Terms and Conditions

This illustrated list price book has been designed to facilitate fast reference and easy use. The line drawings match actual products (where possible) to aid in instant recognition of each item, but they are graphic representations only.

Sales of Global Contract's products are made only on Global Contract's standard Terms and Conditions of sale which are contained in this list price book. The "Purchaser" in these Terms, Conditions and General Information shall refer to Dealers and those who originally purchase directly from Global Contract for use or re-sale. These standard Terms and Conditions may be modified or supplemented only by a separately written document signed by Global Contract's authorized personnel at its head office in Toronto, Ontario, Canada. Any term or condition contained in any purchase order or other form used by the Purchaser to order goods (including standard, printed language) which is different from, in addition to, or in any way inconsistent with Global Contract's standard Terms and Conditions shall be of no force or effect whatsoever.

All illustrations, specifications and prices in this list price book are based on the latest product information available at the time of publication. Global Contract reserves the right to make changes at any time and without prior notice to prices, colours, materials, specifications and models offered.

Description

Each product shown or described in this list price book is standard Global Contract product. Available options are noted at the beginning of each series or at the beginning of the price list. Available options may require additional delivery time and cost, and may affect the warranty given. Sizes and weights shown are approximate and are subject to slight changes from time to time.

Prices and Payment

The prices shown in this Book, as well as those quoted by Global Contract, shall be Canadian dollars for orders shipped to destinations in Canada.

The price does not include any provincial or local property license, privilege, sales, use, value added, gross receipts, G.S.T. or other like taxes which may now or hereafter be applicable to, measured by or imposed upon or with respect to the transaction, the product, its sale, its value or its use, or any services performed in connection therewith.

If shipping date requested is more than 90 days from date of order, Global Contract shall have the right to use published list prices effective at the time of shipment.

Not included in the list price is special or export packing, freight, unpacking and installation. Orders are invoiced at the time of shipment.

Orders are invoiced at the time of shipment. Terms of payment are net 30 days.
All orders are subject to the Purchaser complying with Global's prevailing credit policy.

Any product sold shall remain the property of Global Contract until fully paid for. The Purchaser agrees to perform all acts which may be necessary to perfect and assure retention of title to such products to Global

Contract until such time as the goods have been paid for in full.

Delivery shall occur and risk of loss or damage to the product shall pass to Purchaser F.O.B. point of shipment. Purchaser is responsible for filing claims with the carrier for losses or damage to the product occurring during transit, including concealed damage.

Prices are suggested list prices only and are subject to change without notice. Global Contract will, however, attempt to keep the Purchasers up-to-date on all developments including price changes.

Taxes

All prices shown in this list price book are exclusive of sales, use, excise, HST and other applicable taxes and duties which may be the Purchaser's responsibility as per the invoice issued by Global. If the Purchaser claims an exemption from such taxes, it shall be the Purchaser's responsibility to furnish Global with an appropriate exemption certificate at time of order.

Order Information

Global Contract requires that all orders be submitted in writing. All orders submitted to Global Contract in writing will be acknowledged on Global Contract's acknowledgement forms governing the transaction.

The details appearing on this acknowledgement will describe the items to be shipped and the approximate shipping date. It is the Purchaser's responsibility to determine that the information in the acknowledgment is correct. In the event of an error, the Purchaser must notify their Global Contract Customer Service representative immediately by telephone followed by written confirmation. Shipping dates are assigned to orders based on the items having the longest manufacturing lead time (unless instructed to partial ship).

Purchaser must indicate if multiple shipping schedules are required. Each shipment will be invoiced at time of shipping and will be subject to payment terms described above.

When ordering, please provide the following information:
1. Account number (if possible)
2. PO number
3. "Bill to" and/or "Ship to" and name and address
4. Complete model number and selected options including textiles/finishes
5. Special instructions and tag information
6. Shipping instructions, please indicate:
   a. pick up
   b. Global trailer program
   c. common carrier, provide name of carrier, your account number
7. Special quote (SQ) # (if applicable)
8. Customer's Own Material (COM), Global Contract
   Purchased Material (GPM), Customer's Own Leather (COL) - please see below.
9. For specials and custom quoted product, please indicate the custom quote # on your PO. If changes are made to the quote, a new quote must be issued prior to submitting the order. It is the Purchaser's responsibility to determine that the information on the quote is correct. Global will not be responsible for wrong product due to errors in the quote.

The above points will be checked by Global Contract for

accuracy. Global Contract will process orders using the codes provided by the Purchaser. Price discrepancy is the responsibility of the Purchaser. The Purchaser must notify Global Contract prior to invoicing.

The Purchaser is responsible for providing correct information when placing an order. If no option(s) are selected the system, will default to standard feature(s). Orders with missing/incorrect information (finish, etc.) will be put on hold until all information is complete. Orders will be scheduled for manufacturing upon receipt of complete information.

Specifications and application drawing may be requested to be supplied for examination prior to approval.

Special Colours

Use of Customer's Own Material must be approved by Global Contract prior to acceptance of order. Fabric yardage requirement will be advised by factory, and additional yardage may be required if pattern requires matching. If Customers Own Material (C.O.M.) is difficult to apply or if product must be modified, extra charges will be made. Global Contract reserves the right to cancel an order at any time if C.O.M. is inadequate for any reason. Customer's own material should be shipped freights and duties paid to Global Contract, 565 Petrolia Road, North York, Ontario.
Such shipment must be fully identified with purchaser's order number, Global Contract's acknowledgment number and the item for which material is intended. For C.O.M. prices, use Grade 1 price. Performance of C.O.M. when applied to product is the sole responsibility of the purchaser.

Deposit on Special Orders

Orders for nonstandard products may, at Global Contract's discretion, require deposit prior to scheduling of production, the amount of the deposit being credited against the total price of the project.

Changes and Cancellation

After the date of Global's acknowledgment of the Purchaser's order, the order may not be changed or cancelled by the Purchaser without the written consent of Global. Orders for products upholstered in "special order textiles" (GPM) cannot be cancelled once material has been purchased. Special order items, COM and textile-covered items already in production are not subject to change or cancellation under any circumstances. Textile-covered items are considered to be in production once the textile is scheduled for cutting. Other standard items already in production are subject to a minimum 35% cancellation charge.

Global Contract reserves the right to cancel an order at any time if Special Order is in the sole judgement of Global Contract, inadequate for any reason.

Errors and Omissions

All quotations, acknowledgments and invoices are subject to corrections for any errors and omissions.

Disclaimer

Prices shown are current manufacturer's suggested list prices at the time of printing. Updated pricing is available on Global's website. All applicable taxes are extra. Descriptions, specifications and prices are subject to change without notice. Errors and omissions are subject to correction.

Custom Wood Staining
Custom wood staining procedure for wood seating is as follows. Customer provides a sample of the desired wood finish. That sample is sent to Global Contract Customer Service. Several finished samples will be sent back. The customer/end user will sign off on the samples (keeping one for their records) and return the rest of the samples. Global Contract will not necessarily match the wood species but rather will generate a colour that will coordinate with the sample when it is applied to the wood species used in the seating frame.

Metal File Finishes
There is no upcharge on any standard file finish. Any non-standard file finish must be approved by Global Contract prior to acceptance of order and will be subject to a 10% upcharge on orders up to 10 units. There is no upcharge on orders of 11 units or more.

An upcharge of 10% will apply to White, Metallic and Mica finishes regardless of the number of units ordered.

Wood Veneer Finishes
Because the distinctive characteristics and the nature of wood products cause variations, exact matches are not always possible. Global Contract will not be held responsible if the finishes cannot be matched.

Customer's Own Material (COM)
Use of COM must be approved by Global Contract prior to acceptance of order. Please submit the Authorization Request Form. Photocopy and use this form as often as necessary. The customer must provide a 12" x 12" textile sample and advise how the textile is to be applied and quantity of textile being sent. Textile yardage requirement will be advised by the factory, and additional yardage may be required if pattern requires matching. Upon approval from Global Contract, send textile to the COM Department at 565 Petrolia Road, North York, ON, M3J 2X8.

If COM is difficult to apply or if product is required to be modified, extra charges will apply. Global Contract reserves the right to cancel an order at any time if COM is inadequate for any reason. COM must be shipped freight and duties paid if applicable to our factory. Such shipment must be fully identified with the Purchaser's order number, and the item for which the material is intended. Performance of COM when applied to product is the sole responsibility of the Purchaser. Global Contract's standard product warranty shall not apply to COM. The COM price is the lowest published price/grade for the series. The published yardage requirement for COM orders is approximate and shown beside each item in the list price book. The yardage shown there is based on the textile requirements for cutting and sewing a single chair in a plain patterned textile. For textiles with a pattern repeat or for COM orders involving 10 or more chairs, please consult with Customer Service for recalculation of the yardage requirements as this may significantly change the textile requirement.

Textile Grading
All products are priced according to their standard textile grade. Lower grade textiles may be available but at the same price as standard textile grade.

Combining two grades of textiles may result in a revised grade. Please refer to "Fabric Grades Combination Chart" in the Seating list price book. For more than two textiles a special quotation is required.

GPM (Global Contract Purchased Material, Customer Specified)
Global Contract may purchase material specified by the customer. Use of GPM must be approved by Global Contract prior to acceptance of order. If it is difficult to apply or if product is required to be modified, extra charges will apply. Global Contract reserves the right to cancel an order at any time if GPM is inadequate for any reason. Performance of GPM when applied to product is the sole responsibility of the textile vendor. Global Contract's standard warranty will not apply to GPM materials.

Customer's Own Leather (COL)
Not all seating can be upholstered in leather. Please consult series notes for availability. COL price is the lowest published grade for the series (leather or fabric).

Upholstery Coverings
Slight variations in colour may occur between dye lots. Although Global Contract attempts to minimize these variances, they do occur and must be accepted as normal and will not be considered defects.

Leather is a Natural Product
Natural variations occur in the colour, grain and texture of leather. As a result, a degree of variation should be expected. As leather is used it develops a patina. Its colour changes slightly, it will get marked and it will stretch and pull, these are the hallmarks of genuine leather and are not considered defects.

Yardage
Required yardage (yd) is based on unmatched materials with widths of 54" for seating, 63" for panels.

Arms
A wide selection of arms are available for some series. See Arm Chart in the Seating list price book.

Cubic Measure
The stated cubage is an approximate cubic foot measure to calculate freight costs. The figure shown is the volume for one carton, (one unit per carton unless otherwise noted) and is subject to change without notice.

Delays
Global Contract's order acknowledgement will state a shipping date which Global Contract best estimate at the time the order is acknowledged. However, Global Contract shall not incur any obligation or liability to Purchaser for failure to ship by specified date unless Global Contract has agreed to an unequivocal, firm shipping date in a separately signed written document executed by its authorized personnel at its head office. In addition, Global Contract shall not be liable for any loss or damage resulting from any delay or failure in shipment or other failure to perform all or any part of the agreement between the parties with respect to the goods shown on the face of the order acknowledgments where such delay, failure, loss or damage is the proximate result of any act or any governmental

authority or political subdivision thereof, revolution, riot, civil disorder or disturbance, act of enemies, delay or default in transportation, strike disputes among or between labour unions or other labour disputes, delay or inability in obtaining materials and facilities, fire, flood, act of God or any cause not within the reasonable control of Global Contract, whether of the class of causes enumerated or otherwise. Without limiting the generality of the foregoing, Global Contract may, without causing breach or incurring liability, allocate goods which are in short supply, irrespective of the reasons therefore, among purchaser, in any manner which Global Contract, in its sole discretion, deems advisable.

Suspension
In the event that the Purchaser defaults in the payment of any sum due to Global Contract, or in the event the Purchaser's financial condition becomes unsatisfactory to Global Contract, Global Contract shall have the right to defer or discontinue shipment of any goods until such time as the default is cured or the Purchaser provides assurance of payment to Global Contract.

Combined Shipments
Global Contract will make every effort to combine shipments and orders on written request. However, Global Contract cannot be held responsible where such request is not complied with.

Shipments
Purchaser must select, at time of order entry, one of two methods of freight payment. Global Contract will make no end-user shipments unless special arrangements have been made.
   1) F.O.B. point of shipment, freight collect - pick up and common carrier.
   2) F.O.B. point of shipment, freight pre-paid and invoiced to purchaser.

The Purchaser will determine the method of transportation and routing of shipment. In the event that the purchaser does not specify method and routing, Global Contract will have shipments expedited in the manner deemed appropriate. Contact Customer Service Department,
Global Contract Inc., 565 Petrolia Road, North York, Ontario M3J 2X8
(416) 739-5000 with questions concerning shipping information on acknowledged orders.

F.O.B.
F.O.B. point is Global Contract's factory, Toronto, Ontario, Canada.

Back Charges
Global Contract will not accept charges for expense incurred by the Purchaser in expediting shipments. Global Contract will not accept charges for the repair of damage by others.

Code Restrictions
Global Contract items are within the limitations of local codes.

Service
Service problems are normally handled by the Global Contract`s authorized dealer, as appropriate. Where

this cannot be accomplished on a local level, service problems should be referred to Customer Service Department, Global Contract Inc., 565 Petrolia Road, North York, Ontario M3J 2X8, (416) 739-5000, csr@ globalcontract.com.

Storage
In the event Purchaser requests postponement of delivery beyond the scheduled shipping date after the goods have become work in progress, or at the time when Global Contract is then about to make shipment, Global Contract may transfer the goods to storage for Purchaser's account and at Purchaser's risk and expense. Such transfer to storage shall be deemed delivered to Purchaser for all purposes, including invoicing and payment.

Claims
All goods are sold F.O.B. plant. Global Contract is not responsible for damage which occurs in transit or in storage. The carrier signs for all goods received in apparently good order. It is the Purchaser's responsibility to examine goods upon receipt and to file any claims with the carrier for losses or damage to the product occurring during transit, including concealed damage. Any claims made against Global Contract for apparent defects, errors or shortages must be made by the purchaser in writing within 15 working days after any delivery. Failure by the Purchaser to do so shall constitute acceptance of the goods and a waiver of any apparent defects, errors or shortages.

Installation
Global Contract requires the use of a certified installer when installing Global Contracts' products and systems so as to avoid any installation misrepresentations and/or unnecessary delivery and installation claims.

"Customer assumes full responsibility for the attachment method of work surfaces which were not purchased as part of a complete table assembly. Failure to secure the work surface capable of supporting the load capacity listed may result in property damage and/or personal injury. Customer agrees to indemnify and hold harmless Global Upholstery Co. Inc., its affiliates, subsidiaries, officers, directors, employees and shareholders (collectively "Global") from and against any lawsuits or threat of lawsuits and all liabilities, direct or implied, claims, proceedings, actions, causes of action, damages, losses, costs and expenses, including, without limitation, legal fees whatsoever which Global may suffer or incur as a result of fulfilling your product order . Customer acknowledges that this product order will not be covered under Global's Lifetime Warranty."

Returns
No returns of goods will be accepted without written consent and shipping instruction of Global Contract.   A restocking charge of 35% based on list pricing is made on all authorized returns for credit or refund, provided goods are received by Global Contract in the condition in which they left the factory. This may increase depending on the type of product. No credit will be given if goods cannot be reused. Global's Return Goods Authorization (RGA) numbers must appear prominently on all authorized returns. Special order items are in no event subject to return. All returns must be approved and authorized in writing by Global Contract Customer Service. Global reserves the right to refuse delivery of any unauthorized returns.

Tolerances
All dimensions must be limited by a specified tolerance. When not specified it is understood that Global Contract's normal tolerances and standards shall apply. When purchaser has submitted his own plans and/or specifications, Global Contract will not be responsible for the design and fitting of parts. The conforming of Global Contract products to the specified tolerance is sufficient evidence as to the correctness of the product. Standards of finish, quality and appearance shall, unless specified in writing, be the normal standards of Global Contract.

Copyright
All catalogues, photographs, drawings, price lists and other printed material are protected by copyright. All rights reserved.

Trademark
Most series names are Global Contract's trademarks.

Design
Many of the products produced by Global Contract are protected by Design Registrations, Design Patents and/ or Patents. Designs and specifications are subject to change, discontinuance or additions without notice.

Offer of Sale
Possession of this price list or any other literature shall not imply Global Contract's willingness to sell the holder and shall not be construed as a direct offer of sale. If a conflict arises between: (i) prices found in software support packages furnished to the customer by Global Contract or by any other source on behalf of Global Contract; and (ii) Global-Contract's current printed price lists, then the most current shall prevail.

Testing Qualifications
Many Global products pass or exceed the most stringent industry testing standards.

This list price book is effective as of June, 2016.
 For periodic updates, please check the PDF at www.globalcontract.com. After login, select Resources then Price Lists. From here you will have the option to select any of our price lists. Global Contract warrants that all commercial products are free from defects in material and workmanship, for the life of the product, to the original Purchaser.

WARNING - SEATING PRODUCTS
TO PREVENT PRODUCT FAILURE AND POSSIBLE INJURY:

Ensure that the appropriate selection is made for the intended use of the chair including user's weight. Some chairs are not recommended for users above a certain weight. Frequently inspect the chair for visible cracks and tighten all screws, bolts and adjustable knobs. If the chair is damaged or unstable, immediately remove it from service.

Casters
The list price book specifies the caster which comes standard with each chair model. Most chairs are equipped with hard casters which are best used on carpeted surfaces. If it is intended to use the product on hard surfaces such as ceramics, concrete, linoleum or hardwood, it is recommended to use different

casters. It is the responsibility of the customer to determine the standard caster for a particular product and whether such caster is appropriate for the given application.

