

ballad plastic chair

ballad plastic chair

product information

Choice is central to Ballad plastic seating with easy to clean polypropylene seat shell in five durable finishes and hybrid options of an upholstered seat, or seat and back combination for added comfort and finish options. Designed for Studio TK by Patrick Norguet, Ballad is "pure, a simple form with nice details and a little character." The result is something special, a complete line of seating that provides good comfort; good value; good quality; and of course, good design.

In addition to multiple plastic and upholstery options, Ballad chairs are available with or without arms in six base options finished in a durable powder paint or rich wood tone.
