

LUUM

General Care + Maintenance

- Clean stains and spots promptly
- Always test the cleaning agent in an inconspicuous area of the fabric first
- Do not over saturate with liquid
- Follow cleaning product instructions
- Vacuum regularly with a proper upholstery attachment

Cleaning Codes

- W** Clean with a water-based cleaning agent. Do not use solvent products.
- S** Clean with a dry cleaning or solvent-based cleaning agent. Do not use water-based cleaning products.
- WS** Clean with either a water-based or solvent-based cleaning agent.

Care for Silicone Upholstery

Top Coat is a silicone upholstery fabric that inherently rejects microbiological growth. Top Coat has been tested using the following cleaners resulting in no visible changes to color:

Cleaner/Disinfectant	Result
Accel TB	No Effect
Amphyl	No Effect
Clorox Germicidal Wipes	No Effect
Johnson Diversey Virex II 256	No Effect
PDI Sani Super Wipes	No Effect
PDI Sani Plus Wipes	No Effect
PDI Sani Bleach	No Effect
Virex TB	No Effect
WexCide 128	No Effect
3M HB Quat	No Effect

The above evaluations are indicators after laboratory testing performed with proper cleaner/disinfectant usage. After each application, the surface must be wiped with clean water and dried with a clean towel to remove any chemical residue. Improper use of cleaners/disinfectants can expedite a product failure and void warranty.