Any information or suggestions concerning applications, specifications or compliances with codes and standards is provided solely for your convenient reference and without any representation as to accuracy or suitability. Global disclaims any legal responsibility. The user must verify and test the suitability of any information or products for his specific application. Global reserves the right to change the Terms and Conditions in the list price book without notice.

LIFETIME WARRANTY
Global Contract warrants that all commercial products are free from defects in material and workmanship, for the life of the product, to the original Purchaser.

Global Contract will repair or replace, at Global Contract's option, as the sole remedy for any defect covered by the warranty. The warranty applies to products manufactured after June 1, 2016.

This Lifetime Warranty is NOT applicable to customers who use Global Contract products for rental purposes, product installed by non-certified installer and is effective only for products, parts or components manufactured after August 1, 1998.

General Commercial Seating
Global's warranty for general commercial seating covers all chair components including pneumatic cylinders, bases, casters, glides, frames, arms, plastic seats, backs and other structural components.

Exceptions to the warranty for general commercial seating are as follows:
- Foam, textiles (as sampled on Global Contract branded and textile program cards), mesh material and electrical devices, are warranted for five (5) years
- Control mechanisms are warranted for twelve (12) years

The warranty applies to single shift, standard commercial usage, defined as a standard eight (8) hour day, forty (40) hour week for users weighing up to 300 lbs.

Textiles
Global Contract warrants Global Contract branded textiles and Global Contract carded textile programs inclusive of fabrics, vinyls and leather products for five (5) years. Global does not warrant COM (Customer's Own Material) or GPM (Global Contract Purchased Material) that are customer specified materials, or graded-in and purchased by Global Contract for a customer. For GPM or COM products, please contact the textile supplier for performance information and warranty details. Please refer to our website at www.globalcontract.com for detailed information on cleaning and care instructions. Improper usage of disinfecting/cleaning products may void the warranty.

Seating Warranty Summary
Seating Type - General Commercial Seating
Components Warranty For Original Purchaser - lifetime
Use Time For Warranty Coverage - 8 hours/5 days per week
Exceptions
Foam/textiles/mesh/electrical devices - 5 years
control mechanisms - 10 years

Files, Desks, Modular Furniture, Tables, Panels & Accessories
Global Contract warrants all components of metal storage and filing, laminate and wood veneer surfaces, laminate and wood veneer tables, metal leg components and panels for the lifetime of the product to the original Purchaser.

Exceptions to the warranty for files/desks/tables and panels are as follows:

- Electrical devices, panel and tackboard textiles, adjustable keyboard mechanisms and task lights - five (5) years
- motorized electrical components - two (2) years
- Folding tables - one (1) year

Files, Desks, Modular Furniture, Tables, Panels & Accessories Warranty Summary

Product Type
Metal Storage & Filing - Lifetime Warranty
No exceptions.

Laminate/Wood Veneer Surfaces and Modular Furniture - Lifetime Warranty
Exceptions: tackboard textiles, electrical devices, task lights - 5 years

Boardroom, Conference and Training Tables - Lifetime Warranty
Exceptions: electrical devices - 5 years

Panels - Lifetime Warranty
Exceptions: panel textiles, electrical devices, task lights - 5 years

Folding Tables - 1 Year Warranty

FreeFit Tables
- Movable parts - 7 years

Global's warranty does not apply (for any product category) to the following:
- Nominal or normal amount of wear and tear that can occur over time
- Failures which result from negligence, abuse, accident or misuse
- Failure to apply, install or maintain products according to Global Contract's written instructions and warnings
- Modifications, attachments or repair methods not approved by Global
- Damage caused by a carrier in transit, or delivery/installation contractors
- The matching of colours, grains or textures (wood, leather, etc.) of natural materials
- Products exposed to extreme hot or cold temperatures or excessively dry or humid environments
- Colour fastness or the matching of colour of textiles, dye lots of textile can vary
- Damage by markings or staining; damage by sharp objects or imprinting from instruments
- Damage to textiles or laminate and wood surfaces/edges from exposure to sunlight (including UV rays)
- Products used for rental purposes
- Products installed by a non-certified installer
- Purchased parts are warranted for one (1) year
- Failure to follow specific cleaning and care instructions posted on www.globacontract.com

Global Contract's warranty does not cover the costs of transportation or labour. Repair or replacement will be at Global Contract's discretion.

Non-obsolescence Policy
All Global Contract products are designed and manufactured to withstand repeated service, repair and handling, and carry a lifetime warrantee. Global Contract`s goal is to ensure that products can be refurbished, disassembled or upgraded as required. In addition, standardization of many parts and components facilitate ease of maintenance, servicing, assembly, and reconfiguration or reassembly.
Global Contract will provide Purchaser with product(s) of comparable function for a term equal to the warranty period. Fabrics and finishes are updated periodically to meet the growing demand of the market. As a result, some fabrics and finishes may be discontinued before expiration of the warrantee period.

Global Contract makes no warranty that any of its products are suitable for any particular purpose and makes no other warranties, express or implied, other than those set out here. As codes and standards vary from one jurisdiction to another, references to compliance are solely for convenience and without any representation as to accuracy or suitability. Users must verify the suitability of such information or product for their specific application. In no event shall Global Contract be liable in either tort or contract for any loss or direct, special, incidental, consequential, or exemplary damages.

BOULEVARD 1 PANELS

Features:
- Desk height power and data management
- Patented "Knuckle-Loc", rigid connection, prevents light and sound transmission
- Built-in acoustical/tackable properties
- Sectional multi-accent design options
- Fabric surfaces are able to be replaced on-site
- Frame incorporates 1" centred slots for component adjustability
- Requires no additional top caps, end caps, trim caps, hinges, kick plates or clips
- Simple to specify
- Reduced installation time
- Easy to reconfigure
- High-tech look/stackable grid appearance
- Rigid, no sway, straight panel sight line
- Self levelers reduce assembly time, ensure even height
- Over panels extend to 10 feet to enclose an office in fabric and glazed options
- Patented Raceway cover easily removed
- Raceway panels top and bottom portion semi tackable

Construction:
- Rigid extruded aluminum, finished frame, self-leveling 2 5/8" thick panel
- 1 1/8" sound absorbent Mineral Wool each side of hardboard septum

Sizes:
- 8 Heights: 29", 37", 42", 50", 54", 58", 66" 74" and 82"
- 9 Widths: 6", 18" to 60" in 6" increments, 72" wide in selected panel configurations.

Adjustability:
- 3" glide stem permits 2 1/2" height adjustment
- Slotted at 1" increments
- Over panels, 8", 16", 24", 37" and 42" for enclosed offices (Non-slotted)

Acoustic Rating
.80NRC/26STC

Door:
- 2 door panel widths, glazed/unglazed, lockable, reversible
- 2 sliding door widths, non-lockable

Flexibility:
- Universal connector

Panel Finishes:
- 2 grades of fabric, air flow grill, glaze, tempered glass, laminate & COM

Electrical:
- Desk height 8 wire/4 circuit - 1 dedicated

Communication:
- Desk height data channel
- Raceway cover easily removed
- Fabric covered raceways available

SYSTEM 3 PANELS

Features:
- Base power and data lay-in
- Desk height power and data feed thru
- Top data lay-in
- Patented "Knuckle-Loc", rigid connection, prevents light and sound transmission
- Removable multi-functional tile design options
- Fabric surfaces are able to be replaced on-site
- Reduced installation time
- Easy to reconfigure
- High-tech look/stackable grid appearance
- Rigid, no sway, straight panel sight line
- Self levelers reduce assembly time, ensure even height
- Over panels extend height to enclose an office in fabric, glazed or laminate options
- Raceway cover easily removed

Construction:
- Rigid extruded aluminum

Sizes:
- 5 Heights: 34", 42", 50", 54", 66"
- 8 Widths: 18" to 60"

Adjustability:
- 3" glide stem permits 2 1/2" height adjustment
- Slotted at 1" centres
- Over panels, 8" and 16" (Non-slotted)

Door:
- 2 widths, glazed/solid, lockable, reversible
- 2 sliding door widths, non-lockable

Flexibility:
- Universal connector

Panel Finishes:
- Fabric, air flow accessory, tempered glass, laminate, whiteboard, corkboard (at base only)

ELECTRICAL FOR BOULEVARD 1 PANELS

Features:
- Customized power capabilities in each panel
- State-of-the-art snap-in electrical
- 8 wire with 3 regular 15 AMP circuits and 1 isolated 15 AMP circuit.
- 3N and 8K electrical available upon request.
- Snap-in installation - harnesses, junction boxes, duplexes
- Accessibility makes changing circuits easy
- Flexibility in choice of duplexes within panel: choice of circuits for each duplex; choice of quantity of duplexes (1 or 2 duplexes per panel)

- Electrical cords are concealed
- Separate large channel for data
- Change electrical without moving pedestals
- Lower installation/reconfiguration costs
- Data terminals snap into cable holder
- Floor or ceiling feed
- Duplexes accessible from both sides

ELECTRICAL FOR SYSTEM 3 PANELS

Features:
- Customized power capabilities in each panel
- State-of-the-art snap-in duplex receptacles
- 8 wire with 3 regular 15 AMP circuits and 1 isolated 15 AMP circuit
- Snap-in installation - harnesses, junction boxes, duplexes

- Accessibility makes changing circuits easy
- Flexibility in choice of duplexes within panel
- Data terminals snap into base raceway cover and mid panel electrical tile
- Floor or ceiling feed
- Duplexes accessible from both sides

WORKSURFACES / HARDWARE

- **Features:**
- One universal cantilever support
- Pedestal eliminates need for end panel/cantilever
- Grommets are not needed
- Continuous cable accessibility across back
- Adjustable to any height, in 1" increments.
- Flush abutment side edge minimize seam crevice
- Metal-to-metal connections (Metal Inserts)
- Additional cable manager under worksurface
- **Construction:**
- Medium-density particle board 1 1/16" thick

- **Sizes:**
- 3 Depths: 18", 24" and 30"
- 12 Widths: 18" to 84" in 6" increments

Finishes:
- Tops: High Pressure Laminate, Low Pressure Laminate or Wood
- Edges: Edge banded PVC or Wood

Types:
- Transaction, keyboard, rectangular worksurface, corner, curved, D-top, P-top, Arc-top and freestanding

OVERHEAD STORAGE

Features:
- Completely enclosed unit for 16" overheads
- Shipped fully assembled or KD
- 13.5" inside height for oversized binders
- Metal-to-metal connection
- Lock secures into bottom shelf
- Doors operate smoothly
- Flipper door retrofittable on site
- Safety bracket used for extra support
- Reinforcement built in for larger unit
- Can be removed and reconfigured without disassembly

Fronts:
- Open or closed fronts

Sizes:
- Overheads - 6 widths in 6" increments
- Shelves - 7 widths in 6" increments
- 16" deep welded overhead for EDP, ring binder, letter/legal
- 12" deep KD overhead
- 15" deep KD overhead with "Soft-to-the-touch" handles

Paint:
- Dry epoxy powder coating

PEDESTALS

Features:
- Double wall construction on all drawer fronts
- Fully progressive suspension system
- Full-width pull, "Hytrel® or "Soft-to-the-touch" handles on drawer fronts
- Worksurface supporting option
- Full extension roller bearing glides on all file drawers
- Rubber bumpers for quietness
- Movable drawer divider/pencil tray
- 25" filing capacity for file drawers (only in 30" pedestal)
- Durable epoxy finish
- Keyed alike options
- Box/Box/File standard with pencil tray

Construction:
- Double wall drawer fronts
- 18-20 gauge steel

Sizes:
- 18", 24", 30" depth

Types:
- Worksurface Supporting, Mobile, Freestanding

Paint:
- Dry epoxy powder coating

HOW BOULEVARD 1 CAN REDUCE YOUR COSTS

Finished Panel:
- No inventory costs for connectors, trim caps, top caps, kick plates and clips.
- Less time required to install, or to disassemble, move and re-install.

Fewer Parts:
- Only 1 universal cantilever and 3 brackets are needed to build most workstations.
- Easy to attach and remove components from panels.
- Universal post for 2-way, 3-way and 4-way applications.

· Desk Height Electric:
- Ease of initial electrical installation lowers energy management costs.
- Snap-in electrical components reduce reconfiguration costs.
- Can customize power in each panel, pay only for what is required.

Simplified Specifications:
- Fewer parts and components make specifying, ordering, and verifying less work.
- Product fits a 6" planning module.

Replaceable Panels:
- Panels can be re-upholstered on site.

Communications/Data Channel:
- Desk height data channel reduces time to install and change cables.

Floor to Ceiling Enclosed Office:
- Re-usable enclosed offices with doors eliminate future costs for drywall demolition, new construction, mess and extensive cash flow.
- Depreciation expense indirectly increases cash flow.

Warranty:
- Limited Lifetime Warranty on materials and workmanship.

Product:
- Priced less than most other "A" Grade panel systems.

HOW BOULEVARD SYSTEM 3 REDUCES YOUR COSTS

Finished Panel:
- No inventory costs for connectors, top caps, kick plates and clips.
- Less time required to install, or to disassemble, move and re-install.

Fewer Parts:
- Only 1 universal cantilever and 3 brackets are needed to build most workstations.
- Easy to attach and remove components from panels.
- Universal post for 2-way, 3-way and 4-way applications.

Base Panel Electric System:
- Ease of initial electrical installation lowers energy management costs.
- Snap-in electrical components reduce reconfigurations costs.
- Can customize power in each panel, pay only for what is required.

Simplified Specifications:
- Fewer parts and components make specifying, ordering, and verifying less work.
- Product fits a 6" planning module.

Replaceable Panel Tiles:
- Over Panels and face tiles can be added and interchanged as needs change.

Communications/Data Channel:
- Base and top lay-in communications channel reduces time to install and change cables.

Warranty:
- Limited Lifetime Warranty on materials and workmanship.

Product:
- Priced less than most other "A" Grade panel systems.

Value-Added Benefits

On the following pages, we selected a grouping of Boulevard 1, System 3 configurations, some with electrical components and task lights, to give you a better understanding of our product's specifications as they relate to workstations. Our objective is to not only illustrate applications using panels and components, but also to have this serve as a pricing excercise.

All of the value-added benefits of the Boulevard 1 are standard as follows:
- Desk height power and data capabilities.
- Finished panel including top, corner and end caps.
- Sectional panel with multiple fabric options.
- Ease of installation and reconfigurations.
- Removable fabric for on-site refurbishing.
- Exceptional storage capacity in pedestals, overheads, lateral files, storage cabinets and towers.
- Simplified specifications.

All of the value-added benefits of the Boulevard System 3 are standard as follows:
- Base power and data capabilities.
- Finished panel including top and corner.
- Monolithic or Pass-Thru panels with multiple fabric options.

- Ease of installation and reconfiguration.
- Removable fabric tiles in Pass-Thru Panels for on-site refurbishing.
- Exceptional storage capacity in pedestals, overheads, lateral files, storage cabinets and towers.
- Simplified specifications.

All of the value-added benefits of the Diet System are standard as follows:
- Finished panel including top, corner and end caps.
- Sectional panels with multiple fabric options.
- Ease of installation and reconfigurations.
- Removable fabric for on-site refurbishing.
- Exceptional storage capacity in pedestals, overheads, lateral files, storage cabinets and towers.
- Simplified specifications.

When specifying Boulevard 1, Boulevard System 3 or Diet, you benefit from the ability to:
- Customize the energy management.
- Minimize the number of necessary parts.
- Offer a competitive list price.

NOTE: If Key Alike Instructions are not submitted to GLOBAL CONTRACT with the Customer's Purchase Order, all components will be keyed randomly.
WOOD GRAIN (WG) LAMINATE DIRECTION
* Panel general direction will default to vertical if monolithic panel is 54" high and if raceway panels are on same order.
All Panels
With Exception of 66" or higher panels, the grain is vertical.

Boulevard 1 Panel System

The Boulevard philosophy is based on simplicity. A product that is simple to install... simple to reconfigure... and simple to specify, without sacrificing delivery time or quality.

Technically superb and exceptionally precise aluminum extrusion and die-cast fitments achieve exact levels of consistency, panel after panel; everything fits, aligns, and assembles, first time, every time. Most of all it requires very few of the "small parts" associated with most systems. This cross-market integration is celebrated in Boulevard.

Truly a system of broad application, whether installed in a high-tech environment, factory application or executive office, Boulevard will perform! We invite you to share with us a product designed, built and marketed for a global economy.

Our Mission

Our mission is to continue to develop and offer innovative, quality office furniture to value-oriented customers, through a dealer network that provides consistent, high quality service. Our approach in the contract furniture industry is to focus on customer concerns and needs to develop products that minimize your costs of ownership. It represents the culmination of creativity, industry expertise, specialists, and integrity to help you achieve cost-effective solutions to problems. Our vision is to create a company-wide environment that supports constant improvement and promotes customer satisfaction. We believe that as good as we are today, we must be better tomorrow. Thus, our desire to improve is both continuous and tireless.

Environmental Commitment

At Global Contract, protecting the next generations' environment is of paramount concern. Global Contract believes that it is our responsibility to help protect the environment for future generations. We continue to operate with the environment in mind, making wise business decisions that help protect the earth and its precious natural resources. Our manufacturing procedure incorporates the latest technology for painting products, using a dry epoxy powder or gel paint. This process produces no toxic residue, and therefore is environmentally safe, while other manufacturers still use the wet paint process. Our packaging, veneer selections, and reduction in waste programs all contribute to a better environment. In addition, our concern for the reduction of finishing emissions and wood dust has resulted in a healthier work environment in many ways, including this price book, printed on recycled paper.

