waltz product information

The Waltz series of tables, designed by the Studio TK Design team, offers a versatile collection that includes a laptop/task table for temporary workspaces and three design-matched lounge tables, all working together to create a cohesive environment. The laptop/task table is available in two options: a fixed height of 29 inches or a height-adjustable version that can be quickly raised or lowered to accommodate users of any size and seating style. The lounge tables are designed to complement the overall aesthetic of your space and come in three surface sizes, with heights of 12 inches, 15 inches, and 18 inches.

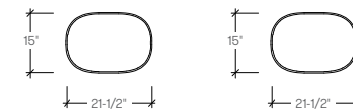

Waltz tabletops can be customized in a variety of materials, including high-pressure laminate, veneer, back-painted glass, or 100% post-consumer recycled Polygood plastic.
