teknion

what is byward

simple. versatile. affordable.

Offering a fresh approach to casegoods design, Byward™ is about doing more with less. Composed of ten core products, the collection combines streamlined design, dimensions and construction to cost-effectively meet essential needs.

Byward provides a classic built-in look with flexibility to adjust over time. Lending a familiar residential look to the office, pieces are scaled to optimize space in the pared-down footprint of today's private office or shared work hub. Cabinets and tower dimensions are trimmed from a standard depth of 20-24 inches to a lean 14 inches deep.

Casual, intuitive and easy to use, Byward enables a range of planning and aesthetic options. All desk and storage units are freestanding, readily adapting to changes in workflow or space allocation.

Desks incorporate a power bar and unobtrusive wire pathways to support technology, keeping wires against the wall and out of sight. Storage units feature a signature leather pull and elevated base with shelf, providing added functional capacity. A Wall Shelf provides coat hooks and trays to support personal items.

Byward achieves a high level of fit and finish through standard material and finish options. Finishes include Teknion's Flintwood, Veneer 2/3, and twelve popular solid colors and wood grain laminates. Accent colors can also be applied to infuse a touch of personality.

Adding further versatility, Byward integrates with Teknion Journal™ and Expansion® Casegoods to provide drawer options, height-adjustable worksurfaces and additional storage.

Inspired by the heritage of Canadian forestry, the name Byward pays tribute to the history of Ottawa and its original name, Bytown. Once a major trading center for the logging industry and timber products, Ottawa today is home to the renowned ByWard Market, one of Canada's largest public markets. Defined by a name both contemporary and rich in tradition, the Byward line of essential wood furniture projects an image of timeless quality.

planning with byward

Whether a desk, cabinet and bookcase is needed, or just somewhere to hang a coat or hat, Byward has a solution.

The furniture pieces can come together for a built-in look, or be rearranged over time to adjust the workflow or feel of a space.

Byward includes the essentials, including wire management, power bars and clever integrated wire management cutouts and pathways to keep wires where they should be; against the wall and out of sight.

The following demonstrates how the same kit of parts can be reconfigured to create different layouts.

planning with byward (continued)

Byward is ideal for small, medium and large open spaces or offices.

The following layouts can be found on the Teknion Planning Tool.

SMALL SPACES

- 8' x 8'
- One to three pieces of furniture
- Used for an individual or focused space
- Ideal for hotelling and temporary offices

planning with byward (continued)

MEDIUM SPACES

- 8' x 8' to 10' x 10'
- Three to four pieces of furniture
- Used with or without a guest space
- Ideal when a space is a user's full time office, it offers the essentials to settle in and feel at home

planning with byward (continued)

LARGE SPACES

- 12' x 12' or larger
- Four pieces of furniture
- Inclusive, not just for executive type offices
- Ideal for a built-in look that can be rearranged as needed

BLENDED SOLUTIONS

Byward blends well with Journal, Expansion and other Teknion products.

The following typical outline a variety of layouts that can be achieved.

planning with byward

Bywards finish offering allows for the creation of unique looks.

Just by the finish selection the same layout can go from contemporary to traditional.

grain direction

The grain direction on Byward desks and storage varies depending on whether it is laminate, flintwood or veneer.

laminate

METAL PAINTS FOR ACCENT TRAYS AND DIVIDERS

byward desks & returns

Byward provides four options for desks and returns.

Desks are available with or without storage.

Modesty Panels are 10"h. and the depth is determined by the depth of the worksurface:

- 24" depth = 4-1/4" inset from worksurface edge

- 30" depth = 8" inset from worksurface edge

- 36" depth = 12" inset from worksurface edge

Returns are either wall mounted or require connection to a desk.

The following indicates where finishes can be applied.

Byward Desk

Byward Desk with Pedestal

Areas for Application:

A = Top – Flintwood, Veneer 2/3 or Laminate (HPL)

B = Leg – Foundry Onyx Metal Paint

C = Modesty Panel with End Gable or Storage – Flintwood, Veneer 2/3 or Laminate (LPL)

D = Handle – Leather Finish

E = Accessory Tray – Accent Paint with Smooth Felt Pewter Liner

Byward Return with Storage

Byward Return, Wall Mounted

Areas for Application:

A = Top – Flintwood, Veneer 2/3 or Laminate (HPL)

B = Leg – Foundry Onyx Metal Paint

C = Modesty Panel or Storage – Flintwood, Veneer 2/3 or Laminate (LPL)

D = Handle – Leather Finish

byward desk (LWBDS)

The Byward Desk includes a YEPD Power Bar and wire management cutouts and pathways.

The Power Bar mounts near the gable to allow cables to exit through the gable into the wall.