Technical Information

Panels

- All panels are 2 5/8" thick.
- Lightweight aluminum box frame construction creates superior panel rigidity.
- Panel frame finish is durable epoxy powder coated.
- Hang-on capabilities at 1" increments.
- Patented "Knuckle-Loc" design provides solid panel-to-panel connection for fast installation and reconfiguration.
- Knuckle lock feature ensures even panel heights throughout installation.
- 3" glide stem permits 2 1/2" height adjustment.
- Panel sizes are actual, eliminating creepage.
- Panels come complete, eliminating need for separate top, corner end trim and clips.
- Fabric is replaceable on site.
- All panels include 2 "Capture Strip" panel connectors.
- Fabric retainer is clear.
- Panels are UL listed and CSA approved and have a Class "A" fire rating except when Customer's Own Material (COM) is used.
- Glazing available in acrylic or tempered glass for straight panels, and acrylic only for curved panels.
- Centre septum above raceway overlaid on either side with tackable, 1 1/8" "Sound Absorbent Mineral Board".
- For glazing - Smoke developed index 500.
- For tempered glass, add "TG" to the end of the product code and add 20% to the price regardless of fabric grade.
- Tempered glass is not available for curved panels.
- Solid metal sheet is an OPT option and price accordingly, however, the sheets are 48" wide and cannot be specified on 48" and wider unless they are railroaded. Contact your Customer Service Representative for more information.

Panel Options

- Laminate, whiteboard, or corkboard may be substituted for fabric on panels only, not raceways, see "OPT" column.
- Laminate and whiteboard are held in place with a PVC retainer matching the frame colour and can be retrofitted on site.
- Laminate and whiteboard options reduce the acoustical value of the panel.

Raceway Options

- • Raceways are standard in PVC matching the panel frame finish.
- Fabric Covered Raceway (FRC) available. Aluminum raceway available.
- Wood veneer raceway available.
- Face mount electrical raceway available.
- Face mount openings are 1.5x2.85 for electrical and 1.37x2.755 for data.
- Cable capacity in raceways is 83 - 0.220" dia. cables (cat.6).

Desk Height Management

- Desk height electrical and communication raceway system.
- State-of-the-art engineering.
- Snap-in modularity of all electrical components including harnesses, junction boxes, duplexes and circuit designations.
- All power and data outlets are easily accessible from both sides of panel.
- 8 wire system with 4, 15 amp circuits (including 1 dedicated circuit).
- Optional facemount electrical with 2 duplexes per panel side.
- Outlet and circuit changes accomplished without disruption to workstation.
- Large raceway cavity permits storage of excess cables and equipment cords.
- Total flexibility for 8 wire system: choice of 1, 2 or 4 duplexes per panel; choice of circuitry in each duplex .
- Unique design of fire retardant PVC raceway cover permits access to raceway without disruption to equipment on worksurfaces.
- Clip-on communication management channel (BECC01 and BPH001) included with each raceway panel.
- Communication management channel accepts modular Data/Comm terminals (not supplied by Global Contract Inc.).

Posts

- Enables connection for multiple panel runs such as 90º, 45º or 60º angles and 2 way, 3 way or 4 way.
- Provides route for base, ceiling, and worksurface cable entry to a panel.
- Self levelling feature maintains even height of all connected panels.
- Solid lightweight aluminum extrusion fits together through a unique "Knuckle-Loc" design providing rigid post-to-panel connection.
- Includes all required panel connectors and caps.
- Posts add 2 5/8" to a panel run.
- Posts are 1/8" oversized to allow for "panel wrap around" of freestanding desks.
- For all panel runs with multiple posts, this 1/8" must be allotted for.

PANELS - GUIDELINES FOR ORDERING PRODUCT

Codes

The product guide uses a numbering system with meaningful alphanumeric char-
acters to create a simple-to-understand product number. This makes specifying the
product much easier and more accurate.

Example of Panel: **BPRA6636 CHR CHR**
BP RA 6636 CHR CHR   AN50

| Boulevard 1 Panel | Raceway Acoustic Panel | Sizes in Inches H x W | Panel Frame Colour | Raceway Colour |

AN50   Inside Lower Fabric

AN50   Inside Upper Fabric

BE21   Outside Lower Fabric

BE21   Outside Upper Fabric

How to Specify

Specify Boulevard 1 panel type and size by code.
Specify panel frame finish - ie. CHR (Charcoal).
Specify PVC raceway finish - ie. CHR (Charcoal). If PVC raceway colour not speci-
fied at time of order, default will be the panel frame colour.
Specify all four panel fabric options if necessary.
Some fabrics have directional pattern and cannot be applied horizontally or verti-
cally. Panels wider then 60" will have fabrics applied horizontally (railroad). Please
specify if you want adjacent panels and the rest of the installation upholstered the
same way.

Example of Post: **BHP066 CHR**

BHP 066 CHR

| Boulevard 1 Post | Post Height | Frame Colour |
How to Specify

Specify Boulevard 1 post by code.
Specify frame colour - ie. CHR (Charcoal).

Raceways
PVC:
Standard, at time of order, includes 2 covers.
Standard, when ordering individuals: RCSxxCOL.
Curved, when ordering individuals: 10065IRS24COL for inside and 10065ORS24COL
for outside.
Facemount raceways: RCWxxD.
Curved Facemount raceways are not available.
Fabric:
Standard, at time of order: RCWxxFAB, $33 per side, sold as pair, panel mounted.
Standard, when ordering individuals: 1006FRCxx, shipped separately.
Curved raceways: RCR24IFAB for inside and RCR24OFAB for outside.
Facemount raceways: FCRxxD.
Curved Facemount raceways are not available.
Aluminum:
Standard, when ordering individuals: BARCxx,
Facemount raceways: RCAxxD.
Curved raceways not available in aluminum.
Curved Facemount raceways are not available.
Wood:
Standard, when ordering individuals: BTRCxx.
Curved Facemount raceways are not available.
COL = Finish colour, xx = Size
Curved wood raceways and top trim not available.

ORDERS

Each Order Must Include

Purchase Order

- Layout showing where the image(s) appear in the run of panels.
- A completed Price Chart, showing the location of the image(s) on each appropriate panel.

- Artwork must be submitted in accordance with the following artwork specifications.

NOTE: Final artwork specification approval must be given before order can be processed.

Transfer Devices

- E-mail up to 10MB to your Global Contract Customer Service Representative.
- Courier CD/DVD/USB stick to your Global Contract Customer Service Representative.

Artwork Specifications

Non-Photographic artwork should be vector art, saved in Adobe Illustrator (.ai) or as an EPS (.eps)

All bitmap or photographic artwork has to be at a minimum of 100 dpi at the full size of the panel to be printed.

We accept Adobe CS5 files.

Any linked files must be included or imbedded.

Leave any PSD files unflattened

All fonts must be converted to outlines.

Do not convert to CMYK, leave all images as RGB if possible

No Word, Powerpoint, Publisher or other Microsoft files can be used.

Include a PDF or .jpg for reference when sending native Photoshop or Illustrator format files.

Colour Matching

A Pantone colour reference must be supplied or we cannot accept responsibility for correct colour.

When it is not possible to refer to Pantone colours, we will do our best to meet your requirements.

Image Clarity

We will advise should the selected image not lend itself to the element size requested.

NOTE:

We reserve the right to put an order on hold when the files are found to be incomplete or when documents have been either incorrectly saved. Fonts not converted

to curves or the job appears not to be commercially acceptable.

Image Bleed:

To facilitate placement on the panel. Extension of the image past the finished visible area of the panel (bleed) is required

- Boulevard Panels need a 5" Bleed on all sides.

Example Of Image resolution:

The resolution required for a 36 wide x 24 high Boulevard panel at 100 dpi (minimum resolution)

The resolution required for a 36 wide x 24 high Boulevard panel at 300 dpi (higher quality)

4600 pixels (includes 5" bleed)

13800 pixels (includes 5" bleed)

36" Wide panel

24" High panel

3400 pixels (includes 5" bleed)

36" Wide panel

24" High panel

10200 pixels (includes 5" bleed)

5" bleed all around image

5" bleed all around image

Pricing, Initial Set-Up Charge per Order:$235 net

BPRF • Air Flow Panel ...Cont
37" High

72" Wide

- Double wall of perforated metal below the raceway allows air to flow freely through the bottom of the panel.
- Centre septum above raceway overlaid on either side with tackable, 1 1/8" "Sound absorbent mineral board".
- For air flow option above the raceway, add 20% to the Grade 1 price and tag each item with "air flow above raceway". For example: BPRF4218 TAG:*air flow above raceway.
- OPT* = Laminate or Whiteboard.

BPRAE • Raceway Panel Electrical
- A 6" raceway panel allows power and communication/data entry along a straight run of panels where a standard post entry cannot be utilized.
- Sections above and below the raceway are upholstered in fabric.
- Inner lower raceway area allows for single or double power feed entry and provides 1.3" x 2.9" opening for communication/data cables.
- All 6" panels must be used in conjunction with a second panel to form a standard panel width. For example: BPRAE6606 + BPRA6618 is equivalent to BPRA6624.
- 6" panels are not to be used as a stability panel in a panel run.

BPOF • Fabric Over Panel
- Attaches to top of a panel to create floor-to-ceiling wall.
- Centre septum overlaid on either side with 1 1/8" Mineral board.
- Non-slotted.
- Factory installed PVC strip attaches and aligns over panel to top of base panel.
- PVC strip runs entire width eliminating light seepage.
- For custom heights and widths, please order size required and price as next size up. Example: 26" high, 35" wide, order BPOF2635 at $359 Grade 1.
- Custom heights over 42" must be quoted separately.
- Overpanels can be stacked on any panel. Example: BPOF2418 stacked on BPRA4218 to give an overall height of 66".
- When stacking on 29" or 37" high B1 panels, custom height required, please contact customer service.
- Exact height should be specified when ordering, with allowance of at least 1" of free space between over panel and ceiling to accommodate height variations in ceiling and floor. Runs of over panels should be captured at either end with full height posts, wall adapters, taller panels, and/or vertical trims.
- Minimum height of 6".
- OPT* = Laminate or Whiteboard.

BPOGR4224	1301	42	24 RA	24 RA	23	12.000

- For custom heights, please order size required and price as next size up. Example: 26" high, order BPOGR2624 at $1289.
- Custom heights over 42" must be quoted separately.
- Over panels can be stacked on any panel, excluding 37" high panels. Example: BPOGR2424 stacked on BPRAR4224 to give an overall height of 66".
- Exact height should be specified when ordering, with allowance of at least 1" of free space between over panel and ceiling to accommodate height variations in ceiling and floor. Runs of over panels should be captured at either end with full height posts, wall adapters, taller panels, and/or vertical trims.
- Minimum height of 6".
- Tempered glass is not available on curved panels.

BAPAS • Glass Over Panel with Round Pucks for Boulevard 1

- Glass Over Panel creates division.
- Glass Over Panel with no frame sits on top of a Boulevard 1 Panel with clamps that are secured to the top of the panel.
- Tempered glass is 16" high.
- Custom sizes available, contact your Customer Service Representative.
- For application where the over panel is sandwiched between two taller panels, please request a special as the glass will not fit due to trims.

BPDSL • Privacy Screen

- Provides territorial privacy in an open plan environment.
- Lightweight, panel mounted sliding partition.
- Consists of translucent textured polycarbonate.
- Must be mounted to a straight panel of the same size.
- The face of the Privacy Screen sits 3" away from the face of the panel to which it is attached.
- Cable lay-in modules, wood trim and non-load bearing panels may be applied to the top of a panel to which the screen is attached, but not the screen itself.
- When open, the screen may interfere with access doors that open on the outside of an adjacent panel.
- Must specify left or right for the direction in which the door will slide once installed.
- Caps located on the end of the frame default to the panel frame colour.
- All hardware included.
- Can be mounted on Boulevard 1 or Boulevard System 3 panels of the same width as the Privacy Screen.

Note: Specify left or right for the direction in which the door will slide as per examples above.

BHWASL • Adapter Sleeve

- Wall Adapter Sleeve is attached to the building to provide flexible support to a panel run.
- As opposed to the BHWA wall adapter, which connects to the panels securely to a wall, B1 and B3 Boulevard panels rest inside the vertical "U" channel, providing up to 3.5" of flexible adjustment.
- For panel runs taller then 66" order two Wall Adapter Sleeve and either have them cut short on site below the ceiling, or cut a rectangular hole in the ceiling tile. Rectangular slots in the Channels correspond to 66", 58", 50" and 42" high B1 and B3 panels.
- Powder coated steel; specify metal finish.
- Note: the Wall Adapter Sleeve provides flexible, connection, blocks vertical 1" increment clots and cannot, therefore, be used to support overheads and worksurfaces, they must be supported by perpendicular panels, c-legs or gables.
- Note: No fasteners are provided with the Wall Adapter Sleeve. Select the appropriate fasteners according to a structurally wall type.
- Cannot be used to support a door or panel.

FCR-DCH • Chicago Fabric Covered Facemount Raceway Cover - Double Cutout
- Fabric raceway cover is punched out to align with the Face Mount Power Distribution Housing and Duplexes.
- Raveway has a single punch out
- Data punchout accepts industry standard terminal faceplates (not supplied by Global Contract Inc.) Size of opening is 1.37" x 2.755".
- Electrical cutouts have black PVC trim. Size of opening is 1.5" x 2.85".
- May not be used with Boulevard System 3 Panels.
- Cover hinges upward for easy access to power and data/communication terminals.

BHV • Component Wall Adapter - Single and Double
- Used to attach system components to fixed wall.
- Panel frame finish.
- The vertical wall adapter is a "U" shaped channel with a vertical row of slots with 1" centers.
- The double Component Wall Adapter has a double row of slots with 1" centers.
- Comes in 60" length only.
- Care should be taken to mount adapters only to wall studs using correct fasteners.
- Does not include mounting hardware. Mounting hardware selection to be based on wall material.
- Sold in pairs.
- Failure to do this may result in collapse of the unit and subsequent possible personal injury.

Boulevard System 3 Panel System

Boulevard System 3... The next generation of BOULEVARD offers the freedom to plan the office environment 'your way', while keeping an eye on the bottom line. Boulevard System 3 boasts a rich toolbox featuring stack-on panels, complete data/communication lay-in at the top, comprehensive power and data/communication at both the base and at desk height, a selection of interchangeable tiles, monolithic panels, up-mounted storage, new ergonomic worksurface shapes & a revised colour pallet featuring recycled fabrics.... all wrapped up in a sophisticated design statement. Enjoy planning it your way and having the tools to really do it. Boulevard System 3 offers the building blocks to create the framework that perfectly suits your office environment. Combinations of fabric, glazed, open and slat wall panel surface tiles effectively support the creation of various work settings, whether open (to encourage interaction and teamwork) or traditional, with enclosed functional task organizers. Boulevard System 3 lets you plan more effectively and with more versatility than ever before. It is simple to comprehend, specify, install,

maintain and reconfigure. Offering multifunctional furnishing solutions, Boulevard System 3 can be specified on its own or used as a power/data and privacy provider, bridging freestanding/mobile furniture and panels and task related options such as worksurface shapes that help you work better. By utilizing up-mount storage, lower panel heights can be maintained without sacrificing overhead storage where and when needed. Another value-oriented tool... Consider 'Spine' planning to create a power wall that feeds data/communication to a string of perpendicular offices. Incorporate monolithic panels which offer the best cost/performance advantages for value sensitive environments with base panel raceway power/data cable distribution, while adding visual interest...and of course, reconfiguration is a breeze. Now you can have an endless visual pallet and array of practical solutions for today's ever changing and demanding workplace. When you add it all up, Boulevard System 3 gives you more value than ever before.

Technical Information

Panels

All panels are 2 5/8" thick.
Lightweight aluminum box frame construction creates superior panel rigidity.
Panel frame finish is durable epoxy powder coated.
Hang-on capabilities at 1" increments.
Patented "Knuckle-Loc" design provides solid panel-to-panel connection for fast installation and reconfiguration.
Knuckle lock feature ensures even panel heights throughout installation.
3" glide stem permits 2 1/2" height adjustment.
Panel sizes are actual, eliminating creepage.
Vertical end trims must be specified to give the panel a finished appearance.
Horizontal top trims are included with all panels.
All panels include 2 "Capture Strip" panel connectors.
Panels are UL listed and CSA approved and have a Class "A" fire rating except when Customer's Own Material (COM) is used.
All panels accept Over Panels (see page D.7).

Panel Options

Laminate, whiteboard, or corkboard may be substituted for fabric on panels only, see "OPT" column.
Laminate and whiteboard are held in place with a PVC retainer matching the frame colour and can be retrofitted on site.
Laminate and whiteboard options reduce the acoustical value of the panel.

Monolithic Panels

• Fabric on Monolithic Panels can be re-upholstered on site.

Pass Thru Panels

• Fabric at base of Pass-Thru Panels can be re-upholstered on site.
• Tiles cannot be re-upholstered on site.

Bottom Lay-in Raceway

Bottom raceway snaps to the bottom of the panel and can be completely removed for unobstructed cable lay-in installation.
Bottom lay-in raceway is 60 mm (2.380") wide x 141 mm (5.560") high.
Maximum capacity: 70 cables 5 mm (0.200) diameter, 2 parallel 8 wire, 4 circuit power distribution.
State-of-the-art engineering.
Snap-in modularity of all electrical components including harnesses, distribution housings, duplexes and circuit designations.
All power and data outlets are easily accessible from both sides of panel.
8 wire system with 4, 15 amp circuits (including 1 dedicated circuit).
Facemount electrical with 2 duplex per panel side.
Included is 1 data/communication terminal bracket per side.

