teknion

update summary

Please be advised that information has been updated within the Routes Reference Guide. To highlight these updates, a summary has been created for your reference.

revised

Fabric types, grades and pricing have been updated for the following products:

- Work Board (CQCWB)
- Tech Board (CQCTB)
- Add-On Boards (CQCAB)

The following products have been delisted:

- Takt Cross Chair (CQSXC)
- Takt Cross Chair, Upholstered Seat (CQSXU)

Please note, first orders for new products will be accepted on January 22, 2024. All software will also be updated by January 22, 2024. If you have any questions regarding the information enclosed, please contact your Teknion Customer Service Representative.

what is routes

intuitive, comfort, performance

Designed in partnership with PearsonLloyd, Routes is a collection of work tools driven by the concept, “What do we need, really need, to work efficiently and well?”

The Routes collection is designed to complement a strong story of agility, mobility and choice. The collection is made up of furniture, lighting and accessories, given fresh yet familiar forms that are easy to understand and to specify; easy to assemble, configure and use.

"Simplicity is inherent in the product. You know intuitively how to use it." Luke Pearson

"You don’t need an instruction manual. Just grab what you need and enjoy using it." Tom Lloyd

routes product map

Routes provides a balanced portfolio of high-performance work tools: tables, seating, storage and screens, as well as accessories, lighting and a coordinated selection of textiles.

- The Coat Stand, Rocking Chair and Table Lamp offer a familiar residential look and feel
- A quirky Three Leg Stool takes inspiration from a ready-made utility object—a tractor seat—and offers the user ease of stepping on or off the stool
- A Mobile Soft Screen, Multi-Use Stool and Adjustable Side Table fulfill the intention to provide furniture that's as agile and as robust as possible

light, agile, mobile

Routes encourages people to move about and to move their furniture around, to make or unmake a space in which to think, meet or create.

bold, playful, practical

Infused with a simple, direct functionality, Routes adds an expressive element through vivid accent colors Blue Sage and Signal Red.

Equally, the seamless bold curves of tubular steel are among the expressive shapes that give character to the collection. Routes offers a radically new profile and materiality for furniture for work environments.

routes sample layouts

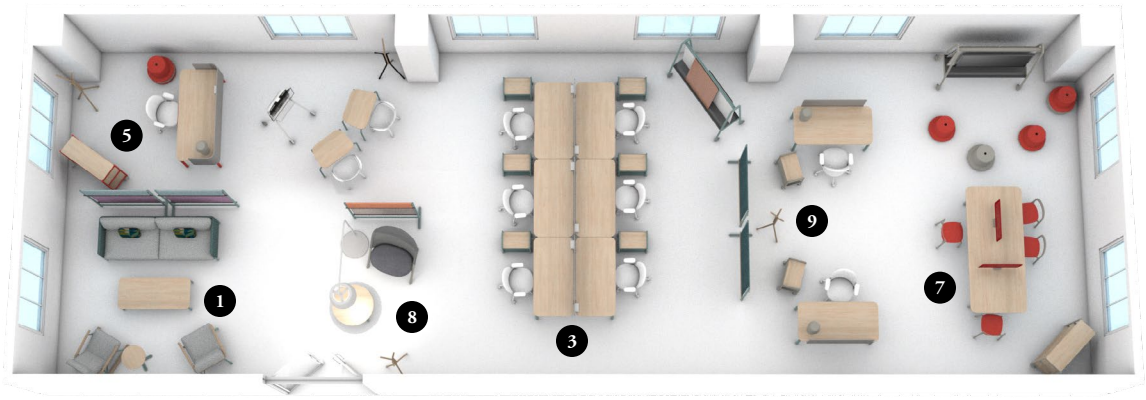
Routes departs from conventional contract furniture with a toolbox of boldly conceived products that are simple and able.

