- No Effect** No change in color or surface finish.
- Slight Effect** A change in color or surface finish only visible at certain angles.
- Moderate Effect** A change in color or surface finish visible from all angles and directions, but does not appreciably alter the original condition of the material.
- Severe Effect** A change in color or surface finish, which obviously and markedly alters the original condition of the material.

The above evaluations are indicators after laboratory testing performed with proper cleaner/disinfectant usage. After each application, the surface must be wiped with clean water and dried with a clean towel to remove any chemical residue. Improper use of cleaners/disinfectants can expedite a product failure and void warranty.