Raceway cover openings of 2.71" x 1.38" can accommodate a single modular Data/Comm terminal plate per side (not supplied by Global Contract Inc).
Opening complies with the ANSI/TIA/EIA standard furniture openings.
Outlet and circuit changes accomplished without disruption to work station.
Large raceway cavity permits storage of excess cables and equipment cords.
Total flexibility for 8 wire system: choice of up to 4 duplexes per panel; choice of circuitry in each duplex .
Unique design of fire retardant metal raceway cover permits access to raceway without disruption to equipment.

Horizontal Lay-in Channel (Excluding all panels with Embedded Glass)

Integrated horizontal lay-in channel 33.5 m (1.320") wide and 38 mm (1.500") high at the top of panels and on top of the door frame.
Maximum capacity: 36 cables 5 mm (0.200") in diameter.
Maximum cable bending radius between two perpendicular panels: 141.2 mm (5.560") [5 mm (0.200") in diameter cables].

Vertical Wire Channel

Where applicable, the vertical wire channel connects horizontal channel above desk height with floor level raceway.
Opening in horizontal channel allows for vertical cable passage from top lay-in channel to base raceway.
Integrated vertical channel 76 mm (2.990") x 27 mm (1.060").
Maximum capacity: 60 cables 5 mm (0.200") in diameter.
Maximum cable bending radius: 141.2 mm (5.560").

Posts

Enables connection for multiple panel runs such as 90º, 45º or 60º angle and 2 way, 3 way or 4 way.
Starts at the top of the bottom lay-in raceway.
90 degree post provides route for ceiling power and data entry to a panel raceway.
Knuckle lock feature maintains even height of all connected panels.
Solid lightweight aluminum extrusion fits together through a unique "Knuckle-Loc" design providing rigid post-to-panel connection.
Post has punch-outs at the top to allow for unobstructed horizontal cable passage between adjacent panels.
Includes all required panel connectors and caps.
Posts add 2 5/8" to a panel run.
Posts are 1/8" oversized to allow for "panel wrap around" of freestanding desks.
For all panel runs with multiple posts, this 1/8" must be allotted for.
Maximum capacity:
       • 80 cables 5mm(0.200") diameter
       • 65 cables 5mm(0.200") diameter with 1 power feed
       • 50 cables 5mm (0.200") diameter with 2 power feeds

PANELS - GUIDELINES FOR ORDERING PRODUCT

Codes

The product guide uses a numbering system with meaningful alphanumeric characters to create a simple-to-understand product number. This makes specifying the product much easier and more accurate.

Example of Panel: **BPX3MA6636 CHR CHR**

BPX3	MA	6636	CHR	CHR	P1	AN50	Inside Fabric
						BE21	Outside Fabric
Boulevard System 3 Panel	Monolithic Panel	Sizes in Inches H x W	Panel Frame Colour	Raceway Colour	Punchouts Inside / Outside		

How to Specify

Specify Boulevard System 3 panel type and size by code.

Specify panel frame finish - ie. CHR (Charcoal).

Specify PVC raceway finish - ie. CHR (Charcoal). If raceway colour not specified at time of order, default will be the panel frame colour.

Specify all two panel fabric options if necessary.

Some fabrics have directional pattern and cannot be applied horizontally or vertically. Panels wider then 60" will have fabrics applied horizontally (railroad). Please specify if you want adjacent panels and the rest of the installation upholstered the same way.

Specify whether punchouts are required inside and outside of raceway or if no knockouts are required.

        • P2 - Punchouts on both sides.

        • P1 - Punchouts on one side.

        • NP - No punchouts.

For special width panels, a special must be processed and additional costs apply. Please contact your customer service representative.

Example of Post: **BH3PS066 CHR**

BH3PS	066	CHR
Boulevard System 3 Panel	Post Height	Frame Colour
How to Specify

Specify Boulevard System 3 post by code.

Specify frame colour - ie. CHR (Charcoal).

ORDERS

Each Order Must Include
Purchase Order
Layout showing where the image(s) appear in the run of panels.
A completed Price Chart, showing the location of the image(s) on each appropriate panel.

Artwork must be submitted in accordance with the following artwork specifications.

NOTE: Final artwork specification approval must be given before order can be processed.

Transfer Devices

• E-mail up to 10MB to your Global Contract Customer Service Representative.
• Courier CD/DVD/USB stick to your Global Contract Customer Service Representative.

Artwork Specifications

• Non-Photographic artwork should be vector art, saved in Adobe Illustrator (.ai) or as an EPS (.eps)
• All bitmap or photographic artwork has to be at a minimum of 100 dpi at the full size of the panel to be printed.
• We accept Adobe CS5 files.
• Any linked files must be included or imbedded.

• Leave any PSD files unflattened
• All fonts must be converted to outlines.
• Do not convert to CMYK, leave all images as RGB if possible
• No Word, Powerpoint, Publisher or other Microsoft files can be used.
• Include a PDF or .jpg for reference when sending native Photoshop or Illustrator format files.

Colour Matching

A Pantone colour reference must be supplied or we cannot accept responsibility for correct colour.

When it is not possible to refer to Pantone colours, we will do our best to meet your requirements.

Image Clarity

We will advise should the selected image not lend itself to the element size requested.

NOTE:

We reserve the right to put an order on hold when the files are found to be incomplete or when documents have been either incorrectly saved. Fonts not converted

to curves or the job appears not to be commercially acceptable.
Image Bleed:

To facilitate placement on the panel. Extension of the image past the finished visible area of the panel (bleed) is required

• Boulevard Panels need a 5" Bleed on all sides.

Example Of Image resolution:

The resolution required for a 36 wide x 24 high Boulevard panel at 100dpi (minimum resolution)

The resolution required for a 36 wide x 24 high Boulevard panel at 300dpi (higher quality)

4600 pixels (includes 5" bleed)

36" Wide panel
24" High panel
3400 pixels (includes 5" bleed)

5" bleed all around image

13800 pixels (includes 5" bleed)

36" Wide panel
24" High panel
10200 pixels (includes 5" bleed)

5" bleed all around image

Pricing, Initial Set-Up Charge per Image:$235 net

BPX3OP • Over Panel Frame
- Attaches to the top of any Boulevard System 3 panel to create a floor-to-ceiling wall.
- Any tile can be attached to either side to enclose the frame.
- Two non-slotted uprights at either end slide into vertical extrusions on the base panel.
- Shipped without horizontal and vertical trim; the horizontal trim from the base panel will be used.
- Openings in horizontal channels allow for vertical cable passage from top lay-in channe and behind the cover tiles
- Boulevard System 3 Over Panel is not compatible with Boulevard 1 panels.

BH3PS • 90 Degree Post

- Enables connection for multiple panel runs such as 90º, 3 way and 4 way.
- Includes 2 "Capture Strip" panel connectors, 4 end strips, 2 pairs of raceway end caps, and 1 post cap.
- Posts are designed to accept the following:
- 75 cables 5.6mm (0.220") diameter
- 60 ccables 5.6mm (0.220") diameter with 1 power feed
- 45 cables 5.6mm (0.220") diameter with 2 power feeds

BH3PA • Off-Module Connector (Panel to Panel Adapter)
- Connects Boulevard System 3 panel to another perpendicular Boulevard System 3 Monolithic Panel off-module.
- Top and bottom brackets bolt to panel vertical of one panel and engage to top and bottom "fabric" edges of adjacent, perpendicular Monolithic Panel of even height.
- While connecting tile panel to Monolithic Panel is possible, never attempt to secure Off-Module Connectors to a tile panel.
- Once an off-module panel is secure to Monolithic Panel spine with Off-Module Connecting Kit, the raceway on the spine panel cannot be accessed and can only be opened from the opposite side.
- Special top trim required, provide application to your Customer Service Representative.
- This connector is not a load-bearing connection.
- Not to be used on the panel seam, with over panels or laminate and metal faced panels.

RCX3WMP2 • Raceway Cover with Punchouts Both Sides

- Metal raceway organizes cables at the base.
- Snaps directly into the base of the panel.
- When opened, cover's side rests on the floor, providing unobstructed access to data/power installation.
- 18" Raceway Covers do not have power and data/communication punch-outs.
- 24" Raceway covers have electrical and one data opening.
- Data opening sizing is as follows: 1.38" x 2.71".
- Comes standard with all System 3 panels.
- "No Knockouts" option for raceways available at no additional charge. Please choose option for interior and/or exterior raceways.

BHWASL • Adapter Sleeve

- Wall Adapter Sleeve is attached to the building to provide flexible support to a panel run.
- As opposed to the BHWA wall adapter, which connects to the panels rigidly to a wall, B1 and B3 Boulevard panels rest inside of the vertical "U" channel, providing up to 3.5" of flexible adjustment.
- For panel runs taller then 66" order two Wall Adapter Sleeves and either have it cut short on the site below ceiling, or cut a rectangular hole in the ceiling tile. Rectangular slots in the Channels correspond to 66", 58", 54", 50" and 42" high B1 and B3 panels.
- Powder coated steel; specify metal finish.
- Note: the Wall Adapter Sleeve provides flexible, non-structual connection, blocks vertical 1" increment clots and cannot, therefore, be used to support overheads and worksurfaces, they must be supported by perpendicular panels, c-legs or gables.
- Note: no fasteners are provided with the Wall Adapter Sleeve. Select the appropriate fasteners according to a structurally sound connection.

B3LXPR-NC • Right Gallery Panel Extension, No Connectors for Additional Gallery Panels
- **Provides floor standing support while enclosing the end of a Gallery Panel right run.**
- Attached to the right edge of a Gallery Panel by the pin connectors to finish the run.
- Pin connectors are on the left edge of the interior face.
- Compatible with gallery panels (B3LEPxxxx, B3LSEPRxxxx, B3LMPxxxx and B3LXPRxxxx) only.
- Includes all attachment hardware and glides.
- Total height is inclusive of panel glides extended to their full height.
- Please specify LP laminate finish and PVC edge finish.
- If a wood grain laminate is chosen, grain direction run horizontally.
- Edged in PVC on two exposed edges, self edged on connecting to gallery panel edge and the bottom.

B3L2PR • Right Gallery Panel End of Run Return
- **Provides floor standing support while enclosing the end of a Gallery Panel run.**
- Attaches at the Gallery Panel right edge with connectors to form an L configuration.
- Connections to Gallery Panel are on the interior face near it's left end .
- Compatible with Gallery Panels (B3LEPxxxx, B3LSEPRxxxx, B3LMPxxxx and B3LXPRxxxx) only.
- Includes all attachment hardware and glides.
- Total height is inclusive of panel glides extended to their full height.
- 25" wide gallery panel accomodates a 24" deep surface while the 31" wide accomodates a 30" deep surface and 37" wide a 36" deep surface.
- Please specify LP laminate finish and PVC edge finish.
- If a wood grain laminate is chosen, grain direction run horizontally.
- Edged in PVC on three exposed edges and self edged on the bottom edge.

B3L3PL • Left Gallery Panel End of Run 3-Way Return

- **Provides floor standing support while enclosing the end of a Gallery Panel run.**
- Attaches to the Gallery Panel left edge with connectors to form an T configuration.
- Connections to Gallery Panel are on the interior face in the middle.
- Compatible with Gallery Panels (B3LEPxxxx, B3LSEPLxxxx, B3LMPxxxx, B3LSMPxxxx and B3LXPLxxxx) only.
- Includes all attachment hardware and glides.
- Total height is inclusive of panel glides extended to their full height.
- 49" wide gallery panel accomodates two 24" deep surfaces while the 61" wide accomodates two 30" deep surface and 73" wide two 36" deep surface.
- Please specify LP laminate finish and PVC edge finish.
- If a wood grain laminate is chosen, grain direction run horizontally.
- Edged in PVC on three exposed edges and self edged on the bottom edge.

Electrical

Affordability and widespread availability of wireless networking is gradually diminishing the need for extensive cable capacity housing. However, as our desk top equipment still requires electricity, providing access to power from within a work station is an integral part of any work place design.

The Global Contract family of power components has been assembled to address a variety of common requirements as well as to satisfy specific customer needs and budgets.

Global Contract can now offer the option of 3 duplex per panel, please contact your Customer Service Representative.

Direct Access:
When office equipment plugs directly into a wall or raised floor power source, cable troughs, as well the Boulevard panel internal cavity serve the purpose of organizing cables.

Extensions:
Keeping minimal installation costs in mind, the next natural step is the employment of fused and surge protected power bars, worksurface-clamped receptacles or floor standing power towers.

Four circuit power systems:
In the absence of a raised floor, or when office equipment is to be installed further away from wall outlets, the Boulevard panel or Bridges unit the building power supply - office equipment gap by distributing power at either floor or desk height level, or both.

While Boulevard panels are capable of surrounding a given work station with power and data outlets at multiple levels, it is important to remember that the most economical way of providing four-circuit power distribution is if the harness, junction box and receptacle system remained within the central spine structure. The cost savings here come from a number and lengths of individual connecting power harnesses.

Should there be a need to branch power from Boulevard or central spine onto adjacent, perpendicular work surfaces, the employment of fused and surge protected power bars will assist in keeping the cost under control.

However, the very same, 4-circuit system is capable of delivering a considerable amount of power as there can be up to six, 8 wire-4 circuit systems accommodated within System3 pass-thru panel. For instance: three systems at the floor level and two systems at the desk height.

Various ceiling or floor level power entry feeds are available. See the following pages for individual component description and technical specifications.

(Up to 48 infeed)

Specifications
System rated for connection to a grounded 120/240 V, single phase*, 20A, 60Hz or 120/208 V, 3 phase, 20A, 60Hz branch circuit for U.S. and 15A if product is marked with a C-UL Mark. Outlets rated 15A max.

UL Recognised CSA Certified
Warning: It is recommended that installation of the electrical harness be made under the supervision of a licensed electrician in accordance with applicable codes and regulations.
Special Note: Always determine that harness is electrically connected to only one power supply.

* When connected to Single Phase. Only
Circuit 1,3 & A are available.

STEP-BY-STEP SPECIFICATION - 8 WIRE ELECTRICAL FOR BOULEVARD 1 AND RACEWAY PANELS

STEP 1: Determine the location of the source power entry entering the panel through a post.

a) From the floor:

i) Choose from a selection of single or double Base Feeds (BE81BF721, BE81BF722, BE81BF1441, BE81BF1442) to bring the power from the floor to the raceway channel.

ii) Select a post adjacent to the panel (or panels if using a Double Base Feed) to which the end of the Base Feed will be attached. This panel requires a Power Distribution Housing and must be located next to the post through which the Base Feed is entering.

> **Note: If it is not practical to have a Power Distribution Housing in a panel adjacent to the selected Base Feed Post, use a BE8CPxxHJ Housing-to-Jumper Pass-Thru Cable to transition through the adjacent non-powered panel(s) that are between the Base Feed Post and the first powered panel. The length of the cable will equal the combined width of the non-powered panel(s).**

b) From the Ceiling:

i) Choose from a selection of single or double Ceiling Feeds (BE81CF1201, BE81CF12a0-2, BE81CF1441, BE81CF1442) to bring the power from the ceiling to the raceway.

ii) Select a post adjacent to the panel (or panels if using a Double Ceiling Feed) to which the Ceiling Feed will be attached. This panel requires a Power Distribution Housing and must be located next to the post throught which the Ceiling Feed is entering.

STEP 2: Determine which panels are to be powered.

a) Use a BE81D Concealed Desk Height Power Distribution Housing or a BE8U2D Face Mount Desk Height Power Distribution Housing that corresponds with the width of each panel selected to be powered.

> **Note: Specify Face Mount Raceway Covers for panels that contain BE8U2D Face Mount Desk Height Power Distribution Housings.**

STEP 3: Connect power to the panels.

a) Use a BE8JC16 Jumper between two adjacent powered panels.

b) Use a BE8JC20 Jumper between two powered panels separated by a post.

c) **Use a BE8JM19 Shielded Mesh Jumper between two powered panels separated by a post.**

d) Use a BE8CPxxHJ Housing-to-Jumper Pass-Thru Cable to electrically connect a BE8JM19 Shielded Mesh Jumper and a powered panel when the two are separated by one or more non-powered panels in a straight line application only.

i) The length of the BE8CPxxHJ Housing-to-Jumper Pass-Thru Cable will equal the combined width of the non-powered panel(s).

e) Use a BE8CPxxHH Housing-to-Housing Pass-Thru Cable to electrically connect two powered panel separated by one or more non-powered panels in a straight line application only.

i) The length of the Pass-Thru Cable corresponds with the width(s) of the non-powered panels that separate two powered panels plus 16" (the termination blocks of the Power Distribution Housing are 8" in from the edge of the powered panel), plus 4" for each post.

f) Connect two jumpers or cables together by using the I-Connector BE8CI1. This functions as a female-female adapter and it allows the male ends of jumpers and pass-thru cables to connect together.

STEP 4: Designate which circuit each duplex is to tap into.

a) Each powered panel has four (4) potential locations for duplex receptacles - 2 per side. (Exception: 24" wide panel has only two (2) potential locations - 1 per side, 18" wide panel has no locations for receptacles).

b) At each location there is a choice of four (4) circuit options. Select the circuit option for each location.

Circuit Selections : Circuits 1, 2, and 3 are utility circuits, all sharing a ground and a neutral. Circuit A is a dedicated circuit with its own ground and neutral.

