teknion

what is simple workstation

what is simple workstation

Simple Workstations are a collection of District and Leverage common applications

- Pre-specified and value engineered in Teknion's most common District and Leverage applications
- Convenient and time saving with completely pre-specified workstations
- Variety of stylish popular workstations in multiple heights, finishes and size options (but not too many options)
- Zero order complexity: choose one code, save time, complete your order
- Featuring our hiSpace Quick Connect Table with all the enhanced features

Options include:

- Eight layout options
 - six District including Power Spine
 - two Leverage
- Four height options for District and Leverage
 - 42" high solid
 - 51" high (42" high solid with 9" high frosted glass)
 - 51" high solid
 - 66" high (51" high solid with 15" high glass)
- Two height options for Power Spine
 - 29" high solid
 - 42" high (29" high solid with 9" felt screen)
- Fixed and height-adjustable worksurface options
 - Height-adjustable worksurface includes:
 - adjustment range = 26.1" -(22.6" – 48.7")
 - Collision Detection System
 - enhanced wire management
- Double-sided and single-sided configurations
- 2, 3, 4, 6 or 8 occupant configurations
- Three finish palettes

PRODUCT FEATURES

- District spine with corridor screens
- Parallel credenzas
- Perpendicular fixed or height-adjustable worksurfaces (height-adjustable shown)
- Overall area dimensions for fixed and height-adjustable configurations:
 - 4-cluster: 12'-2" x 12'-1"
 - 6-cluster: 18'-2" x 12'-1"
 - 8-cluster: 24'-2" x 12'-1"

terms & conditions

special quotes (SQ)

A special quote (SQ) is required for orders to be processed, and includes:

- Discount for Simple Workstation-Clusters only
- Standard discounts for add-on product categories outside of Simple Workstation-Clusters
- When ordering add-on products, a separate order needs to be placed

Pricing for other Teknion products follow the normal special quote (SQ) process

small order surcharge

Included in the price.

order tag

Tag #3 in Specification Software cannot be used, it is reserved for Teknion processing.

specials

No specials allowed to pre-specified Simple Workstation-Clusters. Any modifications would happen with the purchase of additional products.

change orders

No change orders will be accepted.

damage / replacements

Teknion Acknowledgments include the Bill of Materials for each-Cluster, refer to the Acknowledgment to obtain the individual code for damaged product.

Replacement orders are created manually in the Specification Software and ordered as a standard SIF file.

claims

The claims process will remain the same as for the standard order process.

billing

All orders will be billed to the dealers.

No orders will be a Teknion Direct Bill.
