## Trine product information

The Trine Stool, designed by Estudi Manel Molina, was inspired by the classic and iconic three-legged milking stools used on farms in Spain. Manel combined his experiences of growing up on a farm and his artisanal background to create an alluring stool that is as simple as it is complex. Trine takes fabric, metal, and wood to produce a breathtaking design where a unique metal base and footrest seamlessly intertwine with metal or wooden legs. Trine's three sizes, a dining height, a bar height, and a counter height, combined with Studio TK's multiple textiles, wood finishes, and powder coating options, bring flair to all residential, hospitality, and workplace applications.
