# MEET AND GREET

**Santé**  
Designed by Patrick Norguet

# A Café for Coming Together

## Cheers—

Santé celebrates the cozy feeling of a French bistro. From the traditional toast “à votre santé,” meaning “to your health,” the series playfully evokes the feeling of a familiar space where friends and colleagues alike can come together in good company.

## Patrick Norguet on Santé—

“Santé was influenced by the chairs designed in the 60’s that had a way of creating an atmosphere I always found attractive. For me, I tried to design a simple, living chair. Comfort is always the priority, and beyond just the physical, we were able to create a sense of visual comfort that helps to evoke that unique atmosphere.”

**Molded—**  
The seat is created with a molded foam over a plywood shell and upholstered with a hidden zipper

**Stackable—**  
Up to 4 chairs high

**Metal Base Finishes—**  
Chrome or Fundamental and Fashion powdercoat

**Wood Finishes—**  
5 Wood finishes

**Back and Seat Styles—**  
Upholstered or wood veneer

**Configurations—**

Armless chair, armchair, backless barstool,  
barstool with back

# DIVIDE AND COM- FORT

**Vettore**  
Designed by Toan Nguyen

**Accessory Tablet—**  
Attached between seating units for easy USB charging stations or a place to put down your phone or coffee

## A Model of Modularity

**Space Defining—**

Vettore is a modular lounge system designed with classic, tailored sensibilities that adapts to evolving and flexible workspaces. From the Italian for “vector,” Vettore divides the space comfortably to provide more places for casual and impromptu styles of work.

**Toan Nguyen on Vettore—**

“I wanted to evoke the beauty and comfort of home while planning for a commercial environment. The ability to plan on a “stage” alleviates the predictable “leg at every seat” model. And the accessory elements and tables add whimsy to the series with the curved surfaces playing off the seating modules.”

**Exacting—**  
Crafted upholstery techniques  
used for a modern systemic  
sofa program

**Metal Base Finishes—**  
Fundamental and  
Fashion powdercoat

**Table Finishes—**  
Laminate and Veneer

**Configurations—**  
Straight sofas or benches  
and sectional sofas or benches

**Leg Style—**  
Metal leg

# PEACE AND QUIET

**Libelle**  
Designed by Khodi Feiz

## A Private Moment in a Public Space

### Enveloped—

Libelle is a casual lounge collection for non-conventional, open space planning. The high back utilizes an opaque 3D knit mesh to provide users with just enough privacy while allowing others around to know that the piece is occupied. Perfect for private moments, alone or with just a few colleagues.

### Khodi Feiz on Libelle—

“We were exploring the notion of privacy within a social context. Just as important as having one-on-one interactions, it’s important to define privacy with a public space so that we can work on our own, focus and go deep in ways that feel closed off from our surrounding environment, and yet are deeply embedded within it.”

**Screened-in—**  
Knitted mesh pulls over an inner steel frame to create its structure while the curvature delivers a round softness across the back

Tablet Arm Finishes—  
Laminate and Veneer

**Knitted—**  
A 3D knitted mesh creates the transparency of the high back

**Comfort—**  
The lounge chair is constructed with a generous layer of molded foam

**Privacy Back Finishes—**  
11 semi-opaque 3D knit

**Metal Base Finishes—**  
Fundamental and Fashion powdercoat

**Configurations—**  
High back privacy lounge,  
lounge chair, pouf

# SIT AND EXTEND

**Adventura**  
Designed by Studio TK

## A Seating Collection with a European Sophistication

### **Varied and Versatile—**

Adventura is a flexible collection of lounge chair, settee and sofa seating. Its classic design details evoke a European sensibility with a “choose your own adventure” selection of finishes and configurations that make this simple set of pieces very expansive for refined corporate spaces or crafted start-up environments.

### **Studio TK on Adventura—**

“We wanted to develop a ‘do everything’ sofa program that could be used in hotels to the corporate bank. Depending on the arm, tufting detail and finishes applied it could be used in any environment a sofa was needed.”