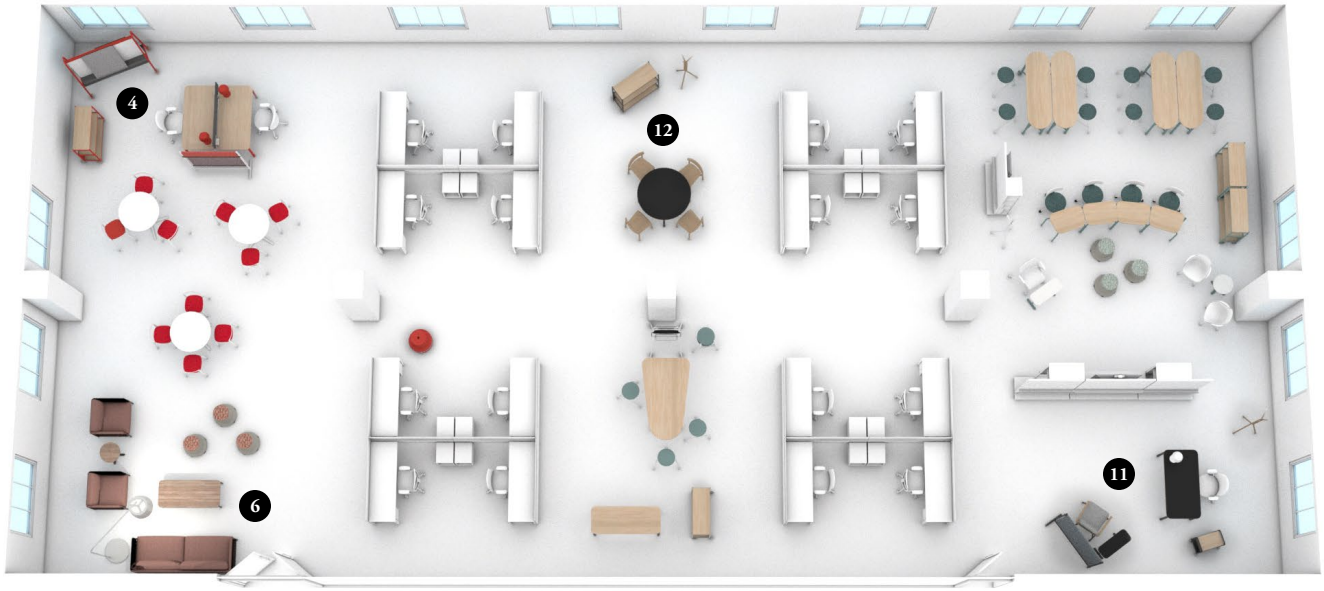
The collection allows one to build-up a complete workspace for a small, tight-knit studio or create casual “pop-up” work hubs across the expanse of a corporate headquarters.

Routes readily adapts to spaces big and small, to the requirements of an established enterprise and to the needs of those who work at home.

“Routes is quite lighthearted, quite enjoyable to use as a collection.” Tom Lloyd

“Visually, Routes is bold enough so that as you pepper a landscape with various pieces, you recognize that it’s a bit different.” Luke Pearson





The following layouts are available on the Teknion Planning Tool.

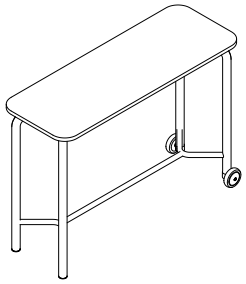
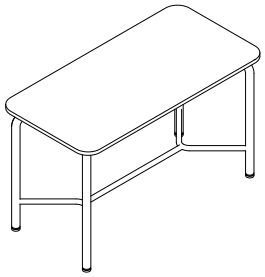
- Routes Desks and Meeting Tables have a tubular leg aesthetic
- The collection is ideal for individual or shared work settings as well as meeting rooms
- All Routes tables include hook and loop cable management straps for routing cables. See the *Electric* section of this Guide for details
- Routes Single and Double Desks are compatible with both Swerv and Mast monitor arms

FRAMES

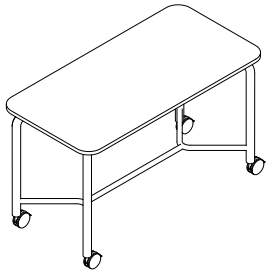
Routes Desk and Table frames are available in three profiles: Agile, Fixed and Mobile.



Agile tables have in-line wheels on one end and glides on the opposite end.



Fixed tables have four levelers.



Mobile tables have four casters.

