Geoglyph by Luum

Fragmented and textural, emerging and fading, Geoglyph's large-scale grid pattern mirrors the impressions we leave on the Earth, progressing from the ordered to the eroded. A nod to the graphic patterns of geoglyphs—works of art created by arranging objects within a landscape—this upholstery textile utilizes high-UV boucle and blended yarns, making it bleach-cleanable and suitable for indoor/outdoor use alongside its coordinate, Pebble Melange.
