long island

point long island seating product information

A modern classic, Point Long Island's silhouette features straight shapes with thin lines that define this modular lounge seating collection. Offered through a partnership with Point Outdoor in Alicante, Spain, Long Island is designed by Christophe Pillet and is a timeless classic you will never suspect can be used outdoors. Pillet's goal was to "make it as desirable and as well finished as a piece of indoor furniture with a similarly detailed design."

Eminently versatile, Point Long Island adds a universal elegance to any indoor or outdoor lounge environment. Featuring a lounge chair, settee, sofa, and sectional components, Long Island deep seating encourages a relaxed mood and thick cushions that offer comfort and support.