EDGE TRIM

All Routes Tables have a Foundation Laminate top and a flat edge trim that can be specified to match or contrast with the top.

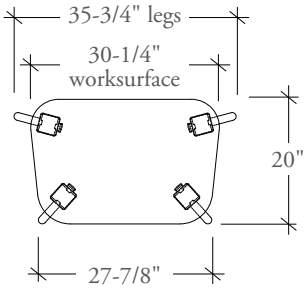
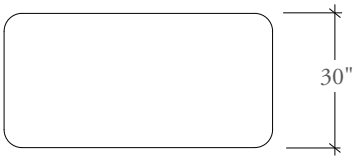
routes tables overview

DIMENSIONS



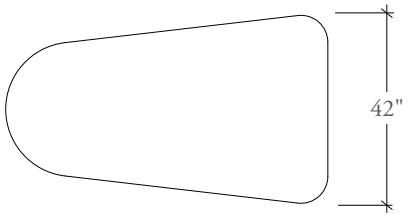
SoloMini Table

- Parallel sides are not the same dimensions, providing additional planning flexibility
- The table legs extend beyond the sides of the worksurface, giving more leg room



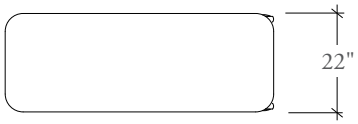
High Table

- 30" deep
- Option of either four levelers or four casters



Partner Table

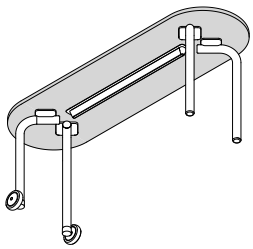
- 42" deep
- Option of either four levelers or four casters



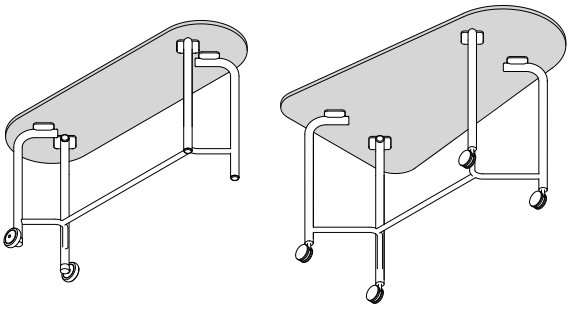
Agile Table

- 22" deep
- Always with two wheels and two glides

FOOT RAIL



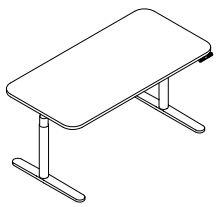
29" high tables do not have a foot rail.



36" and 42" high tables have a foot rail.

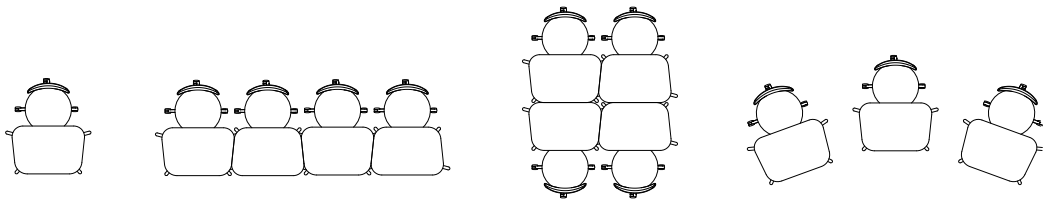
HEIGHT-ADJUSTABLE TABLE

hiSpace offers a round leg base, and worksurface sizes and finishes to match the Routes aesthetic.
Available from Complements: *Teknion's Ergonomics & Accessories Program.*



SOLOMINI TABLES

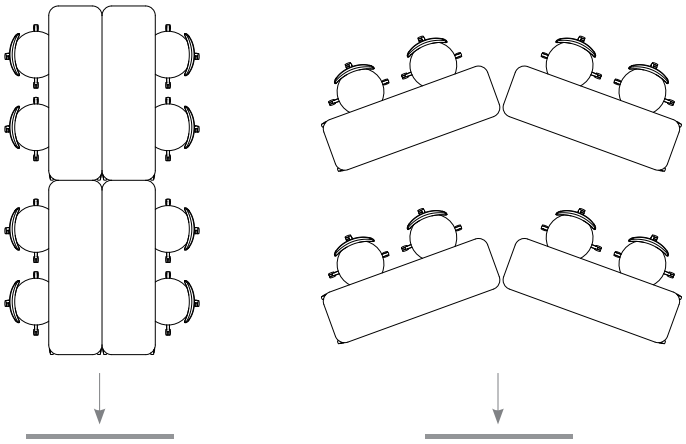
SoloMini Tables can be used for solo focus work or grouped together for collaborative applications and can also be stacked to a maximum of four high for storage.



