TEKNION WEIGHS IN ON NEURODIVERSITY

A recent interview on neurodiversity with Scott Montemerlo, National Program Manager- Education at Teknion, was published in the March 2020 issue of **The Business of Furniture Magazine**. The article explores how Teknion has taken neurodiversity into consideration by expanding its product portfolio to address individual sensory processing while catering to a variety of learning, social, collaborative and work spaces.

Learning By Design Spring 2020 magazine features an article entitled "Considering Students' Neurodiversity: The Next Imperative When Designing Active Learning Environments". Authors Jeffrey Ashley, Martha Anez, Caitlin Beach, Monique Chabot and Marie-Christine Potvin from Thomas Jefferson University and Scott Montemerlo from Teknion examine the challenges active learning environments impose on students given the continuum of neurodiversity.
