## tone

quiet, yet spirited, design

Visually soft and minimalist, Tone is designed to blend seamlessly with its setting. Its rounded frame invites touch and a pure silhouette balances simplicity with superior comfort. Tone allows for an expressive use of materials with two mesh options and two sleeve styles. Thoughtful in each detail at an accessible price, Tone marries the needs of people, place and planet in an elegant whole.

#### Mesh

- Two different mesh styles are available in an uplifting color palette
- Performance Mesh features a breathable, open translucent weave
- Lifestyle Mesh offers a softer, tighter weave similar to residential fabric

#### 3D Knit Sleeve

- An innovative knit sleeve, adapted from the organic structure of a leaf, adds tactile softness and comfort
- Artisanal in design and craftsmanship, dual yarn pairings create organic mélange details
- Made to fit, the knit sleeve adds texture with minimal fabric waste and environmental impact

#### Luum Sleeve

- Tailor fitted to slip over the Tone backrest, utilizing the same chair to refresh a space with minimal additional investment
- A curated collection of Luum textiles in a range of colors and patterns expands design options to create a more quiet, or spirited, setting

## smooth felt hoodie screen

The Smooth Felt Hoodie Screen provides a softly curved enclave for a desk, a little huddle space that feels private yet welcoming. Inspired by the cozy hoodie we all wear at home, its familiar comfort and relaxed posture is echoed in the Smooth Felt Hoodie Screen – enough of a curve to duck into, but enough visibility to not be startled when someone approaches your desk. The soft-to-the-touch felt also provides acoustical privacy as well as the opportunity to bring accent color into a space.

## workplace tote/caddy

As we move from one activity to another throughout the day, we typically grab our phone, laptop, charger, presentation materials and even a snack – trying to juggle everything as we trek from work spaces to meetings. The Workplace Tote/Caddy is a portable, touchdown storage unit that functions like a briefcase – just pack it and park it. It is designed to fit in lockers and can be stationed on worksurfaces and shelves. It features an accented handle and soft felt material that coordinates with the Smooth Felt Hoodie Screen.

## casual power post

As work styles change and we migrate from the dedicated desk, the need for close proximity to a power source remains essential. The Casual Power Post is ideal for agile work environments such as training rooms and cafeterias where shared power access is required, as well as lounge and personal respite settings to facilitate power during moments of focus. The exterior post and base finish can be specified in a different color than the front. A choice of black and soft gris receptable colors is also available. Featuring four standard configurations from AC power to USB-C options, two height options and a choice of wattage power, the Casual Power Post can power your day.

## studio tk – trine stool

The Trine Stool, designed by eStudi Manel Molina, was inspired by the classic and iconic three-legged milking stools used on farms in Spain. Manel combined his experiences of growing up on a farm and his artisanal background to create an alluring stool that is as simple as it is complex. Combined materials produce a unique

metal base and footrest that intertwine with metal or wooden legs. Trine’s three heights – dining, counter and bar – combine with Studio TK’s multiple textiles, wood finishes and powder coating options to bring flair to residential, hospitality and workplace applications.