**Arm Style—**  
No wrap or padded arm wrap

**Configurations—**  
Lounge chair, settee, sofa

**Back Cushion Style—**  
No tuft, sewn tuft, button tuft

**Leg Finishes—**  
Fundamental and Fashion powdercoat,  
or Polished Stainless Steel

**Leg Styles—**  
4-leg post or sled leg

IDEATE  
AND  
POLLIN-  
ATE

**Petal**  
Designed by Studio TK

## A Chair Blooming with Character

### Open up—

Petal's organic curves provoke the essence of nature and mimics the blossoming of a flower. As an accent piece for a traditional lounge or as a stand-alone for a greeting space, Petal brings a sense of tranquility into any space and adds an inviting atmosphere to any room.

### Studio TK on Petal—

"We loved the idea of embracing natural curvature such as flower petals to envelop someone as a comfortable solution to a lounge. The beauty of thin, rounded 'petals' exudes comfort paired with the natural earth tones of a powdercoat paint or a wood base to marry comfort and nature."

## Configurations—

Lounge chair

### Leg Style—

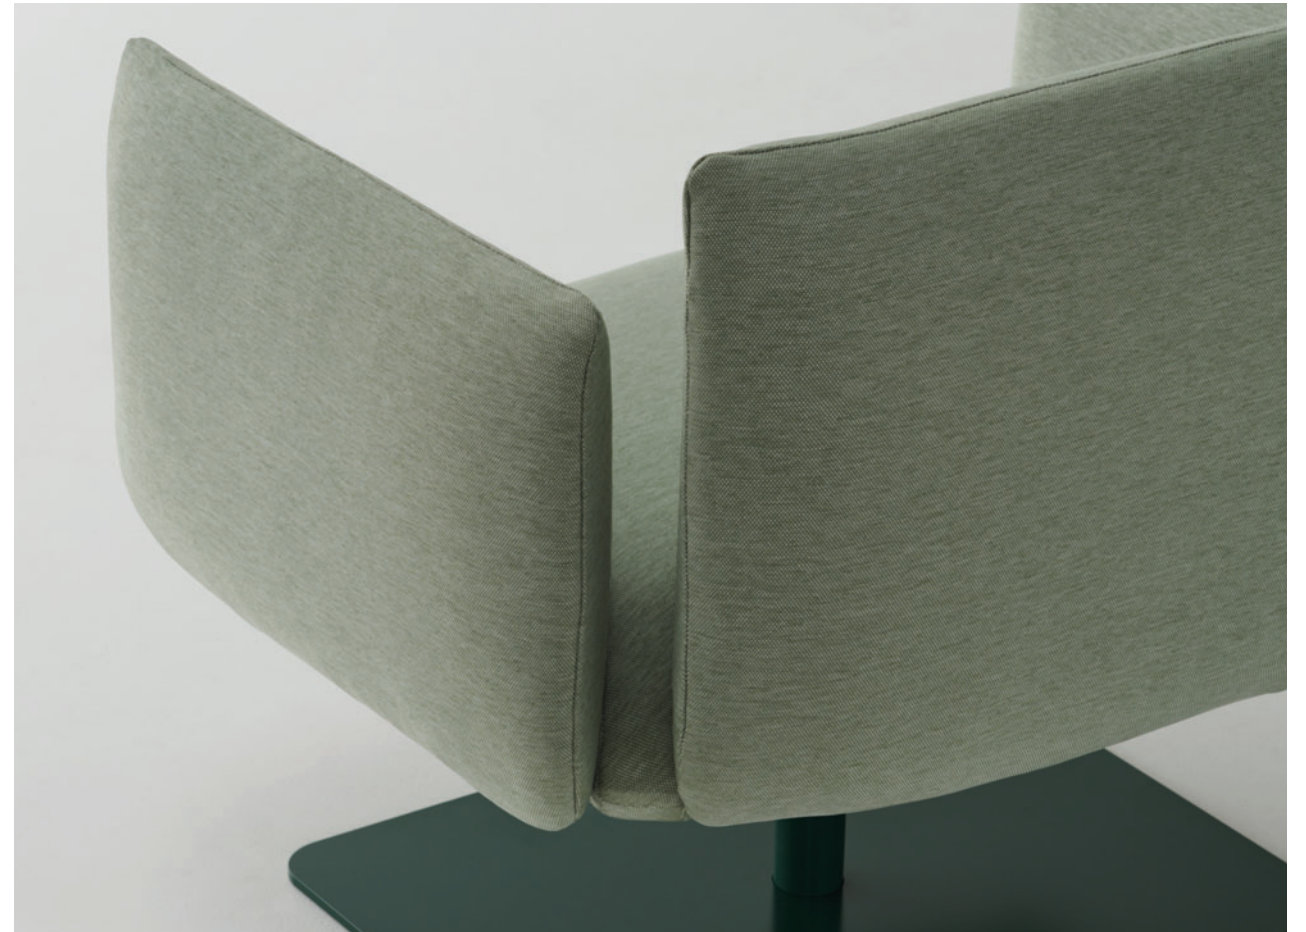

Exposed oak veneer plywood,  
auto-return swivel disc, and four-leg

### Metal Base Finishes—

Fundamental and Fashion  
powdercoat

### Plywood Base Finishes—

5 wood finishes

# EX- TEN- SIONS

# Fractals Nook

Designed by Jeffrey Bennett  
and Nicholas Dodziuk

**Concentrate—**  
Fractals Nook, an extension of the Fractals Seating product, uses an organic high shell with an added worksurface to create an intimate desk carrel for heads down, distraction-free work. The complete Fractals line offers the ability to intertwine high back lounge pieces with high desk nooks.

**Studio TK on Fractals Nook—**  
“A natural extension of the Fractals Seating product that offers a private desk nook to sit for extended work. Now we allow planning of seating elements and table elements to strengthen the social nomadic office.”

**Top Surface Finishes—**  
Laminate and Veneer

**Power cutouts—**  
Power in the desk surface allows a quick charge for those users that may use the Nook for extended periods of time

**Configurations—**  
High back desk nook

**Storage—**  
Bag hooks included on the underside of the work surface on left and right sides