Individual Work | In-Line or Against a Wall | Group Work Together | Group Work Apart / Presentation / Conferencing

AGILE TABLES

Agile Tables can be planned oriented towards a fixed point of attention such as a speaker or a screen.



They can also be re-oriented to face each other when pivoting towards a more interactive/collaborative setting.

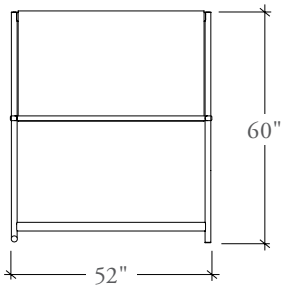
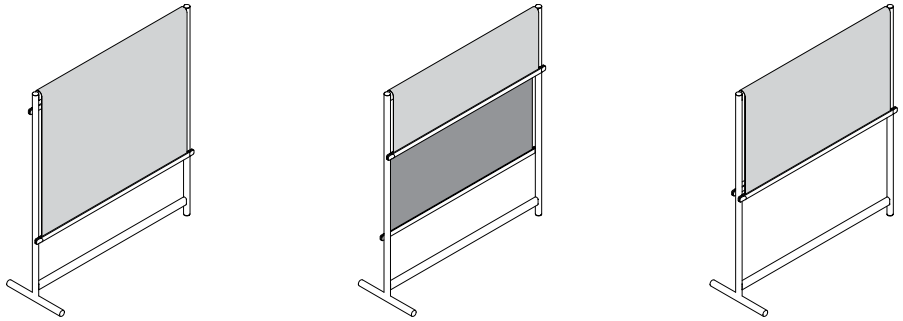
MOBILE SOFT SCREENS

The Mobile Screen is a lightweight and mobile adjustable fabric screen that provides various levels of space division.





The screen is fabric with wood ends that stay in place with magnets.

The fabric is seen from both sides, so a different aesthetic can be achieved just by raising or lowering the screen. Only one fabric is specified:

- for DuoChrome, a contrasting color will be on the opposite side
- for all other available fabrics, the back side of the fabric will be seen on the opposite side

KNIT MESH SCREENS

The Knit Mesh Table Screen is a freestanding screen that can be used throughout a space, either on the end of a desk or to provide space division on a table.

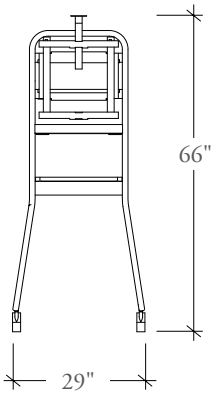
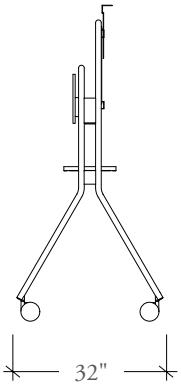
routes media rover overview

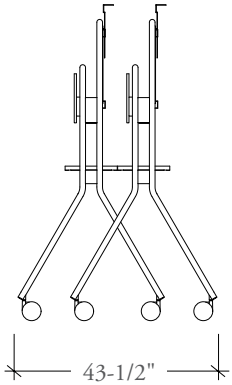
The Media Rover creates an interactive digital experience between present and remote workers. It can be moved around the office easily to create a destination for digital collaboration.

- Accommodates a TV screen ranging from 43-50"
- Includes a webcam mounting bracket

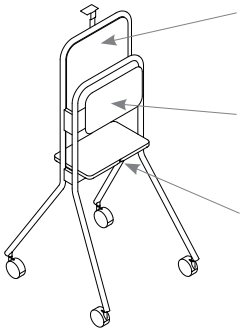
DIMENSIONS







Can be ganged together for storage.