STEP-BY-STEP SPECIFICATION - 8 WIRE ELECTRICAL FOR BOULEVARD SYSTEM 3 BASE RACEWAY

STEP 1: Determine the location of the source power entry entering the panel.

a. At the base of a panel:

  i. Use a BE8BFxx Base Feed.

  ii. Select the panel to which the Base Feed will be attached. This panel requires a BE83D Power Distribution Housing.

  iii. Select the side of the panel and the receptacle outlet to which the Base Feed is to be attached.

b. From the ceiling:

  i. Use a BE8CFxx-1or -2 (single or double).

  ii. Select the post through which to feed the Ceiling Feed.

  iii. One panel adjacent to the selected post requires a BE83D Power Distribution Housing. Attach the Ceiling Feed to the nearest end of the Power Distribution Housing.

  > **Note: If it is not practical to have a Power Distribution Housing in a panel adjacent to the selected Ceiling Feed Post, use a BE8CPxxHJ Housing-to-Jumper Pass-Thru Cable to transition through the adjacent non-powered panel(s) that are between the Ceiling Feed Post and the first powered panel. The length of the cable will equal the combined width of the non-powered panel(s).**

c. At the base of a adjoining panel:

  i. Use a BE83BFR72 Raceway Entry Base Feed

  ii. Select a non-powered panel adjacent to the panel with a Power Distribution Housing.

  iii. Choose a duplex opening on either side of the panel to insert and attach the Raceway Entry Base Feed at that point.

  iv. The Raceway Entry Base Feed will attach to the nearest end of the Power Distribution Housing (similar to the Ceiling Feed attachment).

STEP 2: Determine which panels are to be powered.

a. Use a BE83D Power Distribution Housing that corresponds with the width of the selected panel.

STEP 3: Connect power to the panels.

a. Use a BE8JC16 Jumper between two adjacent powered panels.

b. Use a BE8JC20 Jumper between two powered panels separated by a post.

c. Use a BE8CPxxHH Housing-to-Housing Pass-Thru Cable to connect two powered panels separated by one or more non-powered panels. i. The length of the Pass-Thru Cable corresponds with the width(s) of the non-powered panels that separate two powered panels plus 16" (the termination blocks of the Power Distribution Housing are 8" in from the edge of the powered panel plus 4" for each post).

STEP 4: Designate which circuit each duplex is to tap into.

a. Each powered panel has four (4) potential locations for duplex receptacles - 2 per side. (Exception: 24" wide panel has only two (2) potential locations - 1 per side, 18" wide panel has no locations for receptacles).

b. At each location there is a choice of four (4) circuit options. Select the circuit option for each location.

Circuit Selections : Circuits 1, 2, and 3 are utility circuits, all sharing a ground and a neutral. Circuit A is a dedicated circuit with its own ground and neutral.

BE83BF • Reversible Base Feed (Boulevard System 3 only)
- Provides single power entry from floor circuit to raceway.
- Takes the place of a duplex receptacle by connecting to the base raceway channel of a Boulevard System 3 panel.
- BE83BF72 includes 72" long liquid-tite conduit, BE83BF144 includes 144" long liquid-tite conduit.
- Must be hard wired to power source by a licensed electrician.

PRODUCT CODE	PRICE	SIZE/ H	INCHES L	D	WEIGHT LBS	VOL FT³
BE83BF72	314	3	72	3	3.82	2
BE83BF144	422	3	144	3	6.98	2

BE83BFR72 • Raceway Entry Base Feed (Boulevard System 3 only)
- Brings power to an adjacent panel by entering a non-powered raceway of a Boulevard System 3 panel through a duplex opening.
- Includes 72" long liquitite conduit.
- Must be hard wired to power source by a licensed electrician.

PRODUCT CODE	PRICE	SIZE/ H	INCHES L	D	WEIGHT LBS	VOL FT³
BE83BFR72	446	3	88	3	4.82	2

BE8CF-1 • Ceiling Feed - Single
- Provides single power entry from ceiling, through post and into raceway channel.
- Power entry cable penetrates 8" into a panel and plugs into either a Power Distribution Housing or BE8CPxxHJ Pass-Thru Harness.
- Specify Post Extension separately.
- Must be hard wired to power source by a licensed electrician.

BE81BF602 • Base Feed - Double (Boulevard 1 only)
- Provides dual power entry from floor, through 6" panel and into Boulevard 1 raceway panel.
- Power entry cable penetrates 8" into a panel and plugs into either a Power Distribution Housing or a BE8CPxxHJ Pass-Thru Harness.
- Use 1. In middle of run to distribute power in two directions.
  2. At beginning of run where second Base Feed Harness is connected to BE8CPxxHJ and distributes power underneath Power Distribution Housing to pick-up second circuit grouping in long panel run.
- For 6" Power/Cable Access Panel only.
- Comes with 2x32" harness attached.
- Liquid-tite whip 72".
- Must be hard wired to power source by a licensed electrician.

BE8JC • Jumper Cable
- Electrically connects two Power Distribution Housings.
- The BE8JC16 electrically connects two powered panels positioned side by side.
- The BE8JC20 electrically connects two powered panels separated by a post.
- Wires are concealed in a flexible metal conduit.
- Cannot go through a Boulevard 1 post in a corner application. (Please use the Jumper Cable Mesh)

PRODUCT CODE	PRICE	SIZE/ H	INCHES L	D	WEIGHT LBS	VOL FT³

BEPE • Post Extension
- Lightweight aluminum pole to be used to bring power and/or data/communication cables from ceiling to a panel through a post.
- Attaches to ceiling and post.
- Includes connectors, ceiling trim plate and screws.
- Post extension will accept:
  75 cables 5.6mm (0.220") dia. data cables
  60 cables 5.6mm (0.220") dia. data cables with 1 power feed
  45 cables 5.6mm (0.220") dia. data cables with 2 power feeds.
- Ceiling bezel is white only.

BE2PE • Off-Module Post Extension
- An alternative to the existing Ceiling Post, allows for an off-module Ceiling Feed location.
- Attaches to the top of horizontal trim.
- Panel ceiling post consists of two aluminum extrusions for a true lay-in application.
- Includes brackets, hardware and ceiling trim plate and screws.
- Harness length will vary in length depending on post location along the panel.
- Can only be used with Boulevard System 3 "PV" and "MV"Panels.
- Requires on site cutting of top trim for placement along panel.

DEK • Jumper Harness

- Kit includes all components to add power to Diet Panels.
- Typical kit includes: 2 Duplex Receptacle Blocks (either circuit #1 or circuit #2), the Jumper Harness between the Duplex Receptacle Blocks, the Jumper Harness to the next panel, the pre-punched Raceway Cover, the aluminum Raceway Junction Cover, 2 PVC Duplex Receptacle Block Spacers and the hardware to attach the components.
- The length of the Jumper Harness between two Duplex Receptacle Blocks is based on the panel width.
- Jumper Harness going into the next panel and the aluminum Raceway Junction Covers are standard size.
- Raceway Cover and Raceway Junction Cover are Charcoal (CHR) only.
- Each kit is identified as circuit #1 (ie. DEK240"1") or circuit #2 (ie. DEK240"2").
- 24" wide panels have a single Duplex Receptacle Block only.

- 30" wide panels have 2 Duplex Recepacle Blocks, however they must be facing the same direction.
- 24" and 30" wide panels are not pre-punched for data.
- 36" to 60" wide panels are pre-punched for Duplex Receptacle Blocks on either side and for data just off-center on both sides.

DEJH • Diet Pass-Thru Kit

- Kit allows electrical to pass through a Diet Panel.
- Kit includes: female-female jumper harness, Raceway Cover and Raceway Junction Cover.
- Pass-Thru harness connects to a Duplex Receptacle Block within one powered panel; passes through a non-powered panel, and the opposite end connects to another Receptacle Block within the second powered panel.
- Raceway Cover and Raceway Junction Cover are Charcoal (CHR) only.

Worksurfaces

Global Contract offers a wide variety of worksurfaces and user friendly worksurface shapes to support a variety of tasks, applications and personal preferences.

1 1⁄16″ particle board.
45 lb. density
100% recycled from post consumer industrial material
"Scoops" for cable management.
All worksurfaces have threaded inserts for metal-to-metal connection of support hardware.

High and Low pressure worksurfaces are 3mm edge banded.
Wood veneer surfaces or solid wood edges available.

Technical Information

Worksurfaces

All worksurfaces have threaded inserts for metal-to-metal connection of support hardware.
Back edge features scoop detail.
Worksurfaces 48″ or less have one scoop while those that are 54″ or more have a double scoop feature with a 1/2″ wire passage trough between the scoops.
LP and HP worksurfaces are 3mm edge banded.
LP worksurfaces are 1″ thick particle board with laminate finish.
HP worksurfaces are 1 1/16″ thick particle board with laminate finish.
T worksurfaces are 1 1/16″ thick particle board with laminate finish and wood trim.
W worksurfaces are 1 3/16″ thick particle board with wood veneer finish. Edge is solid wood edge banded.
One universal cantilever supports two abutting worksurfaces.

20″ deep worksurfaces available at same price as 24″ deep worksurfaces.
Support hardware must be ordered separately.
Edge banded worksurfaces without scoops available, substitute "NFL" for "SCP" at the end of the code.

Transaction Worksurfaces

To install transaction worksurfaces to a 42″ high panel, use BHBT02 bracket.
To install transaction worksurfaces to a 37″ high panel, use BHBT37 bracket.

WORKSURFACE COMPONENTS - GUIDELINES FOR ORDERING PRODUCT

Codes

The price list uses a numbering system with meaningful alphanumeric characters to create a simple-to-understand product number. This makes specifying the product much easier and more accurate.

Example of Worksurface: **BWS2460SCPHPMR71T CHR**

BW S 2460 SCP HP MR71T CHR

BW	S	2460	SCP	HP	MR71T	CHR
Boulevard Worksurface	Straight Rectangular Top	Sizes in Inches D x W	Scoops Option	High Pressure Finish	HP Laminate Colour	Edge Colour
How to Specify

Specify Boulevard worksurface type and size by code.
Specify scoops option by adding "SCP" at end of code.
Specify type of finish.
Specify High Pressure Laminate Colour.
Specify PVC edge colour.

Example of Hardware: **BHC24 CHR**

BHC 24 CHR

BHC	24	CHR
Boulevard Cantilever	Size in Inches : L	Finish
How to Specify

Specify Boulevard hardware type and size by code.
Specify type of finish.

BWS • Straight Rectangular Worksurface

- Straight rectangular worksurfaces are non-handed and can be interchanged on site.
- Please choose from DWT - Designer White, SIL - Silver or BLK - Black for scoop covers.
- Surfaces with wood trim (T) and complete wood (W) will not have the plastic scoop, they will remain with the curve cut scoop.
- To specify wood trim (T) or complete wood (W) surfaces, please remove the last "P" from the code, replace with "SCP" and add either a "T" or "W" and the old scoop style is going to be created.

Worksurfaces 48" or Less

Worksurfaces 54" or Longer

## BWSP • Straight Rectangular Worksurface to span a Post

- Straight rectangular worksurfaces are non-handed and can be interchanged on site.
- Worksurface will span the width of a post eliminating a gap between standard sizes.
- Please choose from DWT - Designer White, SIL - Silver or BLK - Black for scoop covers.
- Surfaces with wood trim (T) and complete wood (W) will not have the plastic scoop, they will remain with the curve cut scoop.
- To specify wood trim (T) or complete wood (W) surfaces, please remove the last "P" from the code, replace with "SCP" and add either a "T" or "W" and the old scoop style is going to be created.

BWSC • Curveliniar Front Edge Worksurface

- Curvelinear front edge worksurface.
- Allows efficient use of a small footprint.
- The curve on the 30" and 36" wide worksurfaces have been modified to allow a pedestal to fit.
- Please choose from DWT - Designer White, SIL- Silver or BLK - Black for scoop covers.
- Surfaces with wood trim (T) and complete wood (W) will not have the plastic scoop, they will remain with the curve cut scoop.
- To specify wood trim (T) or complete wood (W) surfaces, please remove the last "P" from the code, replace with "SCP" and add either a "T" or "W" and the old scoop style is going to be created.

BWAC60 • Curved Corner Worksurface for 60 Degree Angle
- Five sided corner unit for 60 degree Corner Posts.
- Creates efficient use of space for computer or printer application.
- Please choose from DWT - Designer White, SIL - Silver or BLK - Black for scoop covers.
- Surfaces with wood trim (T) and complete wood (W) will not have the plastic scoop, they will remain with the curve cut scoop.
- To specify wood trim (T) or complete wood (W) surfaces, please remove the last "P" from the code, replace with "SCP" and add either a "T" or "W" and the old scoop style is going to be created.

BHCL • "C" Leg
- Attaches to panel support worksurface or to provide free-standing table support.
- Steel structure, PVC cover.
- Universal non-handed.
- For a single rectangular freestanding worksurface application, specify two "C' Legs and one Modesty Panel of corresponding width.
- May be used as a shared leg between two adjoining worksurfaces. Specify one "C" Leg, one Modesty Panel of corresponding width, plus one Modesty Panel Extension Bracket.
- For corner worksurfaces, specify two "C" Legs, one Corner Leg and two Modesty Panels 6" shorter than rear sides of the corner worksurface.
- Can be used as a floor support in a panel attached application (similar to a cantilever).
- Includes worksurface mounting brackets with screws, Bracket Retainer Clip and panel bracket.
- Accommodates 15" knee space.
- Intended for use with flexlip worksurfaces. When used on other worksurfaces, modesty panel must be installed upside down.

BKMP • Modesty Panel
- For rectangular worksurfaces, specify Modesty Panel of corresponding width. For corner worksurfaces, specify two Modesty Panels 6" shorter than rear side of corner worksurface.
- Attaches between two "C" Legs, or between one "C" Leg and a Corner Leg, or a shared "C" Leg and "C" Leg at the end of a run.
- Includes brackets and screws to attach Modesty Panel to worksurface.
- For use with flex lip worksurfaces only.
- To install on "SCP" or "NFL" worksurface, modesty panel must be inverted.

BHLEG • Gable Leg
- Support the worksurface and enhances the stability of connected panels.
- Universal leg plate bolts to the underside of the worksurface.
- Can be configured on-site for left, right or shared worksurface support application on front edge
- Back edge does not have shared support.
- Tubular leg section adjusts in 1" increments, the leveller can be used for fine adjustment.
- 1" increment leg adjustment and 1" increment panel slots allow the leg of installed worksurface to be supported from 26" to 32". (Leg must be removed from panel to manually adjust.)
- Side plate is secured to the slots in the vertical of the Boulevard 1 or System 3 panels and the leg plate bolts to underside of the worksurface.
- Made of extruded aluminum and steel.
- Includes all mounting hardware to connect to panel and worksurface.

LATERAL FILE FEATURES • TECHNICAL INFORMATION

Counterweights are recommended for use in all lateral, verticals, pedestals and free standing files of all widths and heights.

- Counterweight not included. In order to meet ANSI/BIFMA X5.9-2004, Counterweight must be specified separately.

Pedestals

- Quality steel construction.
- For Linear and C series, the pedestal drawer suspension is as follows:
  - Box drawers have 3/4 extension ball bearing slides.
  - File drawers have full extension ball bearing slides.
- FF contains 2 file drawers, BF contains 1 box drawer and 1 file drawer, BBF contains 2 box drawers and 1 file drawer.
- 1 pencil tray and 1 drawer divider is included with each unit containing a box drawer.
- Includes lock with 2 keys.
- Can be keyed alike to other metal storage components.
- Cannot be field converted into mobile units.
- Drawer configuration can be converted in the field.
- Interior drawer depth for radius pedestals is as follows: 19.75" for 24" deep and 24.75" for 30" deep.
- Interiors of drawer bodies are finished Recycled Grey.
- Levelers provide 1" height adjustment.

Overhead Storage

- Overhead storage comes in a variety of styles and materials.
- Styles include shelves, open overhead, closed overhead with flipper or hinged door.
- Materials include metal and wood.

Filing

- A variety of heights in 30", 36" and 42" widths available.
- Slots for letter, legal and "A4" metric size material.
- "B" receding opening accommodates ring binders and fixed front opening will accommodate 14 7/8" x 11" EDP binders.
- Receding doors slide into the cabinet.
- Pull-out shelves have a rolled front edge.
- Fixed drawers are flat for easy material retrieval.
- Locks are standard with removable cores.
- All cabinets are of welded construction using 18 to 22 gauge cold rolled steel.
- Front corners are mig-welded and ground smooth where the case meets the top and bottom.
- Interiors are finished with recycled paint.
- Positive interlocking system is integrated into each drawer for safety.
- File bars are Recycled Grey and pre-installed in drawers.
- Three stage, full progressive, ball bearing suspension.
- Epoxy powder coated .2 mm thick for durability.
- Drawer fronts come with double wall construction and full pulls.
- Drawer mechanism includes an anti-bounce-back device.

- All four leveling glides can be accessed from the interior of the cabinet.
- Changes to fixed or receding fronts are special order.

- Materials include metal and wood.
- Master key available.
- Individual lock for drawers and doors.

Vertical Filing

- Recessed full pulls.
- Includes lock and leveling glides.
- Full side walls for suspended folders.
- Follower back.
- Full progressive suspension.
- Double wall fronts.
- Interior paint matches exterior paint.

STORAGE COMPONENTS - GUIDELINES FOR ORDERING PRODUCT

Codes

The price list uses a numbering system with meaningful alpanumeric charcters to create a simple-to-understand product number. This makes specifying the product much easier and more accurate.