**Inner Frame Finishes—**  
Fundamental and Fashion powdercoat

**Leg Finishes—**  
Fundamental and Fashion powdercoat, or Chrome

## Envita Tables

Designed by Mario Ruiz

### Color Coordinate—

As part of the expansion of our collection, we've taken the beauty and scale of Envita and livened it with the ability to color the base or glass top. This new CMF package gives customers free reign to pair paint finishes with textiles or glass tops to enhance the color and vibrancy of the workplace.

### Studio TK on Envita Tables—

"Envita is a natural tables series to expand our materiality story with our backpainted glass and powdercoat paint colors. It adds a fun pop of color to a classic table series."

**Configurations—**  
Rectangle coffee, task  
and occasional tables

# Punt

from Punt Mobles

## Enhance—

In a partnership with Spanish furniture company Punt Mobles, Punt is a popular mid-century furniture collection. Focusing on art and design, Punt embraces a new kind of sophistication, quality and combination of materials to enhance any space. The collections — Literatura Open Shelf System, Mava Wood Guest Chair, Mitis Table, and Stockholm Credenza — come together to create private offices and meeting spaces that offer a refined residential atmosphere in a commercial environment. Individual pieces can be showcased alongside signature designer elements to personalize, complement or transition any work environment.

## Studio TK on Punt—

“We are excited to add the Punt collection to the Studio TK offering. Punt evokes beauty and natural woodworking tailoring that aligns with the high level of quality we expect at Studio TK. The collection combines stand-alone pieces that can be used together or with other Studio TK pieces to create hospitable, warm spaces that are welcoming to all.”

# MATER- IALS

**Graded In Expansion**  
Luum + Maharam + Kvadrat

**Choice—**  
Studio TK welcomes Maharam and Kvadrat to our textile Graded In program. Joining Luum Textiles, Maharam and Kvadrat expand our selection of wools, wovens and non-woven compositions to enhance and streamline the ability to customize Studio TK's product collections.

