

LUUM

Unified Field Collection

Unified Field Collection

Unified Field by Suzanne Tick presents a thoughtfully designed collection of six textiles inspired by the concept of interconnection: from one indivisible whole, or field, all elements issue forth, and work together. Reinterpreting classic patterns and furthering Luum's ethos of fiber-to-finish design, *Unified Field* evolves our portfolio and infuses contemporary twists, sustainability, and versatility into the holistic design process. Centered around fresh takes on traditional apparel motifs, the collection blooms with joyful color and pattern. A luxurious velvet pattern sets the scene, while three sustainable textiles join the recycled garment waste platform, and coated TPE technology provides beauty, performance, and cleanability in one. *Unified Field* creates a welcome invitation for new moments in our spaces, with clarity and cohesion.

1 ——— Oblique Argyle

A playful twist on the classic knitwear motif, *Oblique Argyle* transforms a nostalgic pattern into a three-dimensional specialty velvet pile with unexpected multicolor pairings. The jacquard velvet is woven in two layers, then a precise knife-edge separation process reveals the pattern's luxurious, silky surface texture. Bleach cleanable and richly decorative, *Oblique Argyle* is suitable for hospitality, workplace, and residential spaces.

Use: Upholstery

Content: 60% Acrylic, 21% Polyester, 19% Recycled Post Consumer Polyester

Number of Colorways: 6

(shown on sofa): Golden Slate

Abrasion: Wyzenbeek 65,000 double rubs

Special Characteristics: Bleach Cleanable, Recycled Content, Chemical Finish Free, Heavy Metal Free, REACH Regulation Compliant

2 ——— Forward Motion

Color, scale, proportion, and materiality define *Forward Motion*, Luum's first stripe for upholstery. Each colorway features five stripe colors in a varied layout that rhythmically come and go across the width of the textile. Created on Luum's recycled garment waste platform, pre-and-post consumer recycled wool garments are sorted, shredded, dyed, re-spun into yarns, and woven into a new textile, diverting waste from the landfill. *Forward Motion* easily coordinates with *Stability*, its solid companion textile.

Use: Upholstery

Content: 75% Pre and Post Consumer Recycled Wool, 15% Polyester, 10% Nylon

Number of Colorways: 7

(shown on settee): Golden Hour

(shown left, top to bottom): Golden Hour, River Current, Forest Path

Abrasion: Martindale 50,000 cycles

Special Characteristics: Recycled Content, Renewable Content, REACH Regulation Compliant

3 ——— Stability

Designed for enduring beauty and performance, *Stability* upholstery embodies wool's natural benefits—renewable, thermoregulating, antimicrobial, and soft to the touch. Created through Luum's recycled garment waste platform and available in a broad color range of 22 hues, *Stability* complements *Forward Motion*, its multi-color stripe coordinate.

Use: Upholstery

Content: 75% Pre and Post Consumer Recycled Wool, 15% Polyester, 10% Nylon

Number of Colorways: 22

(shown left, top to bottom): Sorrel, Cactus, Nightfall, Soft Ice, Aquarelle, Bottle

(shown here, left to right): Flora, Magnolia, Nightfall, Water, Soft Ice, Cinerous, Gray Birch, Glacial Lake, Cress, Aquarelle,

Bottle, Cactus, Aureolin, Sorrel, Heliotrope, Cider, Poppy

Abrasion: Martindale 50,000 cycles

Special Characteristics: Recycled Content, Renewable Content, REACH Regulation Compliant

4 — Subtle Stria

Refined yet tactile, *Subtle Stria* is another quality textile produced on Luum's recycled garment waste platform. Each of its 16 colorways begins with a precise formula of repurposed fiber, spun together to create complex melange yarns. These dimensional multicolor slub yarns come together with heathered yarns to yield a soft textile suitable for contract and hospitality applications. *Subtle Stria* works well with Luum's other recycled upholstery textiles—together, a sustainable and versatile toolbox for color, texture, and pattern.

Use: Upholstery

Content: 45% Recycled Wool, 34% Recycled Acrylic, 9.5% Recycled Polyester, 2.5% Polyester, 6% Wool, 2% Alpaca, 1% Nylon
(Pre Consumer & Post Consumer)

Number of Colorways: 16

(shown here, top to bottom): Murmur, Confidential, Humbug

Abrasion: Martindale 90,000 cycles

Special Characteristics: Recycled Content, Renewable Content, Heavy Metal Free

5 — Surface Level

With its nubby, wool-like texture, *Surface Level* brings inviting comfort and tactility to any space. The enhanced scale of its weave structure allows robust rows of polyester boucle to come to the surface along with heathered olefin to create interesting variations in texture and color. Woolen in its look and feel, the palette offers nuanced shades of dimensional neutrals and grays, as well as fiery red and minty blue, to create cohesive interior solutions for contract, hospitality, or residential settings.

Use: Multipurpose

Content: 53% Post Consumer Recycled Polyester, 47% Olefin

Number of Colorways: 12

(shown here, top to bottom): Green Earth, Rock Salt, Water Mint, Seedpod, Cherrybark, Ore, Raffia, Flannel, Kelp

Abrasion: Wyzenbeek 50,000 double rubs

Special Characteristics: Recycled Content, Chemical Finish Free, Heavy Metal Free, REACH Regulation Compliant

6 — Perfect Balance

Re-interpreting a classic apparel motif, *Perfect Balance* is a coated upholstery that features an amplified puppytooth pattern with a woven look, even from afar. Its patterned ground cloth is woven with polyester yarns, then fused with a TPE top layer for an impermeable textile surface. Balancing the traditional and the contemporary, *Perfect Balance* comes in a sophisticated seven-color palette and is inherently ink-resistant, stain-resistant, and bleach cleanable, making it suitable for any high-demand environment.

Use: Upholstery

Content: 88% Polyester, 12% Tekloom TPE

Number of Colorways: 7

(shown here, left to right): Harmony, Natural Law, Integration, Pure Knowledge

Abrasion: Wyzenbeek 250,000+ double rubs

Special Characteristics: Bleach Cleanable, Inherently Ink & Stain Resistant, Chemical Finish Free, DMF Free, Heavy Metal Free, REACH Regulation Compliant, Complies with California 01350 VOC Emission Standards
