

bevy mobile

bevy mobile

product information

Designed by Mario Ruiz for Studio TK, Bevy Mobile offers a seamless solution for workplaces that need to change quickly and often. Thanks to its large wheels on one side, Bevy Mobile provides a fluid design that can be easily reconfigured, encouraging accidental encounters that lead to innovation when people collide. Each corner is equipped with a hook for hanging personal items, keeping them off the floor and within reach. Available as a square, round, and rectangular work surface, these tables come in both work and bar heights. Bevy Mobile is a stylish and durable worktable with customizable laminate surfaces, painted accents, and warm hardwood legs in a variety of finish options.
