop, with books or beverage
- Shared Tablet Style is 22" diameter and intended for up to two users with books or beverages. Both users may be sitting on the bench or one user on the bench and one on a free-standing chair
- Metal support is mounted to bench leg (at the location where a Bench End Cap (ZNQR) or Ganging Mechanism may typically be mounted)

NOTES

A Bench End Cap (ZNQR) is not required when the Personal, End of Run Add-On Tablet (E) is specified.

zones modular in-line tables overview

Zones Modular In-Line Tables are freestanding and intended to be in a fixed position between two benches. Optional cut-out is located in center of table surface to accept Zones Table Lamp (ZNETL4). Ordered separately.

ZNQTN/ZNQTY

Table Lamp (ZNETL4) is ordered separately and designed to have a viewing height appropriate for Zones Modular Seating

Surface Veneer With optional Cut Out

Ganging Mechanism (not shown)

Base:
Metal base with Painted Greystone, Crisp Grey or Sand option

Zones – In-Line Table, With Cut-Out for Light (ZNQTY) (shown)

In-Line Table, No Cut out (ZNQTN)

- 15-5/8" high x 18" wide x 32-3/4" deep

In-Line Table, With Cut-Out for Light (ZNQTY) (Table Lamp not included)

- 15-5/8" high x 18" wide x 32-3/4" deep

Table Lamp (ZNETL4)

grain direction

Woodgrain pattern on all worksurfaces run parallel to the length of the worksurface.

The following finishes are available on Zones Modular In-Line Tables:

Top Finish:

Greystone Beech Natural Beech Pecan Beech

Base Finish:

Greystone Crisp Grey Sand

FEATURES

- In-Line Tables are installed on-site in a fixed position between two benches. In-Line Tables are not recommended to be used freestanding
- Painted finish on metal legs
- Tables are Beech Veneer on plywood substrate with flat edge profile. For veneer applications, grain direction is front to back
- Includes one factory installed non-handed relocatable Ganging Mechanism, Zones – Bench End Cap (ZNQR) must be ordered separately if unit is positioned at the end of run

EXTRAS

- Optional cut-out is located in center of table surface to accept Zones Table Lamp (ZNETL4) for Zones Modular Seating In-Line Table (includes grommet). Table Lamp must be purchased separately
- If an In-Line Table is applied at the end of a run, Bench End Caps (ZNQR) must be ordered separately

NOTES

The In-Line Table is 18" wide & designed to be a similar profile to the seat of the adjacent bench. At 15-5/8" high it sits approximately 2" lower than the seat of the bench (height will vary relative to upholstery thickness).

White

Soft Gris

planning with zones modular power cube

Zones Modular Seating modules can be specified with or without an optional Power Cube (ZNSQ) or it may be ordered separately.

Benches may be specified with or without power data options. Power/data mounting locations are standardized to simplify use and specification. If alternate mounting locations are preferred, the benches should be specified without Power/Data and individual Power Cubes (ZNSQ) may be specified to suit other needs and installed on-site.

The following locations are available when specifying Zones Modular Seating with standard factory installed Power Cube electrical options. Additional Power Cubes may be ordered separately and field installed for retrofits or to expand applications.

Z N S Q
Zones – Power Cube

The Power Cube can be mounted to the underside of a Zones Modular Seating Bench at pre-determined locations and provides access to one simplex power and two USB hubs.

WHAT’S INCLUDED

Power Cube electric module with Mounting Brackets, 3m power cord, two mounting screws, two cable manager and P-clips.

NOTES

Complete wired Power Cube with cord. Mounting bracket assembly with wire management and mounting hardware.

Install on-site to recommended mounting locations below Zones Modular Seating Benches. May be retrofit onto the existing Bench.

The cable manager is to be placed over the floor monument, and the P-clips are used to route the cable from the Power Cube to the cable manager.

The Power Cube is finished with a Very White frame and Soft Gris colored ports.

USB-A Port: Supplies 10 Watts (5VDC) when used in single port mode

USB-C Port: Supplies 18 Watts (5/9/12VDC) when used in single port mode

USB C port will support Quick Charge when used in single port mode

When both ports are used at the same time, output may be reduced

Refer to Complements App Guide for more details