"C" Series Drawer   "L" Linear Drawer

Example of Pedestal: **BS1218BBFC CHR**

BS 12 18 BBF C CHR

| Boulevard Storage | 12" Series Pedestal | Sizes in Inches Depth | Box, Box, File Configuration | C Series | Metal Colour |
How to Specify

- Specify storage pedestal type and size by code, including depth.
- Specify metal colour - ie. CHR (Charcoal).
- Specify handle colour if pedestal is "Radius" or "Linear" series.
Example of Overhead: **BSOF1636 CHR**

BS OF 1636 CHR

| Boulevard Storage | Type ie. Overhead Flipper Door | Size in Inches HxW | Metal Colour |
How to Specify

- Specify overhead storage type and size by code.
- Specify metal colour - ie. CHR (Charcoal).
- Specify handle colour if pedestal is "Radius" series.

BSADA-UM • Up-Mount Overhead Storage Unit - AODA Compliant
- Up mounted storage can reduce furniture costs by reducing the height of all panels to 50". Complete 50" panel installations simplify cable routing at one level, within the top lay-in channel. Up-mounted cantilevers maintain accessability and functionality of the panels' top lay-in channel.
- Meets CSA B651 Barrier Free Design & AODA (Accessability for Ontarians with Disabilities Act).
- 16" high units accept standard and A4 binders.
- All shelves are reinforced for proper weight distribution.
- Inside dimensions: 14.25" high x 13.4" deep.
- Unit includes attachment hardware, lock, mounting cantilevers and has a finished back.
- Unit can be converted to a Panel Mounted Overhead Storage Unit in the field by adding BSADAPMxxKIT.
- Shipped partially assembled.

BSADA-KIT • Up-Mount Conversion Kit
- Converts an existing Panel Mounted Overhead Storage Unit BSADA-PM to an Up-Mounted Overhead Storage unit BSADA-UM.
- When used on a 50″ high panel, the top of the overhead will match the height of 66″ high panels.
- Kit includes a back panel for the Overhead and Up-Mount Cantilevers.

BSADA-OMKIT • Off-Module Conversion Kit
- Converts an existing Panel Mounted Storage Unit BSADA-PM to Off-Module Overhead Storage unit BSADA-OMKIT.
- Kit includes a back panel with integrated hanging bracket and an extruded bottom bracket.
- IMPORTANT: BSADA Overhead with Off-Module Conversion kit can only be installed on B3 fabric tile. Tiles below the overhead can be fabric, laminate and accessory tile. However, the tile the overhead is hanging on must be fabric.
- BSADA Overhead with Off-Module Conversion Kit can be suspended off of a single fabric tile, or can span two fabric tiles on two adjacent, directly interconnected panels.
- BSADA Overhead with Off-Module Conversion Kit CANNOT be suspended off of two panels separated by a post.

Diet Panel System

Diet represents an innovative tool for creating an economical, efficient work space, accommodating various tasks. From 42" high panels which provide an open office feel to 50" and 54" high panels, for seated privacy and 66" high panels for standing privacy, Diet effectively supports the creation of various work environments. Diet is simple, easy to comprehend, easy to specify and install, with a minimum of add-on and dedicated/handed components to maximize reconfiguration flexibility. All Diet panels ship with a set of self-leveling connectors that accommodate any angle, but also straight, 90°, three- way T and 120° configurations, as well as four-way "X". Truly universal connectors support the above panel configurations regardless of panel heights. Such a configuration and height independent connecting method eliminates the need to order additional components during future office recon-figurations. Diet is an economical, "soft wire" system with simple means of optional power and data/communication cable management trough that snaps to the bottom of the panel. With the exception of panels with open area below the mid rail, all Diet panels are built with 6" clearance opening between the floor and the bottom rail. This feature not only serves as a simple passage for cables between back-to-back stations and an interface for a snap on cable trough, but it mainly provides ultimate flexibility of panel station placement even if one panel needs to be located right above a floor monument. Diet's slim appearance, sophisticated industrial design, detailing and advanced engineering communicate high perceived value, exceeding expectations usually related to budget products. Diet can be specified on its own, with integrated worksurface, storage and accessory support, privacy and space or-ganization in free standing office environments. Whether combined with Boulevard system, or raised floors, Diet, as a tool, bridges mobile or stationary freestanding furniture with power/data delivery solutions, that are hard wired to a building power supply.

Technical Information

Panels
- Panels are 1.3" thick.
- Width ranges from 24" to 60" at 6" increments.
- Heights include 42", 50", 54" and 66" (nominal).
- Extruded aluminum frame surrounds a fabric wrapped interior with a 7/8" particle board frame, sandwiched between 2 pieces of 1/8" masonite.
- Panel frame finish is durable epoxy powder coated.
- Finished panel includes top, corner and end caps.
- For glazing - Smoke develoment index 500.
- For tempered glass, add "TG" to the end of the product code and add 20% to the price regardless of fabric grade.
- Top rail accepts Global Contract accessories, monitor arm supports, off-module shelves, and task light brackets.
- Top rail on Glazed Top Panels is not intended for use with panel mounted shelves and panel mounted overhead.
- Middle rail accepts bracket for off-module worksurface support, Global Contract accessories, off-module shelves and power bar.
- Bottom rail accepts brackets for off-module worksurface support, Global Contract accessories, off-module shelves and optional cable manager and power bar.
- Optional PVC cable manager friction fits into bottom rail.

- Two leveler are included with a 1.75" leveling range.
- Vertical frame members have integrated grooves for additional components.
- Charcoal covers are provided at front of vertical members where connectors attach.
- Panels include 3 sets of hinge connectors, 1 set of spacers and 6 pins.
- Connecting method is simple, accommodating typical configuration, as well as connection of panels at any angle, regardless of height.

Panel Options
- Laminate or whiteboard may be substituted for fabric on panels only, see "OPT" column.
- Tackboard panels available, please add 25% upcharge.
Steel facing available, contact your customer service representative.
Note:
- 42" High Diet panels do not match Boulevard 42"
- 50" High Diet panels match Boulevard 50"
- 54" High Diet panels do not match standard Boulevard 54"
- 66" High Diet panels matches Boulevard 66"
- To order 42" and 54" high Diet panels to match Boulevard, please order "BDPFF" and "BDPOF".

HOW DIET REDUCES YOUR COSTS

Finished Panel:
- No inventory costs for connectors, top caps, kick plates and clips.
- Less time required to install, or to disassemble, move and re-install.
- Open bottom panels can reduce cost and improve circulation within the office.
Fewer Parts:
- Only 1 universal cantilever and 3 brackets are needed to build most workstations.
- Easy to attach and remove components from panels.

Simplified Specifications:
- Fewer parts and components make specifying, ordering, and verifying less work.
- Product fits a 6" planning module.
**Communications Channel:**
- Base communication channel reduces time to install and change cables.
- Warranty:
- Limited Lifetime Warranty on materials and workmanship.

DIET PANELS - GUIDELINES FOR ORDERING PRODUCT

Codes
The product guide uses a numbering system with meaningful alphanumeric char-acters to create a simple-to-understand product number. This makes specifying the product much easier and more accurate.

Example of Panel: **DPFRF6636**

DP FRF 6636 CHR

|			
Boulevard 1 Panel	Raceway Acoustic Panel	Sizes in Inches H x W	Panel Frame Colour

How to Specify
Specify Diet Panel type and size by code.
Specify panel frame finish - ie. CHR (Charcoal).
Specify all six panel fabric options if necessary.

|	
AN50	Inside Lower Fabric
AN50	Inside Middle Fabric
AN50	Inside Upper Fabric

DPCBM • Panel Cable Manager
- Provides wire management for the Diet Panels.
- Extruded, dual durometer "U" channel organizes cables below panels.
- Snaps into bottom rail and into mid rail on open bottom panels.
- One data partial knock-out (2.67" wide x 1.36" high) provided on either side of the Raceway Cover accommodates terminal plates from various vendors.
- Panel Cable Manager comes in charcoal only.

DPOFM • Off Module Panel Connector
- Connects two perpendicular Diet Panels Off-Module.
- Top and bottom brackets bolt to Diet Panel verticals and engage to top and bottom rails of adjacent, perpendicular panel of even or lower height.
- Connectors can also be used to connect a panel in the middle of perpendicular DPFRF, DPORF, DPFFG, DPFSG ad DPFSF at their 42" height secondary middle rail.
- Top and bottom brackets fit in place of standard hinge connectors.
- All fasteners included.

PRODUCT CODE	PRICE	SIZE/ H	INCHES W	D	WEIGHT LBS	VOL FT³
DPOFM	42	4	3	2	1	0.08

DPPWA • Wall Adapter
- Connects Diet Panels to walls.
- Bolts to Diet Panel vertical in place of the standard hinge connectors.
- Keyhole openings in Diet adapter slide over fasteners pre-installed to the wall.
- All fasteners included, however, the mounting hardware to affix adapter to wall not included, they will be based on type of wall material.

DPPWA	42	40	2.5		1	0.08

DPCSTR • Casters
- Changes a freestanding Diet Panel to mobile.
- Must be used on two panels or more.
- Order 1 caster more than the number of panels. (Using only 1 caster where panels connect.) For example, 3 panels, 4 casters or 2 panels, 3 casters.
- Casters raise Diet Panels by a height of 1.1".

PRODUCT CODE	PRICE	SIZE/ H	INCHES W	D	WEIGHT LBS	VOL FT³
DPCSTR	9	1.5	1.5	1.5	.25	1.02

DPLTSBKIT • Telescopic Sliding Kit
- Diet Telescopic Sliding Kit flexibly connects two standard parallel Diet panels and forms a length-adjustable parition.
- Kit consists of two top and two bottom sliding box assemblies and all the necessary connecting hardware.
- Made of black injection molded resin.
- The panels must be of the same height and equipped with top and bottom standard Diet extrusions.
- The kit can be installed as right or left on site, determining the direction of nesting/sliding.
- The kit offsets the parallel panel and the resulting gap is 12.5mm (½")
- Up to three standard Diet panels can be connected to form the length-adjustable partition.
- The kit is not intended to be used in place of a sliding door.
- The kit cannot be used with Diet overpanels or Diet Linking Panels.

PRODUCT CODE	PRICE	SIZE/ H	INCHES W	D	WEIGHT LBS	VOL FT³
DPLTSBKIT	106	0.75	3	0.5	0.04	0.15

DBSCB • Diet to Boulevard Slot Connector
- Connects a Diet Panel to a Boulevard Panel via slots eliminating the need for the Boulevard Post and reducing the overall length and cost of a panel run.
- Connector can be installed in left or right configuration.
- Comes as a pair (Upper and lower brackets).
- Worksurfaces should be ordered based on application keeping in mind that this connector will align to the left or right of the end of the Boulevard Panel.
- Application drawings and layout must be provided for specials.

DIET / BOULEVARD / BOULEVARD / DIET — "X" Connection in a straight run

DIET / BOULEVARD / DIET — "X" Connection vertical end trim required to match Boulevard height to finish end

DBXP-T • Diet to Boulevard Slim Connector in "T" Configuration

- Creates a perpendicular connection between Diet Panel and Boulevard Panel that eliminates the need for special sized worksurfaces.
- Note: For use with regular DPxxxx panels.

DEK • Jumper Harness

DEK24xx

DEK30xx

DEK36-60xx

- Kit includes all components to add power to Diet Panels.
- Typical kit includes: 2 Duplex Receptacle Blocks (either circuit #1 or circuit #2), the Jumper Harness between the Duplex Receptacle Blocks, the Jumper Harness to the next panel, the pre-punched Raceway Cover, the aluminum Raceway Junction Cover, 2 PVC Duplex Receptacle Block Spacers and the hardware to attach the components.
- The length of the Jumper Harness between two Duplex Receptacle Blocks is based on the panel width.
- Jumper Harness going into the next panel and the aluminum Raceway Junction Covers are standard size.
- Raceway Cover and Raceway Junction Cover are Charcoal (CHR) only.
- Each kit is identified as circuit #1 (ie. DEK240"1") or circuit #2 (ie. DEK240"2").
- 24" wide panels have a single Duplex Receptacle Block only.
- 30" wide panels have 2 Duplex Recepacle Blocks, however they must be facing the same direction.
- 24" and 30" wide panels are not pre-punched for data.
- 36" to 60" wide panels are pre-punched for Duplex Receptacle Blocks on either side and for data just off-center on both sides.

DEJH • Diet Pass-Thru Kit

- Kit allows electrical to pass through a Diet Panel.
- Kit includes: female-female jumper harness, Raceway Cover and Raceway Junction Cover.
- Pass-Thru harness connects to a Duplex Receptacle Block within one powered panel; passes through a non-powered panel, and the opposite end connects to another Receptacle Block within the second powered panel.
- Raceway Cover and Raceway Junction Cover are Charcoal (CHR) only.

Monitor Arm Specs

- VESA Mounting plate contains 75 mm & 100 mm mounting configuration
- VESA Plate head is fully adjustable with 180° of tilt, 180° of swivel and 360° of rotation for portrait to landscape viewing
- Keyhole slots in VESA Plate for quick mounting of Display Screen
- Counterbalance spring mechanism does not contain gas cylinders (that are prone to leakage)
- Cable Management provided on arm swivel joints
- Arm components manufactured from 100% recyclable aluminum die cast material, providing stability and durability
- 13" Arm height adjustment on 11" Stainless Steel Pole.
- Pole Support Ring doubles as cable manager.
- 360° of arm swivel around pole.
- Desk Clamp and Grommet mounting options standard on pole applications.
- Monitor arms available in Silver (SIL), Black (BLK), or White (WHT).

## GAMCSSDE • Double Extension Monitor Arm for Single Screen
- Monitor Arm Single Screen Dual Arm Extension.
- 9 1/2" reach from centre of pole to front of VESA Plate
- Display Viewing - 180° of tilt, 180° of swivel and 360° of rotation.
- Quick Mount Versa Plate.
- 12" Pole Adjustment.
- 9" Chrome pole adjustment.

  Available in Silver (SIL), Black (BLK) or White (WHT).
- Post is chromed.

D ACCESSORIES

GAMLDM20 • Single Screen Monitor Arm for 5 to 20lbs

- Comes with clamp and grommet mount, ideal for all desk mounting configurations, minimizing SKU's.
- Adjustable counterbalance cylinder provides smooth 14 ½" of height adjustment with fingertip control. - counterbalances monitors from 5 lbs. to 20 lbs.
- Double extension arms provide a maximum of 26 3/4" extension from the rear edge of the mounting surface to the VESA Plate for greater monitor adjustment on deep or corner workstations.
- Arms fold back to a minimum dimension of 4 1/2" to provide maximum desk utilization.
- Monitor mounting bracket, with Quick Connect adaptor, contains both 75mm & 100mm hole patterns to match most screen types and compliant with VESA mounting standards.
- Weight gauge provided to allow for quick and easy counterbalance adjustment of the arm prior to installing the screen. Saves time and guesswork especially for multiple arm installations.
- VESA Plate rotates for portrait or landscape viewing with 180° side to side rotation and -90° to +45° tilt for optimal viewing adjustment.
- Die cast aluminum construction provides greater stability and contains high recycled material content with full recyclability.
- Adjustable rotation limiter to restrict arm rotation to 180°, preventing arms from hitting walls.
- Comes with all tools and mounting hardware for quick and easy installation (Tool-free).
- Available in Silver (SIL), Black (BLK) or White (WHT).

- • Adjustable counterbalance cylinder provides smooth 14 1/2" of height adjustment with fingertip control and a counterbalance range from 15 lbs. to 40 lbs.
- • Double extension arms provide a maximum of 30 3/4" extension from the rear edge of the mounting surface
- to the VESA Plate for greater monitor adjustment on deep or corner workstations
- • Arms fold back to a minimum dimension of 8 3/8" to provide maximum desk utilization
- • Monitor mounting bracket with Quick Connect Adaptor, contains both 75mm & 100mm hole patterns to match
- most screen types and is compliant with VESA mounting standards
- • Weight gauge provided to allow for quick and easy counterbalance adjustment of the arm prior to installing the screen.
- Saves time and guesswork especially for multiple arm installations.
- • VESA Plate rotates for portrait and landscape viewing with 180° side to side rotation and -90° to +45° tilt for optimal
- viewing adjustment
- • Die cast aluminum construction provides greater stability and contains high recycled material content with full recyclability
- • Adjustable rotation limiter to restrict arm rotation to 180°, preventing arms from contacting walls
- • Comes with all tools and mounting hardware for quick and easy installation (Tool-free)
- Available in Silver (SIL), Black (BLK) or White (WHT).

- Drawer fronts are edged on all four sides with matching 3mm edge
- All drawers locking as standard
- Key alike available
- Pedestals available in 15-1/2" width and 18, 20, 23, 24, 29, 30, 36 depth, include one pencil tray
- All mobile pedestals have option for a counterweight
- Storage modules feature levellers 5/16" x 1" easily accessible from outside the unit. All others feature 5/16" x 2" levellers.
- Monopost legs available in 3 different options, 2.5" or 3" square, 3" round and 6" round
- 6 handle options
- Storage modules available in 4 heights 29", 50", 65.8", 72.8"
- Lateral modules available in 3 widths 30", 36", 42"
- Rectangular grommets are standard and can be specified in a variety of locations as standard (see Grommet Location page A.10)
- Several Power Grommets style and configurations available.
- Drawers/Door fronts are available in a different finish than that of the chassis. Please specify option. Note that the kick plate will match the drawer front finish unless otherwise noted.

FREESTANDING - TECHNICAL INFORMATION

Worksurfaces
Worksurfaces are offered in LP (1"), B (1 1/16") or W (1 7/16").
All worksurfaces are drilled to accept connectors in a desk configuration.
Worksurfaces are available in the following shapes: rectangular, bow, wedge and swerve.

