

ballad plastic stool

ballad plastic stool
product information

Designed for Studio TK by Patrick Norguet, Ballad is "pure, a simple form with nice details and a little character." Stools extend the line upward with a counter or bar height seat in an easy to clean polypropylene seat shell in five durable finishes and hybrid options of an upholstered seat, or seat and back combination for added comfort and finish options.

In addition to multiple plastic and upholstery options, Ballad stools are available in two base styles finished in a durable powder paint.
