teknion

The Sprout™ Stool & Table collection is the culmination of Danish designer Thomas Pedersen melding classic organic lines with innovative ideas and simple details. The collection is inspired by nature – budding flowers, foliage and branches at varying stages of size and growth. Each can be used solo or in a larger arrangement of similar or varying colors and textures. The sturdily constructed metal trumpet base and support can be finished in any Teknion paint color, creating endless possibilities when upholstered with Luum Textiles options. Ideal for short-term applications, Sprout is perfect for use in workplaces, phonebooths, cafeterias, cafes, retail and educational settings.

The Sprout collection is designed with a pleasing trumpet base, offering a visually appealing aesthetic. Counter- and bar-height stools feature a discreet footrest. Small-scaled table surfaces are offered in round and soft-square shapes, each with a flat or full-knife edge trim style to meet varying needs.

07

Designed for corporate and commercial applications, the Sprout collection has been tested to ANSI/BIFMA standards and the stools have a 300lb (136kg) weight capacity. Sprout seat heights are fixed for safer use and a consistent look in public spaces.

Task-height stools easily integrate within casual lounge areas, collaborative work areas or within a workstation as touchdown guest seating.

Sprout upholstered seats and footrests swivel 360 degrees, making the stool multi-directional and ideal in compact spaces such as phonebooths, enclaves and compact meeting areas.