# Luum

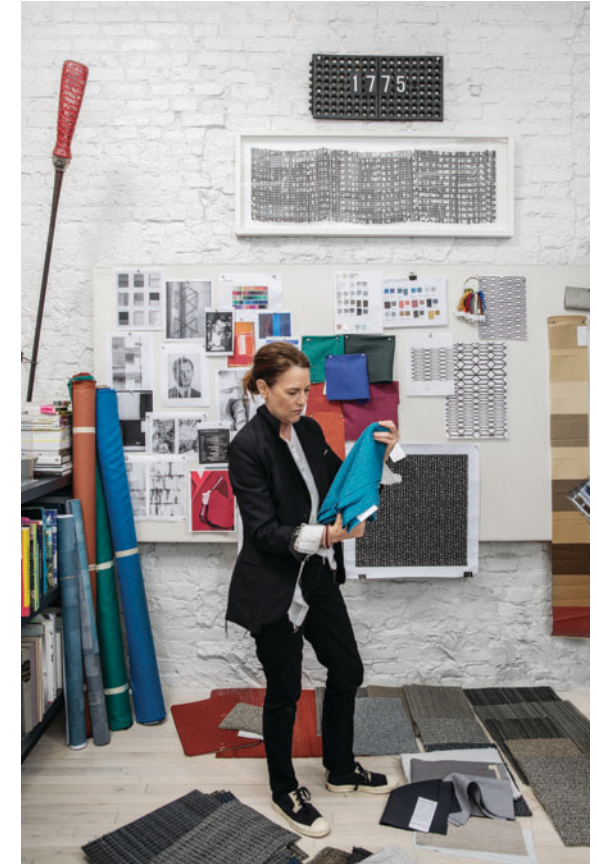

## Graded In Program

### Performance—

Luum is driven by the belief that design is most successful when the creative process is paired with a clear performance intent. It's why Luum works by hand at the fiber level to understand — and ultimately influence — how our materials will perform in the built environment, creating comprehensive solutions capable of wrapping every contour of the interior and unlocking the possibilities found within.

By hand—  
Creative Director, Suzanne Tick,  
develops her weave structure  
on a hand loom

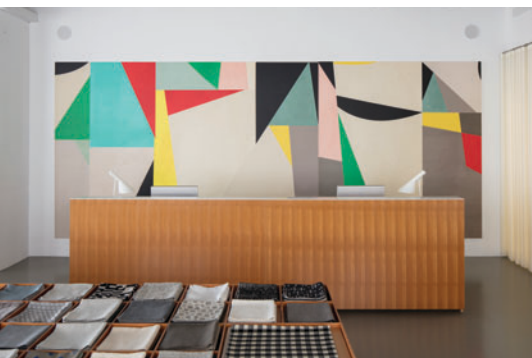

### Inspired—

Art, culture and architecture are infused into Luum's approach to design

# Maharam Graded In Program

**Expressive—**  
Textiles fill a room with  
an art-like quality

**Options—**  
A rich catalogue from the subtle  
to the sublime

**At scale—**  
The iconic designs scale across  
product and space

## **Iconic—**

Maharam is recognized for its rigorous and holistic commitment to design as a leading provider of textiles to architects and interior designers. Maharam embraces a range of disciplines, from product, graphic, and digital design to art and architecture. Limited selection available for the graded-in program.

# Kvadrat Graded In Program

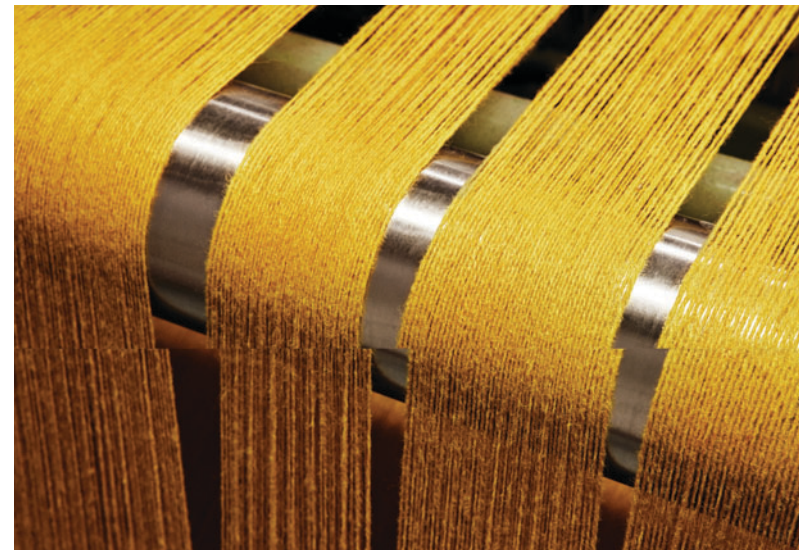

**Timeless—**  
Kvadrat was established in Denmark in 1968 and has deep roots in Scandinavia's world-famous design tradition. A leader in design innovation, Kvadrat produces high-performance design textiles, rugs, window covering and acoustic solutions for both commercial and residential interiors. Limited selection available for the graded-in program.

**Submerged—**  
Threads are treated before being moved into the mill

**Prepared—**  
Spools of thread are removed from the tank

**Threaded—**  
A complex stream of threads are prepared for weaving