Removable PET cover (magnetic) conceals the cabling running behind the TV

Removable PET cover (thumbscrews) hides the power bar trough behind the TV.

Shelf provides casual storage for remotes and other peripherals and includes an integrated HDMI cable clip.

WEB CAMERA POSITION

Bar and Counter Height:
Webcam installed above the TV

Task or Lounge Height:

routes electrics & wire management overview

Routes Power Ports and Shared Power Hubs provide quick power, data or USB access.

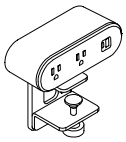
Each includes a grey braided nylon cloth Power Cord in lengths of 72", 120", or 180".

Power Ports and Hubs cannot be daisy chained to each other, each unit must go directly to a floor monument or a wall outlet.

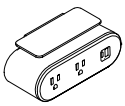
POWER PORTS

Routes Power Ports mount to single worksurfaces above or below the worksurface.

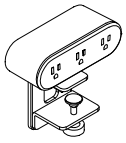
The following configurations are available.



2 Power, 1 USB A&C,
Desk Edge Clamp



2 Power, 1 USB A&C,
Undermount Clamp



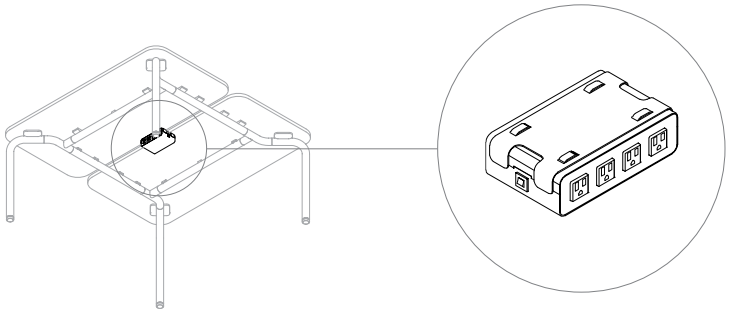
3 Power,
Desk Edge Clamp

3 Power,
Undermount Clamp

SHARED POWER HUB

Routes Shared Power Hubs mount to the center of the underside of shared worksurfaces only. They can be accompanied by a Felt Cable Manager.

The following configuration is available.



8 Power, Under
Worksurface Mount

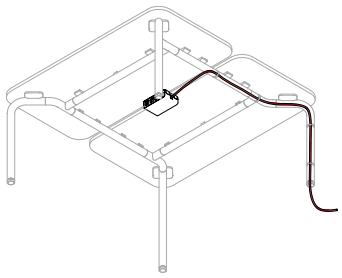
CABLE MANAGEMENT STRAPS

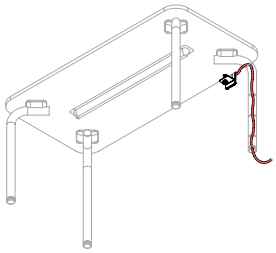
All Routes Tables include four hook and loop cable management straps that secure cables anywhere along the tubular frame and route cables from the worksurface to the floor.

Each Strap is 15" long to secure multiple cables.

Additional cables can be easily added without removing the strap from its position on the tube.

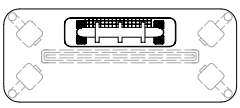
Straps are double sided to provide two color options (dark and light) to coordinate with any frame color.



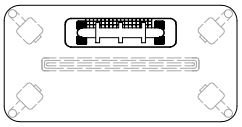


CABLE MANAGER

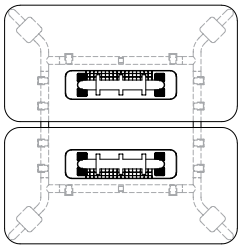
Felt Cable Manager is specified separately and is positioned in the following locations.



24" x 60" Worksurfaces



30" x 60" Worksurfaces



30" Deep Double Shared
Worksurfaces

routes COM/COL requirements

The pattern, repeat and directionality of fabric may increase the amount of yardage required.

Leather quantities should always be rounded up to the next hide size, as yields vary from 60-80% and are affected by the quality, size and shape of the hide, and by the location and quantity of blemishes.
