

*minuta*

## minuta product information

Minuta, Italian for minute, is the ideal platform for casual collaboration with your co-workers and the temporary stops made during the day where you take a few minutes and move on. Designed for Studio TK by Jeff Miller, Minuta brings some style to your lounge, break room, café, meeting space, and the in-between spaces in the office where you temporarily stop to take a break.

Minuta features a tapered pedestal at the center allowing for custom finishes in the upper and lower portions in a complementary or contrasting paint. Tops are available in four height options with a circular, square or rectangle shape with soft corners and available in durable high-pressure laminate or refined wood veneer with knife edge, or a back painted glass surface that can coordinate with the pedestal finishes.