Worksurface Edge trim
Available in 1 1/16" ("B" thickness), 1 7/16" ("W" thickness) or 1" ("LP" thickness).
Wood grain PVC edge trim, available in Boulevard (S) edge "B" and "W" thickness only.

Edge Options

Boulevard (S) Edge

"LP" Thickness — 1"

HP "B" Thickness — 1 1/16"

HP "W" Thickness — 1 7/16"
Hardware
All attachment hardware is included.

Modesty Panels
Available in full panel 27 5/8" high or half panel ("H" option) 10" high.
Modesty panels are flush mounted with 24", 30" and 36" deep end gables.
Modesty panels are available recessed for 30" and 36" deep end gables.
All recessed modesty panels are inset 6" from the edge.
Only flush modesty panels are used for extended shell and bridge.
Only full modesty panels are used for "L2D" desks: Rectagular, Bow, and Wedge worksurfaces.
All exposed edges are edge banded.

Panel and Gables
The term "end gable" or "narrow gable" is used to configure a shell, single pedestal or return.
The term "end panel" or "narrow panel" is used to configure a table desk with shaped worksurfaces such as "D", "P", or profiles.

All end gables are interchangeable for left or right hand use.
End gables 24", 30" and 36" deep are drilled to accept full or half modesty panels that are flush mounted.
End gables 30" and 36" are used for full or half modesty panels that are recessed.
All panels and end gables are 1" thick and 27 5/8" high.
All panels and end gables are finished in low pressure laminate.
End gables are used in shells and single pedestal desks.
Narrow end gables are used in shells, single pedestal desks, "T", or "L" bases.
Narrow panels are routed to accept modular connectors for "T" or "L" applications.
All panels and gables are predrilled to accept levelers at the bottom and connectors at the top.
All panels or gables are 3mm edge banded at the exposed edge .
All narrow gables are routed at the top to allow cables to pass through and come with a connecting flat bracket.
All bottom edges are edge banded.

Handles
Handles are offered in 4 styles.
Options are as follows: BB = Bow Matte Black
BC = Bow Matte Chrome

UB = "U"Dull Black
UC = "U"Dull Chrome

FA = Flat Aluminum

RN = Round Nickel
Span dimension between drilling locations is 192mm.

GROMMET LOCATION

Notes

All worksurfaces are standard with rectangular grommets # BG5. Worksurfaces 54″ wide and under are standard with 1 grommet. Worksurfaces over 54″ wide are standard with 2 grommets.

Grommet location must be specified at time of order or it will default to "no grommet" option.

Technical Information

Double Pedestal Desk/ Single Pedestal Desk
- All desks are Shipped knocked down (KD).
- Pedestals are shipped assembled
- Pedestals are LP all over
- Non Interlocking mechanism Pedestals
- Half modesty available on all Double Pedestal Desks, specify 'H' Before size eg. L2DRH3060FB
- Half modesty available on Single Pedestal Desks, specify "H" before size eg. L2DRH-3060BR
- All desks have modesty recessed 6"

Executive Return Desk
- All desks are Shipped knocked down (KD).
- This typed of desk must be connected at open end to adjoining worksurface with flat brackets.
- Half modesty available on all Single Pedestal Returns, specify "H" before size eg. L2RH2036FL

Single Pedestal Returns
- All desks are Shipped knocked down (KD).
- This type of desk must be connected at open end to adjoining worksurface with flat brackets.

DESKS • GUIDELINES FOR ORDERING PRODUCT

CODES: The price list uses a numbering system with meaningful alphanumeric characters to create a simple-to-understand product number. This makes specifying the product much easier and more accurate.

Technical Information

Technical Information
Reception Desk:
All desks are shipped KD.
Centre desk reception transaction top is available in "LP", "B" or "W" thickness to match the thickness and profile of worksurface edge.
All other exposed edges are banded with 3mm PVC.
Center unit is freestanding and can be connected on one or both sides with a return or bridge.
Bridge unit is connected to the centre unit to extend the return on either side. This unit must be connected on both ends and nonhanded.
Left or right hand unit is designed to extend the centre unit. This unit must be connected on one end.
Can be used as a freestanding unit or connected with surrounding bridge or corner surround.
Comes with transaction top.

DESKS • GUIDELINES FOR ORDERING PRODUCT

CODES: The price list uses a numbering system with meaningful alphanumeric characters to create a simple-to-understand product number. This makes specifying the product much easier and more accurate.

Technical Information

- All Desks and connecting shells are Shipped knocked down (KD).
- All connecting units must be connected to an adjoining worksurface where there is either no end gable or a narrow gable with flat brackets.
- Gables & partial gables are interchangeable.
- All bottom edges are edge banded.

- Each shell allows for grommet (BG5) to be specified at no upcharge. Please see general information (Section A) for location.

General Notes

Pedestals
Pedestals are shipped assembled.
Pedestals are offered in three types of applications: Worksurface Supporting, Freestanding, and Mobile.
Pedestal front width is 15-1/2" with a deep size variation 18" 23" 24" 29" 30" 36"
If specifying a pedestal for a desk or credenza, please ensure you specify next depth lower ie. 23" deep pedestal for a 24" deep credenza or desk.
Worksurface supporting Pedestals are 28"high
Freestanding pedestals come with the choice of "LP", "B" for 29"high or "W" thickness top for 29.5"high
Pedestals Freestanding are on adjustable levelers
Mobile pedestals come with a top with the choice of "LP", "B" for 29"high or "W" thickness top for 29.5"high and have front locking casters to support the pedestal.
Pencil tray included in the top box drawer of each pedestal.
Box drawers mounted on full extension ball bearing slides
File drawers mounted on full extension ball bearing slides
All file drawers come with adjustable rails for legal or letter size hanging folders. See File Drawer Capacity chart page G2.
Pull out shelf for CPU and printer units can support 75 lbs. per shelf and has telescopic extension.
CPU and printer units have ventilation grommet on back panel.
Interior clearance of printer shelf is 11".
Printer pedestals have 2 pull out shelves and the back panel has four round grommets.
CPU pedestals have 1 pull out shelf and the back panel has two round grommets.
Both CPU and printer units must be installed under a worksurface to prevent tipping.
All pedestals with a door, include 1 adjustable shelf.
Cases and fronts are finished in low pressure laminate.
Specify thickness of the top to match the thickness of the worksurface.
Locks are standard on all units. Available in black or silver finish. The lock will match the handle finish.

Hutches and Overheads
Hutches and overheads are shipped assembled.
Hutches and overheads are offered in "LP" and "W" thickness with three option heights . See Storage Technical Info page G3.
Specify thickness of hutch or overhead top to match the thickness of the worksurface.
Cases and fronts are finished in low pressure laminate.
Hutches and overheads with hinged doors (laminate or aluminum), flip up fronts have no handle option.
Hutches with pigeon holes come with touch latch mechanism.
Hutches and overheads with sliding laminate doors have standard handle options
Hutches and overheads with sliding glass doors are offered with recessed handle only. The recessed handle is in chrome finish
Hutches and wall mounted overheads are offered in 4 styles: Open storage, Hinged doors - laminate or anodized aluminum frame doors with the option for glazing : frosted or clear, sliding doors are laminate or glass doors and flip-up doors.
Once installed, the bottom of the flip-up door overhead will not line up with the bottom of the open or hinged door overhead.
Wall mounted storage cabinets must be securely attached to wall studs.
Panel mounted overheads include attachment brackets for Boulevard panels.
Back panels on hutches comes with a center round grommet for wire access.
Top on hutch and overhead storage cabinets with flip-up doors is 3/4" thick Low Pressure Laminate. Doors slides on top of the unit.
Inside dimension for hutches and wall mounted units with flip-up doors is 13 1/4" high x 14 1/2" deep
Inside dimension for hutches and wall mounted with hinged doors is 12 3/4" high x 15 1/4" deep
Inside dimension for open hutches and wall mounted is 12 3/4" high x 15 1/4" deep
Inside dimension for hutches and wall mounted with sliding doors is 12-3/4"high x 13" deep
Use double sided tape to attach hutches to worksurface.
Locks are standard on all units. Available in black or silver finish. The lock will match the handle finish.
Recommended to be installed against and fixed to a wall using appropriate hardware (not included).

Credenzas
Credenzas are shipped assembled.
Credenza model # L2CR2H2H or L2CR1H1H must be ordered with counterweights to avoid tipping.
Credenza come with the choice of "LP", "B" or "W" thickness top
Credenzas are offered with the choice of "LP", "B" for 20"h. or 29"high and "W" thickness top for 20.5"h or 29.5"high
Credenza come with hinged doors, laminate or anodized aluminum frame doors with the option for glazing : frosted or clear
Locks are standard on all units. Available in black or silver finish. The lock will match the handle finish.

Bookcases
Bookcases are Shipped knocked down (KD).
Available in 30" or 36" widths and 12.685" and 16.685"depths dimension at baseboard with range in height from 29" to 72" with 12" clearance between shelves.
Bottom shelf is fixed and all other shelves are adjustable.
Specify thickness of the top to match the thickness and profile of the worksurface.
Tops are offered "LP" or "B" or "W".
Up to 42"h, Bookcases are offered in "LP" , "B", "W".
54"h. and up are offered in "LP" and "W".
Recommended to be installed against and fixed to a wall using appropriate hardware (not included).

Laterals
Laterals are shipped assembled.
Laterals are available in three widths, 30" 36", 42" with a height variation of 28" to 54" and a depth of 20" and 24".
Tops are offered LP, B or W
Worksurface supporting units do not come with a top.
Up to 42"h, laterals are offered in "LP" , "B", "W".
54"h and Up are offered in "LP" and "W".
Cases and fronts are finished in low pressure laminate.
Laterals with hinged doors, laminate or anodized aluminum frame doors with the option for glazing: frosted or clear
Lateral files are offered in 2 types of applications: Worksurface Supporting and Freestanding.
All lateral files feature a drawer interlocking mechanism
Up to 42"h, Laterals are offered in "LP" , "B", "W".
54"h, and up are offered in "LP" and "W".
All file drawer come with adjustable rails for legal or letter size hanging folders.
Counterweights must be specified in a lateral configurations except worksurface supporting.
"C" combo lateral have a pencil drawer included in the box drawer. The penciltray is parallel with the depth of the drawer.
In "C" combo lateral, only one side can be locked.
All laterals with a door, include 1 adjustable shelf.
File drawers mounted on full extension ball bearing slides
Locks are standard on all units. Available in black or silver finish. The lock will match the handle finish.

Towers and cabinets
Towers and cabinets are shipped assembled.
Towers offered 24"w and cabinets 30"w and 36"w are offered in "LP" and "W".
Cases are finished in low pressure laminate.
Towers or cabinets are offered with hinged doors, laminate or anodized aluminum frame with the option for glazing: frosted or clear
Towers or cabinets with anodized aluminum doors are offered without handles.
Touch latch mechanism is included.
Storage tower with the cupboard above FF or BBF and wardrobe will lock only the wardrobe and drawers.
Storage tower with the wardrobe include a coat rod.
Locks are standard on all units. Available in black or silver finish. The lock will match the handle finish.
Counterweights must be specified for units 20" deep by 60" to 72" high with 2H2D or 2H/Open, please order 2 x LACWB for each unit.

L2BRTSAxx • Storage Table Beam Adapter
- Storage table beam adapter allows a worksurface to be supported by a leg on one side and storage spine on the opposite side. A typical Storage spine is formed by series of interconnected 21" or 25" high storage cabinets of corresponding depth.

PRODUCT	PRICE	SIZE/	INCHES		WEIGHT	VOL
CODE		H	W	D	LBS	FT³
L2BRTSA21	134	6.5	15.2	1	2.15	0.05
L2BRTSA25	114	2.75	15.2	1	4.3	0.02

- The Storage beam is connected to a single or Back 2 Back leg on one side and to the worksurface on the opposite side - thus saving one leg assembly.
- The 21" or 25" adapters provide structural support - acting as supports between top of the storage cabinet spine and the bottom of perpendicular worksurfaces.
- The flexible leg/beam/adapter assembly arrangement allows the leg to be tucked in under the worksurface or to be shared by two adjacent worksurfaces. Included hardware connect the adapter to the worksurface and to the Spine storage beam adapter tower.
- Note: Specify Storage Beam nominally 18" shorter than worksurfaces for storage spine support application.
- Specify Storage Spine Adapter BRTSA21 (21") or BRTSA25 adapter (25") - depending on the height of Bridges storage units forming the spine.
- Includes all hardware necessary to connect the adapter to the beam, worksurface and storage spine.

L2BRTC • Cushion

- Optional seat cushion may be added to any storage component.

- 25" high System3 panel also enables creation of a storage-based spine with full 8-wire, 4-circuit power and data capacity.

L2BRPX3MA25xx • 25" High System 3 Panel

- 25" high System3 panel facilitates seamless transition from a panel-based, enclosed office to an open one. It can be connected to a cluster of panels on one side and continue with power / data spine distribution into collaborative areas.
- 25" high System3 panel also enables creation of a storage-based spine with full 8-wire, 4-circuit power and data capacity.
- B3 panel Top trim option provided with embedded, frame-less glass pane rising 8" above the top of the panel. For instance, when installed on 42" high B3 panel, overall height will be 50" high.
- There is 1.25" gap between two adjacent glass panes.
- Glass shipped separately, Allen key to set the glass pane plumb is provided with each panel.
- 5mm tempered glass, acid etched on one side or clear.
- Square corners on glass.
- Integrated adjustable brackets and extruded aluminum trim.
- Cannot be retrofit on-site.

L2PO • Pantry Storage
Left Hand Shown

- The pull out cabinet serves as a multifunction, customizable storage unit that both defines space and enhances privacy in an open plan environment.
- Can be used in conjunction with Licence, Bridges, FreeFit and Boulevard.
- Internal organization consists of two fixed shelves top and bottom. The two middle shelves are adjustable. Two accessory rails are standard and will accept GC metal accessories
- Interior cabinet shelves and back are standard in Designer White. Cabinet shell, drawer and top can be specified in any standard laminate.
- L2P0-NL/R does not fit binders.
- Only available with FA handle.

Finish

While the Pantry Storage cabinet walls, top and pull-out drawer front door and back panel finish can be specified, The internal cabinet back and adjustable shelves are standard white.Please specify the cabinet top and pull-out drawer front finish.

Options

- Dual USB outlet kit - please add "USB" at the end of the code. Add $512 to the list price
- When you specify dual USB outlet the top shelf will come with grey felt surface and grommet which allows for cable passage from the USB outlet (located below the top shelf). A two-prong power cord exits the cabinet through the floor at the back.
- Dry-erase marker board - Choose "DE" option. Please add $361 to the list price. If specified the Dry-erase marker laminate will be applied to the external surface of the pull-out drawer side wall.

Specifiable finish

Optional dry-erase marker laminate on the external surface of the drawer's side wall.

Accessory Rails

Optional felt padding, grommet and USB outlet (below the shelf)

Adjustable Shelves
Integrated Accessory rails

Two accessory rails (each 18.25" long) are provided to further enhance customization with Global Contract metal accessoriesa.

Upper Accessory Rail:

1xBALT01 or BALTO1GL Letter Ttray

1x BALT01 Letter Ttray
1x BAMBO1 Media Bin

2x BAUT01 Utility Ttray

Lower Accessory Rail:

1x BALTO1 Letter Ttray
1x BAMBO1 Media Bin

3x BABB01 Media Bin
or
3x BAMBO1 Binder Bin

1x BATHO1 Telephone Holder
1x BABBO1 Binder Bin

1x BALTO1 Letter Ttray
1x BABBO1 Binder Bin
Technical Information - Tables

- **Tables**
- All table surfaces are High Pressure Laminate in "B" or "W" thickness.
- All tables have "T" mold edge band, unless otherwise indicated.
- Tables up to and including 96" long are manufactured in one piece, 120" to 192" long are manufactured in two pieces and over 216" are manufactured in three pieces. If wood grain laminate is chosen, the wood grain pattern will not line up.
- Tables in 2 or 3 pieces will have the joining edge finished with PVC edge (0.5mm), hardware will be shipped for assembly.
- Power modules and grommets are not included, they must be specified seperately.
- Grommet locations must be specified at the time of order or it will default to "no grommet" option.
- Positions for drop in power and data grommets are intended for use on tops with the following bases: LR, LSQ, LDRUM, TELRS, TELRR, TELBS, TELBR. For any other base, please consult Customer Service Representative.
- Tables are not pre-drilled to accept legs or bases.
- "LTR" Rectangular shape tables with edge B and W have a 1" radius at each corner.
- For table tops with square corners, please add "NR" at the end of the product code, no upcharge required. The "NR" option is available only with the B and W edge profiles.
- "LBT" Boat shape tables are 6" narrower at the ends. The nominal size is identified at the centre.
- "LBTB" Boat shape tables with bow ends are 12" narrower at the ends. The nominal size is identified at the centre.
- Trapezoid tables can be used in several combinations.

- **Bases**
- Available in variety of materials metal, high pressure laminate or low pressure laminate, please refer to specific base in price list
- "LR" Rectangular and "LSQ" square bases come standard with removable access door and cut out on the bottom of the base for pass-thru cables.
- "TELRS / TELBS" square and "TELRR / TELBR" rectangular bases come standard with cut out on the bottom of the base for pass-thru cables. Hinged access doors are optional and must be specified with an "HD" at the end of the code. There will be an upcharge of $83 to the list price.
- Drum bases are finished in high pressure only and comes with a full bottom and notch at the top. Sand bag included. Access door is not an option.
- Drum, rectangular and square bases are shipped assembled.

