## stockholm by punt mobles product information

---

Designer Mario Ruiz's Stockholm Credenza conveys a new kind of sophistication with its combination of wood and metal materials. A part of the Punt Collection, Stockholm brings a chic, modern, mid-century design element to any workspace. The credenza doors and drawers are without handles, highlighting the beauty and natural appearance of the wood grain as it flows across the storage fronts. The finished top is an elegant, anodized aluminum and can be customized to include a wire management flip-up door.
