

teknion byward

teknion

simple. versatile. affordable.

Offering a fresh approach to casegoods design, Byward™ is about doing more with less. Composed of ten core products, the collection combines streamlined design, dimensions and construction to cost-effectively meet essential needs.

Inspired by the heritage of Canadian forestry, the name Byward pays tribute to the history of Ottawa and its original name, Bytown. Once a major trading center for the logging industry and timber products, Ottawa today is home to the renowned ByWard Market, one of Canada's largest public markets. Defined by a name both contemporary and rich in tradition, the Byward line of essential wood furniture projects an image of timeless quality.

Byward provides a classic built-in look with flexibility to adjust over time. Lending a familiar residential look to the office, pieces are scaled to optimize space in the pared-down footprint of today's private office or shared work hub. Cabinets and tower dimensions

are trimmed from a standard depth of 20-24 inches to a lean 14 inches deep. Storage units feature a signature leather pull and elevated base with shelf, providing added functional capacity. Wall Shelves include trays and coat hooks to support personal items.

06

Casual, intuitive and easy to use, Byward enables a range of planning and aesthetic options. All desk and storage units are freestanding, readily adapting to changes

in workflow or space allocation. Desks incorporate a power bar and unobtrusive wire pathways to support technology, keeping wires against the wall and out of sight.

Offering units with a trimmed depth, Byward is ideal for touchdown spaces and enclaves, offering the essentials needed for comfort and productivity within smaller spaces. Byward achieves a high level of fit and finish through

standard material and finish options. Finishes include Teknion's Flintwood, Veneer 2/3, and twelve popular solid colors and wood grain laminates.

Byward storage interiors are purposefully designed without drawers to achieve cost-efficiencies through streamlined product construction. Where storage with drawers

are required, units from Teknion's Journal™ series can be blended with Byward to create a seamlessly integrated suite both functionally and aesthetically.

Adding further versatility to planning, Byward also blends with Teknion's Expansion® Casegoods height-adjustable desks. Completely freestanding, the sit/stand units marry well visually and functionally with Byward to create diverse applications.

features

01 low cabinet, top access

The Low Cabinet, Top Access features an open cabinet case with accent tray that glides along the crossbar. Grooves in the felt liner accept personal items and work tools.

02 desk with pedestal

Desk options include an integrated pedestal to store personal items. The pedestal also features a sliding accent tray with felt liner to store small items.

01-02 wall shelf

Wall Shelves add both functionality and personality to a space. A 4-inch deep metal shelf displays artwork and holds dividers to organize workflow. Shelves with coat hooks and a tackable felt board are also available.

01-02 accent color

Accent colors can be applied to Byward storage accent trays and wall shelf dividers and trays to either contrast or complement a suite.

03-04 handle

Byward features a unique leather handle available in two finish combinations: Black Leather with Titanium Grey hardware and Natural Leather with Anthracite hardware.