- **Folding Legs**
- Legs are folded by pressing the lever. Once folded, the legs are held securely by the interlocking springs.
- Includes adjustable levelers offering 12mm (1/2") of adjustment.
- Minimum special sizing for tables is 54" in length and 25" in depth.
- Sold per pair.

- **Flip Top Training Tables**
- "GFT" Rectangular Flip tables with edge B and W edge have straight corners.

- **Visual Board**
- Unit offered in high pressure laminate (B) comes with 2 high pressure laminate doors
- Cork board included on one inside door.
- Unit closes with a touch latch mechanism, but no lock option.
- "MG" indicates a magnetic white board.

Tables • Guidelines For Ordering Product

CODES: The price list uses a numbering system with meaningful alphanumeric characters to create a simple-to-understand product number. This makes specifying the product much easier and more accurate.

SPECIFICATION EXAMPLE OF A TABLE UNIT

Terina Tables

Terina™ is a multi-purpose table that allows you to quickly adapt your space to suit your needs. The simple flip-top mechanism is designed for single-handed operation. Tables nest in an upright position to minimize storage space.

Worksurfaces

Laminate surfaces (B) are 1-1/16" thick tops constructed of 45lb. density particle board with high pressure laminate and finished on the underside of the surface with a kraft paper backing. Veneer (V) surfaces are 1-3/16" thick tops constructed of 45 lb. density particle board and are balanced on the underside with veneer (unfinished). Worksurfaces are pre-drilled for alignment of the Terina base.

Base

Tables feature an aluminum leg, cross beam and die-cast foot. Legs and cross beam are available in all standard panel frame painted finishes. Die-cast foot is always in polished aluminum finish. Foot span is 23"

Casters

Casters are standard on all tables. 2-3/8" dual wheel casters with manual lock. Full 360º swivel. Suggested for carpeted surfaces. Available in grey only.

Ganging Plates

Ganging plates are available for ganging adjoining tables together. Ganging plates are black epoxy coated steel plates with two thumbscrews.

Wire Managemant

Wire management option is a snap-in channel that fits on the interior of the leg or on the understand of the flip-top cross beam.

Modesty Panels

10" Modesty panel affixes to the top and base, articulating when it folds down. available in all standard LP laminate and veneer finishes.

GFT-R • Rectangular Flip Top Training Table

• B and V edge tops have square corners

Technical Information - Vice Versa Tables

Tables
- All worksurfaces have threaded inserts for metal-to-metal connection of support hardware.
- 60" and 72" tables come standard with wire manager.
- HP tops are 1 1/16" thick laminate particle board.
- P tops are 1" thick MDF with a painted finish (for storage only)
- W tops are 1 3/16" thick particle board with wood veneer finish. Edge is solid wood edge banded. (for occasional tables only)

Storage Units
- All units are shipped assembled.
- High pressure laminate or wood tops are available. Contact your Customer Service Representative.

HP Top with PVC Edge
- Rectangular mobile table made of 1 1/16" thick particle board with High Pressure laminate finish. HP tops have 3.5mm PVC edge.

Viceversa Leg

Universal mounting plate can be used to gang 2 tables simply by rotating 45° to span 2 table tops without metal skirts.

Table legs have a wire management channel that neatly organizes electrical and communication cables running from the worksurfaces to the floor.

The channel is covered by a clear PVC snap-on cover.

The Viceversa leg features a push button height adjustment mechanism. This mechanism allows the user to easily set the height of a table.

Legs have a height range of 23.5" – 30.5" in 1" increments for levelers and 25"-33" with casters.

Viceversa legs are available with:
- Levelers
- Locking casters.

NOTES:
Levelers have a 0.5" height range.
Levelers available in Charcoal Grey only.
Casters available in grey with black only.
Legs are available in our (6) standard finishes.
Finish is durable environmentally friendly paint.
VVRT • Rectangular Tables with 4 Legs
- Tables are designed to work individually or as a group. They can be moved to meet the changing needs of an individual or group.
- Tables come standard with 4 locking casters. Optional levelers available, please specify.
- 6" metal skirt provides strength and stability.
- Modesty Panel, Pong Panel or 6" metal skirt cannot be used on tables with 2 legs or shared tables.

General Specification

FEATURES

Table frames feature 80 X 50 mm rectangular outer leg with the large tube attached to the foot.

Open base design with ample room for chair and user's legs.

Flat foot design includes adjustable (10mm) glides.

All table frames include expandable width upper crossbars to create a variety of size tables.

Tables have no lower crossbars.

All table frames are easy to assemble with few parts.

Tables are designed so that the paint will never mar on the leg during operation.

Steel construction of the leg assembly tubing, feet and upper structure assemblies.

Powder coat finishes for bases standard in (DWT) Designer White, (BLK) Black and (TUN) Tungsten.

All standard Global Contract laminate finishes are available.

Sizes of tops are "nominal". Unless otherwise stated, actual depth is 1" less and actual width is 2" less than "nominal" size.

Additional Finishes available minimum quantity of 72 legs (36 - 2 leg tables, 24 - 3 leg tables or 18 B2B Tables) Blizzard, Charcoal, Nevada, Silver, Steel, Stonedust, and Taupe

All bases lift 350 lbs on two leg tables.

All bases operate at 1.5" per second.

Standard Range Frame adjusts from 27.5" to 47" including the worksurface.

Extended Range Frame adjusts from 22.5" to 48.5" including the worksurface.

Tops are warrantied for lifetime and bases are warranted for 7 years.

CERTIFICATIONS

Products are fully compliant with ANSI/BIFMA X5.5 – 2014, CAN/CGSB-44.227 - 2017; EN 60335-1 and UL962

All Global Contract Extended Range tables meet the BIFMA G1-2013 Ergonomic Guideline for "recommended adjustment range".

EXTENDED RANGE COLUMNS

The 3-part construction ensures a short installation dimension combined with a long stroke length making the Extended Range Column the optimum choice no matter the height of the person using it. The middle profile of the column moves synchronously so the profiles are always in the same height optimising the desk design and the stability.

Compact design where guide and actuator functions are an integrated unit

Reinforced column and optimised motor housing design for extra strength and stability

Max. thrust 1200 N per column (12 mm spindle pitch)

Max. speed 38 mm/s unloaded

Installation dimension: 560 mm 518 mm (BIFMA)

Stroke length: 650 mm 665 mm (BIFMA)

Dimensions column: 50 x 80 mm (outer profile), 43.5 x 73.5 mm (middle profile) and 37 x 67 mm (inner profile)

Low noise level

No visible gliding pads

STANDARD RANGE COLUMNS

The 2-part lifting column is a perfect choice for a wide range of different desk applications in the office.

Compact design where guide and actuator functions are an integrated unit

Reinforced column and optimised motor housing design for extra strength and stability

Max. load 800 N per column

Max. speed: 38 mm/s unloaded

Standard installation dimension 645 mm

Standard stroke length 500 mm

Dimensions column: 50 x 80 mm (outer profile) and 43.5 x 73.5 mm (inner profile)

Dimension motor housing: 177 x 97 x 46 mm

Low noise level

No visible gliding pads

FOOT

Freefit offers two foot styles either a "T" or "C".

The feet are available in two different lengths (560 mm and 710 mm). The foot offers a recessed connection for the column and connects from the bottom with 4 bolts. Adjustable glides are standard

DESK MOUNT FRAME

Can be specified in two lengths Short Frame (SF) for tables 48" – 60" in length.

Long Frames (LF) for tables 66"- 84" in length

All metal parts Black

Cantilever length: 550 mm

Central or off-centre placement of columns (T-desk and C-desk)

Includes all connecting hardware

CONTROL BOX

Two leg tables come standard with a 200 W Control Box

• Mains voltage 230 VAC, 50 Hz, or 120 VAC, 60 Hz

• Ultra-compact; length 210 mm length

• Lightweight control box; weight only approx. 400 g

Three Leg Tables come standard with a 300 W Control Box

• can be connected up to 4 columns

• Mains voltage 100-240 VAC, 50-60 Hz (universal)

• Ultra-compact; length 265 mm length

• Lightweight control box; weight only approx. 500 g

Common features for the (200 W and 300 W):

• Ultra-low; height only 38 mm

• Environment: Operation Storage

Ambient temperature: 5 to 40 °C -10 to +50 °C

Relative humidity: 20 to 80 % at 30 °C 20 to 80 % at 30 °C

Atmospheric pressure: 700 to 1060 hPa 700 to 1060 hPa

• Compact high-power SMPS (Switch Mode Power Supply)

• Colour: black

• Protection against overload (EOP), by individual current limitation

• The control box is designed with a soft start/stop function

• Autodetection of the number and type of columns connected

• Cable grooves at the bottom to optimise cable management

• White plugs for easy recognition when mounting/dismounting

• PVC-Free™

• Low standby power consumption – only 0.1 W.

• Exchangeable standard mains cable

STANDARD UP/DOWN CONTROLLER

Features Bluetooth® connection, two favourite positions and a reminder via an LED to remind the users to

use their desk. The Controller is activated by tilting the desk panel in the same direction as the desk is intended to drive. Via pulsating green and orange lights, the LED reminds the users to change positions. Using the integrated Bluetooth® and downloading the Desk Control™ App the user can also be reminded via notifications on computers and smart devices.

• Colour: Black

• Black cable with RJ45 modular plug, 1700 mm straight

• PVC-Free™

• Featuring ZERO™: Very low power consumption in standby mode

• Approved according to EN 60335-1

• Approved according to UL962

DISPLAY UP/DOWN CONTROLLER

Features Bluetooth® connection, four favourite positions, a display to guide the users and a reminder via a light strip to remind the users to use their desks. The Controller is activated by tilting the desk panel in the same direction as the desk is intended to drive. The Display Controller features a modern discreet design with a glossy surface and an integrated display to ensure a clean and minimalist design. The display provides guidance to the users when operating the desk. Via pulsating green and orange lights, the light strip reminds the users to change positions. Using the integrated Bluetooth® and downloading the Desk Control™ App the users can also be reminded via notifications on smart devices.

• Colour: Black
• Black cable with RJ45 modular plug, 1700 mm straight
• PVC-Free™
• Featuring ZERO™: Very low power consumption in standby mode
• Approved according to EN 60335-1
• Approved according to UL962

ANTI COLLISION SENSOR

Features enhanced Anti-Collision protection which can limit material damage to a desk or an object if a collision occurs during driving of the desk. The sensor is a compact plug-in adapter based on gyroscope-technology, and it detects even little tilting of the desk when the desk is driving up or down. Upon detected tilting, the system stops and drives in the opposite direction to avoid collision and damage to the desk or the object. The sensor can detect both hard and soft obstacles. The Anti-Collision Sensor is standard on all desks.

• Reacts to angle changes bigger than 0.7° per second
• Just plug it in – no mounting required
• ZEROTM Power capable
• PVC-Free

BATTERY BOX

A high-performance lithium-Ion battery with a capacity of 2.15 Ah. On a full charge the table can cycle from 35 to 45 stroke lengths based upon the range of column selected and load on the table.

• Compact unit for easy handling and installation
• Battery alarm (audio) when charging is needed
• Battery charging indicator (LED light bars) indicating the capacity level
• Thermal switch protection, overcurrent protection
• Colour: black
• Battery capacity: 2.15 Ah / 52 Wh
• Nominal voltage: 24 V DC
• Discharge current: 9 A (max)
• Maximum charging voltage: 40 V DC
• Charging current: 0.5 A
• Weight: 600 g

USAGE

• Ambient temperature: 5 to 40 °C
• Storage temperature: 0 to 45 °C
• Approved according to:
EN 62133 (Battery safety testing)
UL 1642 (Lithium cells, standard test)
UN 38.3 (transportation of Lithium batteries)
UL 2054 (Household and commercial batteries)
EN 60335-1 with CBH Advanced

NOTE: All grommets must be specified separately.

FT52xxxxCL • Standard Range Base with C-Legs

- Kit includes one beam, two cantilevers, two standard range columns and two C styled feet.

42" - 60"   66" - 84"

• Kit includes two beams (one small and one large), three cantilevers, one standard range corner column, two standard range columns and two C styled feet.
• For 23" deep worksurfaces, use 24" CL leg.
• For 29" and 35" deep worksurface, use 30" CL leg.
• For enhanced collision detection an Anti Collision Desk Sensor included with every base.
• For Standard Up/Down Controller add (S) at the end of the code. For Display Controller, please add at "D" at the end of the product code and $114 to the list price.
• Specify paint finish: BLK-Black, DWT-Designer White, TUN-Tungsten.

FTDPG1M	97	1	3	4.3	0.4	0.01

FTCD2DUSB • Desk2Device USB Charger
- Charge virtually any USB device directly from your FreeFit desk. Reduce cable clutter and get better power access.

PRODUCT CODE	PRICE	SIZE/INCHES H	D	W	WEIGHT LBS	VOL FT³
FTCD2DUSB	575	0.85	3.77	1.96	0.187	0.004

- The charger is powered directly by the control box of a FreeFit table, no additional power outlet is required.
- Features one USB Type-A port (output 7.5w), two USB Type-C ports (output 50w if one port is used, 25w if both are used.
- Housing is white in color and the mounts are in black.
- Can be mounted on top of the table surface or underneath the surface (horizontal or slightly tilted).
- Includes two different mounts and a rubber (silicone) pad to secure placement on a smooth desk surface.
- Low standby power consumption of only 0.1w.
- LED diodes indicate either charging or that an active device is connected.
- PVC-Free (TM).

FreeFit • Single Table; 21' high dividers

- FreeFit table mounted dividers for single table or single table row; recessed 6.5″ at both ends (for example - 72″ (70″ actual) FreeFit table mounted divider measures 57″).
- The centre of all dividers is always mounted 2.250″ from work surface's rear edge. Please note the gap between the divider and the work surface therefore varies, depending on the divider thickness (1.250″ framed dividers. 0.750″ frame-less LP and 0.250″ frame-less glass).
- 48″ (33″ actual) - 66″ (51″ actual) dividers have 2 mounting brackets.
- 72″ (57″ actual) dividers have 3 mounting brackets.

Frameless 0.250″ glass

Frameless 0.750″ laminate

1.250″ Framed dividers available in following materials:
- Tackable fabric, LP, HP, Dry-erase, Magnetic/dry-erase.

Application example illustrates relationship between 57″ divider and 72″ (70″ actual) FreeFit table.
Example Order:
BWATMFD72
(actual dimension of 57″) for
BWA2D3072A8
(actual dimension of 70″).

FreeFit • Back 2 Back Table; 37" high dividers

- FreeFit Back 2 Back stationary dividers; stationary, shared, secured to table structure; recessed 6.5" at both ends (for example - 72" (70" actual) FreeFit table mounted divider measures 57").
- The centre of all dividers is always mounted 2.250" from work surface's rear edge. Please note the gap between the divider and the worksurface therefore varies, depending on the divider thickness (1.250" Framed dividers, 0.750" frame-less LP and 0.250" frame-less glass).
-
- 48" (33" actual) divider for 48" (46" actual) table
- 54" (39" actual) divider for 54" (52" actual) table
- 60" (45" actual) divider for 60" (58" actual) table
- 66" (51" actual) divider for 66" (64" actual) table
- 72" (57" actual) divider for 72" (70" actual) table

Framed dividers (Tackable fabric, LP, HP, Dryerase, Magnetic/dry-erase.

Frameless LP

Frameless glass

Application example illustrates relationship between 57" shared divider and 72" (70" actual) FreeFit Back 2 Back table.

Example Order:
BWASFD72
(actual dimension of 57") for
BWA2D6072A8
(actual dimension of 70").

## BWATMFD/BWATMLD • Table Mounted Framed Dividers
- Connects parallel on Freefit single and back 2 back tables.
- Divider frame and connecting hardware is painted, please choose from standard metal paint finishes.
- Fabric divider is tackable.
- Divider infill can be specified in fabric, low pressure laminate (LP) , high pressure laminate (HP), dry erase whiteboard (DE) or dry erase magnetic white-board (DM) user side only.
- Fastens to the underside of the worksurface
- 1.625" gap between worksurface and divider allows for cable pass thru
- Installed divider measures 15.7" from top of worksurface and 5.75" below the worksurface.
- 48" to 66" dividers include 2 support brackets. 72" divider includes 3 support brackets.
- When dry erase magnetic whiteboard (DM) is specified it is applied user side ONLY and dry erase whiteboard (DE) is applied on the opposite side

FFTDPxxxxH24 • Height Adjustable Table Polycarbonate Divider Screen Kit, 24" high

- Provides privacy in an open plan environment.
- Lightweight and easy to clean table mounted partitions.
- Consists of a powder coated aluminum frame, translucent fluted polycarbonate and all hardware to connect. Brackets are painted steel.
- Side dividers extend 6.237" from the front edge of each surface.
- Back divider extends over the back edge of the worksurface by 1 1/2" allowing for the passage of cables to the trough.
- FFTDP24xxH24 are for 23" deep surfaces and FFTDP30xxH24 are for 29" deep surfaces.
- Width and depth are nominal sizes representing the sizes of the FreeFit Table. Allow for 1/4" overhang at the sides, 1 1/2" at the back and 6.237" at the front.
- Please choose any standard paint finish from Global Contract for frame and hardware. End trim cap is available only in CHR - charcoal.

FTAEG • Back to Back End Gable
- Optional Back to Back Freefit End Gable is intended to be installed at the end of Freefit Back to Back table run.
- Made out of 3/4" PL Laminate, it enhances
- Freefit table assembly aesthetics by reducing number of visible elements below work surface.
- Two heights available.
- The End Gable connects to Freefit H-frame crossbar; compatible with Floor Feed.
- Please specify LP finish.
